- Compatible with: iPod, iPod mini, iPod with color display, iPod nano 2nd Generation, iPod nano 3rd Generation, iPod classic, iPod touch, iPod nano 1st Generation, iPod nano 4th Generation, iPod nano 5th Generation, iPod touch 2nd Generation, iPod touch 2nd Gen 8/16/32GB, iPod 5th Generation, iPod nano 6th generation

iPod/iPhone App
- App name: DockStudio
- Free download from App store
- Playback: Album/track navigation, Playback controls
- Sound settings: 5 band equalizer, DBB, DSC-Flat,Pop,Rock,Jazz,Classic
- Clock: Analog display, Digital display
- Alarm: Multiple alarms, Sleep timer, Wake up to music, Wake up to nature sounds, Wake up to photo
- Battery status: Speaker battery status

Connectivity
- Bluetooth
- Bluetooth profiles: A2DP, AVRCP
- Bluetooth range: Line of sight, 10M or 30FT
- Aux in

Audio Playback
- Cradle playback mode: Charging iPhone, Charging iPod, Play and Pause, Next and Previous track

Sound
- Output power (RMS): 2x15 W
- Sound System: Stereo
- Loudspeaker types: Bass Reflex Speaker System
- Volume Control: Volume Control up/down

Loudspeakers
- Speaker Drivers: 2 x 3" full range woofers

Convenience
- Backlight
- Remote Control: Multi-functional

Power
- Power supply: 100-240VAC, 50/60Hz, Battery
- Battery Type: Built-in battery
- Operating time on battery: 8 hr

Accessories
- Included accessories: AC Power Cord, Remote Control, 3.5mm stereo line in cable, Warranty certificate, World Wide Warranty leaflet, Quick install guide, User Manual

Dimensions
- Product dimensions (W x H x D): 421 x 158 x 139 mm
- Packaging dimensions (W x H x D): 484 x 220 x 158 mm

Bluetooth

Made for iPod iPhone iPad

Highlights

Pure digital sound

Advanced pure digital sound processing technology offers vastly superior sound performance compared to the conventional analog audio processing technology that is found in docking players that use the analog audio output from an iPod/iPhone. By collecting the iPod's/iPhone's digital audio output and employing digital processing at each stage of the circuit, a much higher Signal-to-Noise ratio is produced. The result is unsurpassed sound clarity that is in perfect balance.

Built-in rechargeable battery
Built-in rechargeable battery for even better portability

Bluetooth music streaming
Bluetooth is a short range wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection to other Bluetooth devices, so you can play your favorite music from your iPod or iPhone on your Philips audio system - conveniently, anytime you want.

Curved back for better sound
The clean lines and sensuality of the curved back cover not only looks fabulous – it also creates a more effective structure for acoustics. Carefully designed, the curve increases the stiffness of the speaker cabinet, dramatically reducing internal resonance and resulting in more precise and natural sound reproduction. You get to enjoy both lovely looking speakers and sensational sound.

Optimal acoustic volume
Smart sound design brings you the best bass reproduction possible. The acoustic volume allocated to each midrange driver perfectly matches its acoustic requirements. Low tones come out deep and tight – delivering strong and rich bass.
