Yes 12 No 4 Report Average Rating 1.0 out of 5 stars just get a regular DVD player January 25, 2013 We love Lightning McQueen, and this DVD player was a big hit two Christmases ago. My fatherinlaw purchased it along with a twoyear warranty. It was used occasionally for a few months, and then it would not hold a charge. So it had to be used while plugged in. Eventually, it wouldnt power on at all.

We exchanged, and within three months, the second player did the same. My nephew also received one from grandpa at the same time, and my sisterinlaw had the same problems. If you google this item for a review, youll find that it is, unfortunately, the norm for this item. It has been going strong for well over a year. I got Lightning, a Perry the Platypus and Herbie the Love Bug stickers for the top of the new one, and it seems to be just as appealing to my son who is 4. Select PLAY from the Bluray Main Menu, then choose WITH DISNEY SECOND SCREEN from the options list that appears or, select BONUS FEATURES and choose PLAY MOVIE WITH DISNEY SECOND SCREEN. 3. Select MANUAL SYNC and follow the onscreen instructions. Manual Sync allows you to sync the app on your own. To Manually Resync during the movie 1. Activate the Popup Menu on your Bluray remote and choose RESYNC to display the sync number. 2. Choose RESYNC from the Options Menu on your iPad or computer, then MANUAL SYNC from the next screen that appears. When prompted, enter the sync number displayed on your TV. 3. When youre ready to resume play, use the Bluray remote to select START COUNTDOWN. When the counter reaches GO on your TV, press GO on your second screen. The sync indicators on your Bluray player and iOScompatible device dont have to match exactly for your Disney Second Screen experience to work. How do I use the Sync Indicator. The sync indicator is a numerical counter that keeps track of where you are in the experience. Your Disney Second Screen app is in sync with your movie when the sync indicators on both screens match. Sync is lost when you forward, rewind, pause or select a different scene on your Bluray. From OPTIONS, choose RESYNC, then select MANUAL SYNC from the next screen that appears and follow the instructions. 3. Make sure you choose the same sync option for both your Bluray player and second screen device. If the numbers in the sync indicators are off by one or two, its okay; the experience will still work. When youre done exploring, press the SYNC APP TO MOVIE button on your iPad or computer to bring you back in line with the movie. System Requirements Features.
