## Email

Read and send email messages right from your phone.

### Adding your email account

We're assuming that you have set up Windows Live when you first set up your phone. If not, follow this procedure to set up Windows Live and your other email accounts.

1. On the Start screen, tap .
2. Tap **Settings > email & accounts > add an account**.
3. Select the account you want to set up.
4. Enter the email address and password, and then tap **sign in**.

### Checking your inbox

After you set up an email account, a new tile is created on the Start screen for that account. To open an email account, tap its tile on the Start screen. If you don't see the tile, tap the arrow  on the Start screen, and then tap the account in the apps list.

Slide your finger left or right to check only your unread, flagged, or urgent email.

### Refreshing an email account

Whatever your automatic sync settings are, you can also synchronize your sent and received emails manually at any time.

While in the account you want to sync, tap .

### Sending an email message

1. Open the email account that you want to use to send your email.
2. On the email account inbox, tap .
3. Fill in one or more recipients. You can:
  - Enter email addresses directly in the To field. If you're sending the email to several recipients, separate the email addresses with a semicolon. As you enter email addresses, any matching addresses from your contacts list are displayed. Tap a match to enter that address directly.
  - Tap  to the right of the recipient field, and then select a contact to whom you want to send the message. Tap  again to add more recipients.
4. Enter the subject, and then compose your message. Tap the space below the subject line to compose your message.
5. To add a photo attachment, tap .
6. Tap  to send the message immediately, or tap  > **Save** to send it later.

## Take a photo

Whether traveling for business or fun, enjoy taking photos and videos of your trip and encounters with your phone's camera.

1. Press CAMERA to open the camera app.
2. Before taking the photo, press the + or - buttons onscreen to zoom in or out.
3. Tap  and then select a camera flash mode depending on your lighting conditions.
4. Frame your subject on the Viewfinder screen.
6. Press CAMERA to take the photo.

## Capture a video

1. Press CAMERA to open the camera app.
2. On the Viewfinder screen, tap  to switch to video mode.
3. Before you start capturing, press the + or - buttons onscreen to zoom in or out.
4. Tap  and then choose whether to turn the flashlight on or off while capturing video.
5. Frame your subject on the screen.
6. Press CAMERA to start capturing video. Press it again to stop capturing.

## Connect a Bluetooth™ headset

Listen to music or have hands-free conversations over a Bluetooth headset.

1. Make sure that the headset is discoverable.
2. On the Start screen, tap .
3. Tap **Settings > Bluetooth**.
4. If the Bluetooth switch is off, tap it to turn on Bluetooth. Your phone will start to scan for Bluetooth devices within range.
5. When you see the name of your headset displayed, tap the name. Your phone then automatically tries to pair with the headset.
6. If automatic pairing fails, enter the passcode supplied with your headset.

## Lock your screen

Don't you just hate pocket dialing? Before putting your phone in your pocket or bag, lock the screen first so you avoid those accidental screen presses.

To lock the screen, just press the POWER button.

### Unlocking the screen

You can unlock the screen by pressing the POWER button to turn on the display, and then sliding the screen up starting from the bottom of the screen.

## Your Navigator Deluxe

Your Navigator Deluxe by Telenav provides voice-guided turn-by-turn navigation information to smart phone users on an interactive map. It's like having a portable navigation device (PND), but it's installed on your phone so it goes with you everywhere.

- Get GPS navigation with voice-guided turn-by-turn directions to any destination address in the Continental U.S.
- Plan your route online, and send it to your phone at [uscc.telenav.com](http://uscc.telenav.com).
- Receive audio and visual traffic alerts while driving or viewing maps, as well as traffic rerouting capabilities to minimize delays.

## Bing Maps

Find your way around with Bing Maps. You can track your current location, view real-time traffic situations, and receive detailed directions to your destination.

### Finding your location

1. On the Start screen, tap .
2. Tap **Maps**.
3. Tap .

### Getting an address and additional information for a location

1. Press and hold a location on the map. A balloon opens over the location with the address.
2. Tap the balloon to see more information.

You can get directions to the location, pin the location to the Start screen, share the location via text message or email, and more.

## Windows Marketplace

On Windows® Marketplace, it's easy to download and purchase new apps, games, and music that fit your needs and make your phone truly personal. A wide range of free and premium programs is available, from games to powerful business apps. You can also preview and purchase songs on the Marketplace.

To open Marketplace on your phone, tap  on the Start screen, and then tap **Marketplace**.

### Games

Join in and play Xbox LIVE® games right on your device. Download games from Windows Marketplace, then either play solo or use the Xbox LIVE service to play with your friends wherever they are.

## Your HTC 7 Pro Quick guide

For the complete user guide and other helpful resources, go to [www.htc.com/support](http://www.htc.com/support). Please also read the Safety and regulatory guide that's included in the box.

For additional information about your phone, go to [windowsphone.com](http://windowsphone.com).

**Note:** Certain Microsoft services/features may not be available in your country or region.

# Before you do anything else, please read this

## Charge the battery

The battery in your phone hasn't been charged yet. While your phone is charging, it's important that you do not remove the battery pack. Doing so can damage your phone. Also, please don't try to take your phone apart. (If you do, it may invalidate your warranty.)

## Choose a rate plan wisely

Your phone can use up a lot of Internet bandwidth really quickly. Before you use your phone, we strongly recommend that you talk to your mobile operator about data rates.

## Know about privacy laws

Some countries have strict laws about how and when you can record phone conversations. It's a good idea to find out what the laws are where you live before you use your phone's recording feature.

## And finally, a few important words from our legal team (LIMITATION OF DAMAGES)

To the maximum extent permitted by applicable law, in no event shall HTC or its affiliates be liable to you, any user, or third party for any indirect, special, consequential, incidental or punitive damages of any kind, arising in contract, tort, or otherwise, including, but not limited to, injury, loss of revenue, loss of goodwill, loss of business opportunity, loss of data, and/or loss of profits, regardless of the foreseeability thereof or whether HTC or its affiliates have been advised of the possibility of such damages. And in no event shall the total liability of HTC or its affiliates exceed the amount received from you, regardless of the legal theory under which the cause of action is brought. The foregoing does not affect any statutory rights which may not be disclaimed.

# Get to know your phone

# Before you turn on your phone

Get everything in order before you press the POWER button.

## Removing the back cover

1. Holding your phone securely with the front facing down, slide the back of the phone to the right.

2. With your thumb or finger, lift up the back cover from the small notch at the side of the phone.

## Installing the battery

Line up the battery's copper contacts with the connectors inside the battery slot. Then, gently push the battery into place.

## Replacing the back cover

1. Secure the right side of the back cover first by aligning the tabs on the back cover into the openings located inside the battery compartment.
2. Press the left side of the back cover down to lock the cover into place.

You will hear a click when the back cover is locked in place. (You may find it easier if you slide the keyboard back into place first.)

## Charging the battery

Use the supplied power adapter and USB cable to charge your phone.

# Set up your phone

When you switch on your phone for the first time, you'll be asked to set some options such as your time zone and your Windows Live ID. Just follow the onscreen instructions and you'll be up and running in no time.

## Adjust the volume

Press the VOLUME UP or VOLUME DOWN button to adjust the volume to your desired level. The volume bar appears on top of the screen and shows the volume level.

On the volume bar, tap the icon on the right to quickly switch to ring or vibrate.

## Change the ringtone

1. On the Start screen, tap the [Settings] icon.
2. Tap Settings > ringtones & sounds.
3. Tap the Ringtone box.
4. Listen to a ringtone by tapping the play icon beside its name.
5. Tap the name of the ringtone that you want to use.

# Start screen

This is where it all starts. The Start screen contains Windows® Phone live tiles that are associated with apps on your phone. Scroll up or down to see the other tiles. Tap a tile to access the app associated with it.

Check out the Start here guide that's included in the box for more details about the Start screen and the fun things you can do with it.

# Keep in contact

Bring in your contacts and add new ones to your phone.

## Adding a new contact

1. On the Start screen, tap the People tile.
2. In all of the People hub, tap the [Add] icon.
3. Enter information by tapping an item.
4. Tap [Save] to save the contact.

## Facebook

Want to stay on top of your friends' updates on Facebook? Sync with Facebook to see all your friends and get their latest updates right inside the People hub. Check out the Start here guide that's included in the box for details.

## Your Me tile

When you sign in to your Windows Live and/or Facebook account, your Me tile is automatically created on the Start screen. Tap your Me tile on the Start screen (or in all of the People hub) and check status updates you have posted, comments you have received, and pics that you have uploaded to your Windows Live and/or Facebook accounts.

# Make your first call

1. On the Start screen, tap the Phone tile.

2. Tap the [Dial pad] icon.
3. Dial the number you want to call.
4. Tap call.

# Send a picture message

1. On the Start screen, tap the Messaging tile.

2. On the conversations screen, tap the [Add] icon.
3. Enter the recipient name.
4. Tap the [Type a message] box.
5. Tap the [Photo] icon and then select a photo you want to send.
6. Enter your message.
7. Tap the [Send] icon to send the message.

# Connect to the Internet

Get online using your phone's data connection or Wi-Fi.

## Using data connection

Your phone will be automatically set up to use your mobile operator's data connection when you turn on your phone for the first time.

## Using Wi-Fi

1. On the Start screen, tap the [Wi-Fi] icon.
2. Tap Settings > Wi-Fi.
3. Tap the Wi-Fi networking On/Off switch to turn it on.
4. Tap the Wi-Fi network you want to connect to.
5. If you selected a network that is secured with WEP, enter the key, and then tap done.

## Browsing the Web

On the Start screen, tap the Internet Explorer tile to start surfing the Web. Use finger gestures to browse the webpage or to zoom in or out. Turn your phone to the side to view the web page in full screen.
