Highlights

Music, games, films, internet
All types of music, games, films and internet audio sources can be played, so no matter what you want to hear, we make your multimedia experiences sound more involving than ever.

Subwoofer + satellite speakers
The audio system is separated into a subwoofer that is optimized to reproduce bass frequencies and satellite speakers that are optimsed for mid- and high-range frequencies. The result is a system that powerfully reproduces the full range of audio frequencies from deep bass to crystal clear high notes with the minimum of distortion.

Excellent sound quality
Acoustically-tuned design and high-quality drivers ensure best-in-class audio performance.

Speaker-front control
Convenient speaker-front volume and power control

Rich and dynamic sound
Powerful drivers deliver music that pack a solid punch, with deep and dynamic bass to keep you motivated. The premium quality drivers ensure a vivid sound experience.

Bluetooth-enabled

Bluetooth is a short range wireless communication technology that is both robust and energy-efficient.

The technology allows easy wireless connection to other Bluetooth devices, so you can play your favorite music from any smartphones, tablets or even laptops including iPod or iPhone on Bluetooth-enabled speaker easily.

USB Direct for easy MP3 music

Thanks to the complete file transferability, you can easily enjoy the convenience and fun of accessing more digital music via the built-in USB Direct.

Audio-in

Audio-in for easy connection to almost any electronic device

FM tuner
The built-in FM tuner lets you enjoy your favorite songs or news from your radio station every day. Simply tune into the station that you want to listen.
