1	Instruction Manual

USE

L	Light	Switches the lighting system on and off.
S	Led	Motor running led.
V1	Motor	Switches the extractor motor on and off at low speed. Used to provide a contin-uos and silent air change in the presence of light cooking vapours.
V2	Speed	Medium speed, suitable for most operating conditions given the optimum treated air flox/noise level ratio.
V3	Intensive	Maximum speed, used for eliminating the highest cooking vapour emission, including long periods.

MAINTENANCE

Grease filters

CLEANING METAL SELF- SUPPORTING GREASE FILTERS

- The filters must be cleaned every 2 months of operation, or more frequently for particularly heavy usage, and can be washed in a dishwasher.
- Remove the filters one at a time by pushing them towards the back of the group and pulling down at the same time.
- Wash the filters, taking care not to bend them. Allow them to dry before refitting.
- When refitting the filters, make sure that the handle is visible on the outside.

Activated charcoal filter (Recirculation version)

These filters are not washable and cannot be regenerated, and must be replaced approximately every 4 months of operation, or more frequently with heavy usage.

REPLACING THE ACTIVATED CHARCOAL FILTER

- Remove the metal grease filters
- Remove the saturated activated charcoal filter as shown (A).
- Fit the new filters (B).
- Replace the metal grease filters.

Lighting

LIGHT REPLACEMENT

40 W incandescent light.

- Remove the screw fixing the Lighting support.
- Pull the Lighting support down.
- Extract the lamp and replace with another of the same type.
- Replace the lighting support in reverse order.
