## Welcome to

Bluelink® is a dynamic, telematics technology that allows Hyundai vehicles to send—and receive—important and useful information. The system uses an enhanced cellular network, with automatic roaming, that optimizes connections and prioritizes emergency requests. In your vehicle, Bluelink uses voice-response technology, with the addition of GPS and a live assistance team for selected needs.

With Bluelink you get...

- Automatic emergency assistance, in the unfortunate event of a collision.
- The convenience of Destination Search by Voice, as well as the ability to remotely operate various vehicle features.
- The peace of mind that comes with in-vehicle, on-demand diagnostics, and more...

In addition, selected features incorporate notifications  via your choice of text messaging or email.

Please note that selected Bluelink features and notifications require that you first input information or set preferences online .  
(See Bluelink Features Overview, pages 7-8)

An available smart phone mobile app gives you direct access to selected Remote features such as Remote Start with Climate Control\* and Remote Door Lock/Unlock.

---

## Hyundai Vehicle Owner Privacy Policy

Your Hyundai vehicle may be equipped with technologies and services that use information collected, generated, recorded or stored by the vehicle. Hyundai has created a Vehicle Owner Privacy Policy to explain how these technologies and services collect, use, and share this information.

You may read our Vehicle Owner Privacy Policy on the Hyundaiusa.com website at <https://www.hyundaiusa.com/us/en/owner-privacy-policy>. If you would like to receive a hard copy of our Vehicle Owner Privacy Policy, please contact our Customer Connect Center at:

Hyundai Motor America  
Hyundai Customer Care Center

## Enrolling in Bluelink

Enrollment begins with creating an account on [MyHyundai.com](http://MyHyundai.com), the Hyundai owner website that you can use to access your Bluelink preferences as well as a number of other ownership tools.

*You can do this at your dealership or at home.*

If you have not done so already, go to [www.MyHyundai.com](http://www.MyHyundai.com) and select “register”.

On the REGISTRATION screen, you will provide basic information about you and your vehicle that will be automatically populated into your Bluelink Enrollment and Preferences screens. Please note that you will need your Vehicle Identification Number (VIN) to complete this step.

After the enrollment process, you can learn about all the Bluelink features and the associated packages—at [www.Hyundaibluelink.com](http://www.Hyundaibluelink.com), and try them during your free trial periods. In order to setup feature preferences, log on to your Bluelink account on [www.MyHyundai.com](http://www.MyHyundai.com).

## 3 Bluelink Packages

Bluelink services come in three packages:

### Connected Care

- Safety:
  - Automatic Collision Notification and Assistance
  - Enhanced Roadside Assistance
  - SOS Emergency Assistance
- Car Care:
  - Driving Information
  - On-Demand Diagnostics
  - Automatic Diagnostics Trouble Code Notification
  - Monthly Vehicle Health Report
  - Maintenance Alert\*
  - Service Link

### Remote

- |                                      |                           |                               |
|--------------------------------------|---------------------------|-------------------------------|
| • Remote Service:                    | • Vehicle Safeguard:      | • Vehicle Safeguard Alert***: |
| – Remote Door Lock/Unlock            | – Stolen Vehicle Recovery | – Valet Alert                 |
| – Remote Horn/Lights                 | – Stolen Vehicle          | – Speed Alert                 |
| – Remote Start with Climate Control* | – Vehicle Immobilization  | – Curfew Alert                |
| – Car Finder**                       | – Alarm Notification      |                               |
|                                      | – Panic Notification      |                               |

### Guidance\*\*\*

- Destination Search by Voice
- Destination Send-to-Car

## Purchasing Packages

Owners can subscribe to Bluelink packages in the following groupings after applicable complimentary or trial periods:

- Connected Care
- Connected Care + Remote + Guidance
- Connected Care + Remote
- Connected Care + Guidance

## Cancelling Packages

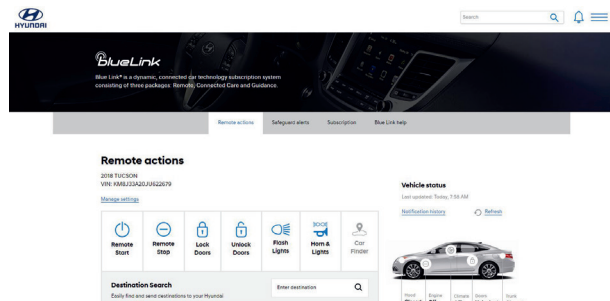

When selling or trading in your vehicle, you are entitled to a refund of any unused portion of your subscription.

Please call 855-2-Bluelink (855-225-8354) to cancel your subscription.

\* Not available on all models, \*\* Available via Mobile App only, \*\*\*Only available on models equipped with factory-install navigation system

## Setting Bluelink Preferences and alerts

1. To get started with Bluelink, log on to [www.MyHyundai.com](http://www.MyHyundai.com) and select Bluelink from side menu.

Bluelink Home page

### 2. Selecting Preferences and Alerts

This is where the rubber hits the road - where you are able to select, activate, adjust and control the settings for the Bluelink system in your Hyundai. Explore everything! You might be surprised at how easy to use - and practical - many of these amazing features are:

- Add Secondary Drivers
- Add Emergency Contacts
- Update Bluelink PIN
- Set Notifications
- View Monthly Vehicle Health Report
- Activate Remote Features
- Destination Search by Voice
- Geo-Fence\*
- Speed Alert\*
- Curfew Alert\*

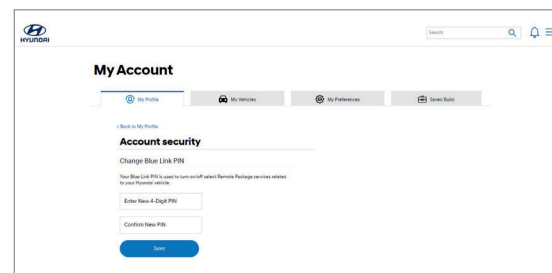

\*Only available on models equipped with factory-install navigation system

## Setting or Changing Your Personal Identification Number (PIN)

To protect your vehicle and your privacy, many Bluelink features—and the Smart Phone Mobile App—require a secure Personal Identification Number (PIN) to allow activation. You will set your PIN during the Bluelink enrollment process.

To change your PIN, select My Account from the side menu and edit Bluelink PIN.

- Input your MyHyundai account password, create a new PIN and keep a record of it for later reference.
- Your PIN should not begin with a zero (0).

Personal Identification Number (PIN) Preferences screen

*Features and Packages are subject to change.*

[illegible]

- 5) Access to all Bluelink services will remain unavailable while the vehicle is in Stolen Vehicle Recovery mode
- 6) Not available on all models
- 7) Only available on models equipped with factory-install navigation system

## Accessing Bluelink Features

### Smart Phone Mobile Application

You can download the Bluelink Mobile Apps on your smart phone from the following sites:

- iPhone® — Apple® App Store
- Android™ — Google™ Play

Please note:

- Remote Start with Climate Control is only available for Push Button Start-equipped vehicles with an Automatic Transmission or Dual Clutch Transmission (DCT) and Fully Automatic Temperature Control.
- See page 24 of this manual for additional information about Remote Start with Climate Control.
- Search “Hyundai Bluelink” to quickly find all Bluelink related mobile apps on Google™ Play or the App Store.

App images are subject to change without notice.

## Using Bluelink in Your Car

### Standard Rearview Mirror

### Rearview Mirror in HomeLink®-equipped models

Controls for Bluelink in-vehicle voice-response use are located on the rearview mirror or overhead console.

- Press the Bluelink button  for access to the voice-response menu of services:
  - Service Link
  - Roadside Assistance
  - Bluelink Account Assistance
- Press the Navigation Service button on your rearview mirror or the push to talk button on your steering wheel and state your destination when prompted.
- Press the **SOS** button for SOS Emergency Assistance.\*

You can end any Bluelink call by pressing the same Bluelink mirror button used to start the call.

*\*You must be an active Bluelink subscriber or within the initial free trial period to receive Bluelink services, including emergency notification services.*

*\*\*Only available on models equipped with factory-install navigation system*

## Using Bluelink Online

Many Bluelink features can be customized, activated, or accessed at [www.MyHyundai.com](http://www.MyHyundai.com). This is an important link to getting the most out of your Bluelink system.

- Log on to [www.MyHyundai.com](http://www.MyHyundai.com). Depending on which Bluelink packages you are enrolled in, you will have access to some or all of these services:
  - Preferences for Bluelink features
  - Bluelink feature overviews
  - Your Monthly Vehicle Health Report
  - Remote Services, such as Remote Start with Climate Control

## Inviting Secondary Drivers

The primary Bluelink subscriber can invite other drivers to create a MyHyundai account to set their own communication and feature preferences for a shared Hyundai vehicle, giving each driver their very own Bluelink experience.

- Select My Account from the side menu.
- Select My Vehicles.
- Select Manager drivers.
- Your invited driver will receive an email with more details on how to accept your invitation and start using Bluelink.

## Bluelink Connected Care Package

### Automatic Collision Notification and Assistance

In the event an accident occurs and an airbag deploys, an Automatic Collision Notification signal will be automatically transmitted to the Bluelink Customer Care Center.

- Upon receipt of an Automatic Collision Notification, a trained Bluelink response operator will attempt to establish voice communication with the vehicle occupants and dispatch appropriate services.
- If you are unable to answer, the operator will advise you that emergency assistance has been notified and is on the way.
- The operator will remain on the line until help arrives.
- Emergency Contacts can be notified automatically via text messaging or email. Additionally, the Call Center agent can contact your Emergency Contact, if requested. (Emergency contacts can be set on [www.MyHyundai.com](http://www.MyHyundai.com))

*Please note: The Automatic Collision Notification feature is subject to adequate cellular coverage, signal strength, and battery power, and only available in the 50 United States. You must be an active Bluelink subscriber or within the initial free trial period to receive Bluelink services, including Automatic Collision Notification services.*

### SOS Emergency Assistance

In the event of an emergency, you can request emergency assistance 24/7, 365 days a year, by pressing the dedicated SOS button in your vehicle.

### Using SOS Emergency Assistance

- Press the dedicated SOS button.
- A trained Bluelink operator will come on the line and ask about the nature of the emergency and then dispatch the appropriate emergency assistance to the scene.
- If you are unable to answer, the operator will advise you that emergency assistance has been notified and is on the way.
- The operator will remain on the line until help arrives.
- Emergency Contacts can be notified automatically via text messaging or email. Additionally, Call Center agent can contact your Emergency Contact, if requested. (Emergency contacts can be set on [www.MyHyundai.com](http://www.MyHyundai.com))

Watch & Learn more  
about Hyundai Bluelink  
Emergency Assistance

*Please note: The SOS Emergency Assistance feature is subject to adequate cellular coverage, signal strength, and battery power, and only available in the 50 United States. You must be an active Bluelink subscriber or within the initial free trial period to receive Bluelink services, including SOS Emergency Assistance services.*

## Enhanced Roadside Assistance

Enhanced Roadside Assistance works in conjunction with your Hyundai Assurance Roadside Assistance coverage and enhances your coverage by transmitting your vehicle information and location to a specially trained response center for quicker, more efficient assistance.

## Using Enhanced Roadside Assistance

- Customers can press the Bluelink button and say “Roadside Assistance” to speak to an agent for Roadside Assistance.
- A trained Bluelink operator will come on the line and ask about the nature of the situation, then dispatch the appropriate roadside assistance to the scene.
- With Bluelink, the operator may be able to inform roadside assistance of your exact location.
- The SOS button can also be used for Enhanced Roadside Assistance.

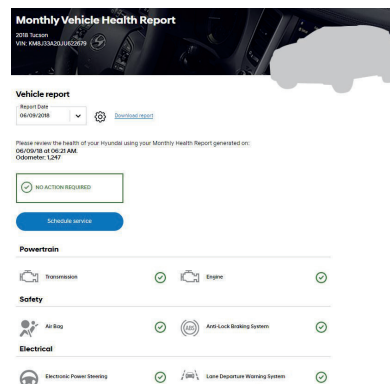

Watch & Learn more  
about Hyundai Bluelink  
Enhanced Roadside  
Assistance

*Please note: The Enhanced Roadside Assistance feature is subject to adequate cellular coverage, signal strength, and battery power, and only available in the 50 United States. You must be an active Bluelink subscriber or within the initial free trial period to receive Bluelink services, including Enhanced Roadside Assistance services.*

## CAR CARE FEATURES

### Monthly Vehicle Health Report

#### Monthly Vehicle Health Report

(actual monthly vehicle report may appear differently depending upon vehicle and equipment)

Thirty days after your new Hyundai vehicle purchase, you can begin receiving a comprehensive diagnostic evaluation involving most aspects of your vehicle's performance (e.g., systems check, mileage attained, upcoming maintenance, etc.).

 In order to receive your Monthly Vehicle Health Report, you must first log on to [www.MyHyundai.com](http://www.MyHyundai.com), select the Bluelink logo for your applicable vehicle, select Vehicle Health from side menu, then select Monthly Vehicle Health Report.

- Once set up, you will receive vehicle diagnostic reports via the email address provided in your [www.MyHyundai.com](http://www.MyHyundai.com) Notification settings.
  - By default, you will receive your Monthly Vehicle Report on the same day of the month as your vehicle purchase.
- To review the report online, log on to [www.MyHyundai.com](http://www.MyHyundai.com) and click on “Vehicle Health” in the sub menu.

## Automatic Diagnostic Trouble Code Notification

In the event a vehicle system or component malfunction occurs, Automatic Diagnostic Trouble Code (DTC) Notification correlates vehicle data and diagnostics to better inform you of a possible vehicle condition. Using in-vehicle display alerts, it will indicate the significance of the issue and provide you with instructions, including appropriate next steps. In addition, this information is also sent to your preferred Hyundai dealer in order to help with the repair process.

- In order to receive notifications, you must first log on to [www.MyHyundai.com](http://www.MyHyundai.com), select My Account from the side menu, then select My Preferences.
- Should a vehicle component malfunction, you will be automatically notified by your selected methods.
- If needed, you will have the option to call for Roadside Assistance and/or schedule a Hyundai dealership service appointment.

## Service Link

Service Link allows you to schedule a Hyundai dealership service appointment.

In order to activate this feature, you must first log on to [www.MyHyundai.com](http://www.MyHyundai.com) and confirm your Preferred Hyundai Dealer.

- Select My Account from the top menu on [www.MyHyundai.com](http://www.MyHyundai.com) menu.
- View your current Preferred Dealer under “My Preferred Dealer”.
- If desired, select “Change Dealer” to the search for dealers in your area using the Zip Code/Search functions.
- Select the dealer by clicking the star next to the dealer name.

## How to Use Service Link in Your Vehicle

- Press the Bluelink button  located on your rearview mirror.
- At the prompt, say “Service Link.”
- A trained specialist will offer to make a dealership service appointment.
  - The agent will ask for information needed in order to schedule the appointment appropriately.
- Your Preferred Dealer will be notified of your appointment and may contact you if needed.
- An email reminder with the appointment will also be sent to you.

## On-Demand Diagnostics

This feature provides you with a timely in-vehicle diagnostic evaluation, adding peace of mind to your drive.

## How to Use On-Demand Diagnostics in Your Vehicle

- Access the feature from the Bluelink Menu on your vehicle's touchscreen display.
- After the vehicle performs the diagnostic sweep, the system will notify you if any conditions are found.
- You can view the details of any condition found immediately and even schedule service with a press of a button.

## Driving Information

Driving Information enhances your driving experience by readily summarizing the data gathered from your most recent trip.

## How to Access Driving Information in Your Vehicle

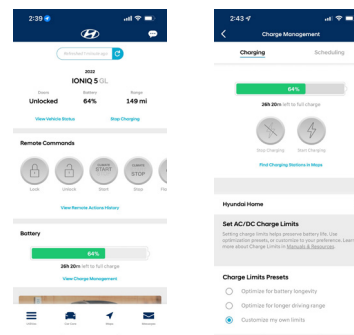

- Access the feature from the Bluelink Menu on your vehicle's touchscreen display.
- Data available includes driving distance, driving time, engine idle time, speed distribution and charts comparing your vehicle's acceleration and deceleration.
- All data is a running average and you can view changes during or after your most recent trip.

## Maintenance Alert\*

This feature helps you keep your Hyundai vehicle in optimum running order by notifying you in advance of regularly scheduled maintenance intervals. Notification is made via your choice of text messaging or email.

- In order to receive notifications, you must first log on to [www.MyHyundai.com](http://www.MyHyundai.com), select My Account from the side menu, then select My Preferences.
- Once activated, you will automatically be notified, by your selected methods, when your vehicle is due for regularly scheduled maintenance and be offered assistance in scheduling an appointment with your local Hyundai dealer.

## Electric and Plug-in Hybrid Electric Exclusive Features

### Standard Connected Care Package Features Plus:

- Charge Status
- Plug and Charge status
- Time left until fully charged
- Existing battery level
- Real-time electric and fuel range
- Charge scheduling
- Start or stop charging
- Set up charging schedule with days of the week and time

### Remote Package:

- Standard Remote Features (see page 7)

### Standard Guidance Package Features Plus:

- Nearby Charge Station Search and Send-to-Car

## Bluelink Remote Package

### Remote Door Unlock/Lock

Features accessible via the  
Bluelink Mobile Apps

With this feature, you can lock or unlock your vehicle doors from virtually anywhere by using the Bluelink Mobile Apps, or using the Bluelink Owner's website.

- To use this feature, you must have a Bluelink Personal Identification Number (PIN). To create or change your PIN, log on to [www.MyHyundai.com](http://www.MyHyundai.com). See page 5 of this manual for more information.

#### To Activate Remote Door Unlock/Lock

- **By Mobile App:** Select Remote features and DOOR UNLOCK or DOOR LOCK, as desired.
  - Enter your Bluelink PIN.
  - The command to lock or unlock your doors will be sent to your vehicle.
- **By website:** Log on to [www.MyHyundai.com](http://www.MyHyundai.com), select Bluelink.
  - Select Remote Door Unlock/Lock.
  - Select Lock Doors or Unlock Doors and Input your Bluelink PIN.

*Please note: After Bluelink unlocks the doors, they will remain unlocked for only 30 seconds. This auto relock is designed to enhance vehicle security by relocking the doors if the doors are not opened within 30 seconds.*

*Remote Services are subject to adequate cellular coverage and signal strength, and only available in the 50 United States.*

### Remote Horn/Lights

Features accessible via the  
Bluelink Mobile Apps

This feature may be used to locate your parked vehicle in a large parking lot or for added safety. This service may be used in coordination with local authorities to locate a vehicle that has been stolen or in coordination with emergency services for a vehicle that is in a location that is not readily visible.

- To use this feature, you must have a Bluelink Personal Identification Number (PIN). To create or change your PIN, log on to [www.MyHyundai.com](http://www.MyHyundai.com). See page 5 of this manual for more information.

#### To Activate Remote Lights or Horn/Lights

- **By Mobile App:** Select Remote features and REMOTE HORN & LIGHTS.
  - Enter your Bluelink PIN.
  - The command to flash your vehicle's lights, or flash the lights and honk the horn, will be sent to your vehicle.
- **By website:** Log on to [www.MyHyundai.com](http://www.MyHyundai.com), select Bluelink.
  - Select Remote Horn and Lights.
  - Select Flash Lights Only or Flash Lights and Horn, then input your Bluelink PIN.

*Please note: Remote Services are subject to adequate cellular coverage and signal strength, and only available in the 50 United States.*

## Remote Start with Climate Control

Remote Start with Climate Control is only available for Push Button Start-equipped vehicles with an Automatic Transmission or Dual Clutch Transmission (DCT) and Fully Automatic Temperature Control.

Features accessible via the  
BlueLink Mobile Apps

This feature enables you to remotely start your vehicle and set an engine timer (1-10 minutes) from virtually anywhere\*. You can also set the climate control temperature, activate heated / ventilated seats and turn on the front-window defroster, ensuring a warm or cool car is ready to go when you are.

- To use this feature, you must have a BlueLink Personal Identification Number (PIN). To create or change your PIN, log on to [www.MyHyundai.com](http://www.MyHyundai.com). See page 5 of this guide for more information.

### To Activate Remote Start with Climate Control

- **By Mobile App:** Select Remote features and REMOTE START.
  - Enter your BlueLink PIN.
  - Set engine duration and temperature control settings, if desired.
  - The engine start command will be sent to your vehicle.
- **By website:** Log on to [www.MyHyundai.com](http://www.MyHyundai.com), select BlueLink.
  - Select Remote Start.
  - Select Remote Start, set a desired engine duration for remote start and temperature control settings, then input your BlueLink PIN.

#### Remember:

- Remote Start with Climate Control will automatically shut off after 10 minutes or after selected engine timer runs out.
- While this feature is active, the parking lights will blink until vehicle is turned off or when the vehicle is in operation.
- To continue operation of the vehicle, the proximity key must be inside the vehicle with the driver prior to pressing the brake and being able to move the gearshift from the "P" (park) position.

*\*Please note: Remote Services are subject to adequate cellular coverage and signal strength, and only available in the 50 United States on select vehicles.*

#### Preconditions:

- Ignition is OFF
- Alarm is armed (i.e., vehicle locked by key fob Remote Door Lock)
- Gearshift level is in the "P" (park) position
- Brake pedal is not depressed
- Engine hood is securely closed
- All the doors are closed and locked
- The tailgate or trunk lid is closed
- The security/panic system is not activated
- The proximity key is not inside the vehicle
- The battery power is not low
- Vehicle is located in an open area
- It has been less than 4 days since last vehicle ignition off
- Vehicle located in area with good cell reception
- Vehicle is not connected to a charger.

#### Remote Start with Climate Control will terminate:

- After 10 minutes or after selected engine timer runs out
- Brake is pressed without proximity key inside vehicle
- Alarm is triggered without proximity key inside vehicle
- Door/trunk is opened from inside the vehicle

Notice: Laws in some communities may restrict the use of the features that remotely start the engine. For example, some laws may require a person using the remote start feature to have the vehicle in view when doing so or limit the length of time a vehicle engine may idle. Please check local and state regulations for any requirements and restrictions on remote starting of vehicles and engine idling time.

#### WARNING!

Do not remote start vehicle in an enclosed environment (i.e., closed garage). Prolonged operation of a motor vehicle in an enclosed environment can cause a harmful build-up of carbon monoxide. Carbon monoxide is harmful to your health. Exposure to high levels of carbon monoxide can cause headaches, dizziness or in extreme cases unconsciousness and/or death. Do not leave children or animals unattended in a vehicle while using the remote start function.

#### CAUTION!

If the vehicle's windshield wipers are left on when the vehicle was last driven, then the wipers will turn on if the remote start function is activated. To avoid damage to the wiper blades (i.e., due to heavy ice or snow accumulated on the windshield), please always turn the vehicle's windshield wipers off when parking the vehicle.

## Car Finder

Features accessible via the  
Bluelink Mobile Apps

The mobile app feature enables you to find your vehicle on a map if you are within a 1-mile radius of your vehicle and gives you the ability to save your vehicle's location for future reference.

- To use this feature, you must have a Bluelink Personal Identification Number (PIN). To create or change your PIN, log on to [www.MyHyundai.com](http://www.MyHyundai.com). See page 5 of this manual for more information.

### To Activate Car Finder via Mobile App

- Select Map from the Home Menu.
- Select Find My Car where you will be prompted to SEARCH or TAG a new location.
- To Search
  - Enter your Bluelink PIN.
  - The command will be sent to your vehicle and the vehicle location will be shown on the map.
  - If your vehicle is outside a 1-mile radius, you can still save the location of your vehicle by tagging it on the map.

Watch & Learn more  
about using Hyundai  
Bluelink Car Finder

## Stolen Vehicle Recovery

In the event your vehicle is reported stolen to law enforcement authorities, the Bluelink Customer Care Center can use the GPS system to help pinpoint the exact location of the vehicle and assist in its recovery.

- To inform Hyundai of the theft of your Hyundai vehicle, call 855-2-Bluelink (855-225-8354).
- A live operator will come online to assist you.
- You will be asked to verify your name, phone numbers, and Hyundai PIN and provide verification that a police report has been filed, including the case number.
- The agent will initiate a stolen vehicle recovery signal to pin point the vehicle's location and will coordinate with law enforcement in its recovery.

*Once the stolen vehicle recovery routine has been started, the owner will not have access to Bluelink services or be provided vehicle status or location, due to personal safety issues. At the conclusion of the recovery process, Bluelink will contact the owner and inform them of the vehicle's disposition.*

## Vehicle Immobilization

In the event your vehicle is reported stolen to law enforcement authorities, they may elect to utilize this feature to completely turn off the engine once the vehicle has been stopped. This will prevent the vehicle from being restarted until law enforcement has arrived on the scene.

- To inform Hyundai of the theft of your Hyundai vehicle, call 855-2-Bluelink (855-225-8354).
- A live operator will work with law enforcement in initiating vehicle immobilization and assist in the vehicle's recovery.

## Panic Notification

This feature will notify any pre-selected persons if your vehicle's remote panic button is engaged, via your choice of text messaging or email.

-  In order to activate this feature, you must first log on to [www.MyHyundai.com](http://www.MyHyundai.com) and set your preferences as outlined on page 4 of this manual.
-  All individuals designated by you will be notified of your vehicle's precise location should the panic button be activated.

*Please note: Notifications are subject to adequate cellular coverage and signal strength, and only available in the 50 United States.*

## Alarm Notification

In the event your vehicle's alarm is activated, this feature will automatically notify any pre-selected persons via your choice of text messaging or email.

-  In order to activate this feature, you must first log on to [www.MyHyundai.com](http://www.MyHyundai.com) and set your preferences as outlined on page 4 of this guide.
-  Your pre-selected contacts will be notified if your vehicle's alarm is activated.

*Please note: Notifications are subject to adequate cellular coverage and signal strength, and only available in the 50 United States.*

## Vehicle safeguard alerts\*

First, download the Vehicle Safeguard Alerts App to your vehicle. Then log on to [www.MyHyundai.com](http://www.MyHyundai.com) to activate the features and start receiving notifications.

### Valet Alert

Whenever you leave your Hyundai vehicle with a valet and it travels farther than your pre-selected distance boundary after activation, you will be notified in-vehicle and via your choice of text message or email.

-  In order to activate this feature, you must first log on to [www.MyHyundai.com](http://www.MyHyundai.com).
  - Select Bluelink from the side menu
  - Select the Valet tab
  - Turn on Valet Alert and set a distance boundary

 Once activated, you will automatically receive an alert should your vehicle travel farther than your pre-selected distance boundary from the point of activation.

*Please note: Hyundai Bluelink Services are subject to adequate cellular coverage and signal strength, and only available in the 50 United States.*

### Geo-Fence

This feature allows you to designate the boundaries of areas in which your vehicle may and may not be driven. Should the vehicle cross these boundaries, you will be notified in-vehicle and via your choice of text messaging or email.

-  In order to activate this feature, you must first log on to [www.MyHyundai.com](http://www.MyHyundai.com).
  - Select Bluelink from the side menu
  - Turn on Geo-Fence and set driving boundaries
-  Once activated, you will automatically receive an alert should your vehicle cross the boundaries of your designated areas.

*Please note: Notifications are subject to adequate cellular coverage and signal strength, and only available in the 50 United States.*

## Speed Alert

Ideal for parents of younger drivers, this feature allows you to pre-set a speed limit for your Hyundai vehicle. Should the speed limit be exceeded, you will be notified in-vehicle and via your choice of text messaging or email.

- In order to activate this feature, you must first log on to [www.MyHyundai.com](http://www.MyHyundai.com).
  - Select Bluelink from the side menu
  - Select Speed Alert
  - Turn on Speed Alert and set a speed limit
- ⚠ Once activated, you will automatically receive an alert should your vehicle exceed the pre-designated speed limits.

*Please note: Notifications are subject to adequate cellular coverage and signal strength, and only available in the 50 United States.*

## Curfew Alert

This feature allows you to pre-set acceptable time intervals for when your Hyundai vehicle can and cannot be driven. Should these be exceeded, you will be notified in-vehicle and via your choice of text messaging or email.

- In order to activate this feature, you must first log on to [www.MyHyundai.com](http://www.MyHyundai.com).
  - Select Bluelink from the side menu
  - Select Curfew Alert
  - Turn on Curfew Alert and set Curfew days and times
- ⚠ Once activated, you will automatically receive an alert should the curfew limits be exceeded.

*Please note: Notifications are subject to adequate cellular coverage and signal strength, and only available in the 50 United States.*

## Bluelink Guidance Package

### Destination Search by Voice

\*Only available on models equipped with factory-install navigation system

Bluelink allows you to search and download location information for points of interest, businesses, and specific addresses.

### Using Destination Search in Your Vehicle

- Press the Navigation Service button on your rearview mirror or the push to talk button on your steering wheel and state your destination when prompted.
- If the voice search does not return the desired destination, you can also use the keyboard to search again.
- When you route to a destination, the destination is saved in your POI history.

### Using Destination Search on Your Mobile App

- Search for a point of interest using the search bar in the Home Menu.
- Select your desired point of interest from the map or results list.
- You have the option to save and/or send the POI directly to your vehicle.

### Using Destination Search on Your Computer

- On [www.MyHyundai.com](http://www.MyHyundai.com), select Bluelink from the side menu and input a Point of Interest or Address in the Destination Search box.

**QUICK TIP:** you can access a point of interest sent to your vehicle or any POI you have routed to, by navigating to the in-vehicle Bluelink Menu and selecting the Send-to-Car.
