Why an Online Manual?

A new paradigm in science publishing:

- Searchable Protocols
- Frequent Updates & Additions
- Easy-Print Protocols
- The Print/Online Advantage

Take the Tour

A quick look at our online manual

Search the Protocols

Access to step-by-step instructions for members, abstracts for guests

Molecular Cloning

A LABORATORY MANUAL ON THE WEB

Cold Spring Harbor Laboratory Press

Individual User Agreement

The following agreement describes the terms and conditions for use of certain sections of MolecularCloning.com. MolecularCloning.com is the sole property of Cold Spring Harbor Laboratory Press (hereafter "CSHLP"). By registering and using MolecularCloning.com, you agree to be bound by the following terms and conditions:

1. Use of the site is restricted to those who have both purchased a copy of Molecular Cloning: A Laboratory Manual, third edition, in printed form, and those who agree to be bound by these individual user license conditions. Upon acceptance of these terms and completion of the online registration process, you will be granted an individual user license to access MolecularCloning.com.

Each book includes a Purchase Code (located inside the front cover of Volume 1) to be used when registering for the site. This Purchase Code may be used to register no more than five (5) individuals to use the Web site and the owner of the book is responsible for protecting the Purchase Code and all login information from use by unauthorized individuals. Each individual who successfully uses the Purchase Code to register on the Web site will have access to the entire MolecularCloning.com Web site (including the Members' portion of MolecularCloning.com). Once registered, Members need only log in by providing the E-mail address and password used in the registration process (not the Purchase Code) to gain access to the Members' portion of the site for subsequent visits. The password selected when registering must be kept confidential by the individual who registered with it.
2. It is a violation of this agreement for you to in any way share your Member password with others. This includes but is not limited to the verbal, written or electronic transmission of this information and the posting of this information on an electronic bulletin board, chat room or intranet.
3. You may download, display, view and print off single copies of protocols and information for your own personal use for research and private study purposes only. You may use an offline browser for this purpose provided that the browser is set to retrieve no more than one page per minute. Any use of an offline browser for other than personal use will be considered a violation of the terms of this Agreement.
4. Other than for the purposes set forth herein, you may not store permanently or transiently on any medium, modify, transfer, transmit, reproduce, loan to any third party or publish, otherwise exploit the whole or any part of any protocol or other information from MolecularCloning.com by any means.
5. **The Publisher reserves the right to block access to MolecularCloning.com for Member ID found to be in violation of these terms and conditions. At the Publisher's sole discretion, violators may be reinstated or permanently blocked from the site.**
6. You agree to obtain at your own cost all telecommunications and other equipment and software (including an Internet browser and Portable Document File Reader) together with all relevant software licenses necessary to access MolecularCloning.com.
7. MolecularCloning.com is provided on an "as is" and "as available" basis. CSHLP gives no warranty, express or implied, and makes no representation that MolecularCloning.com will be of satisfactory quality, suitable for any particular purpose or for any particular use under specified conditions (notwithstanding that such purpose, use, or conditions may be known to CSHLP), or that MolecularCloning.com will operate error free or without interruption or that any errors will be corrected, or that the material published in MolecularCloning.com is either complete or accurate.
8. Under no circumstances will CSHLP be liable for damages, including without limitation, damages for loss of data, or corruption of data, loss of programs, loss of business, goodwill, or any other incidental, consequential or indirect losses of any nature arising out of the use or inability to use MolecularCloning.com or from any errors, omissions, or other inaccuracies in or corruption caused whether by transmission processing or otherwise to any material published on or accessible through MolecularCloning.com.
9. Nothing contained in this single user license gives you any rights in the intellectual property or confidential information of CSHLP and/or the owners of the content published or otherwise made available through MolecularCloning.com.
10. The terms and conditions of this individual user license are governed by United States of America law and the United States of America courts shall have jurisdiction.
