A3: Try the following methods: Log in to the web UI of the router, and check it on Wireless Settings > WiFi Name and Password window. If you forget the login password as well, reset the router to factory default settings by holding down the WPS/RST button on the back panel of the router for 8 seconds. Then you can reset a login password and WiFi password. Q4: How to select a connection type? A4: Follow the instructions in the table. Your internet service provider provides a user name and password for you to set up a dial-up connection. Your internet service provider provides an IP address and other related parameters for you to connect to the

An internet service provider does not provide any parameters for you to connect to the Internet. A4 Safety and Emission Statement CE Mark Warning This is a Class B product. In a domestic environment, this product may cause radio interference, in which case the user may be required to take adequate measures. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body. NOTE: (1) The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. (2) To avoid unnecessary radiation interference, it is recommended to use a shielded RJ45 cable. Declaration of Conformity Hereby, SHENZHEN TENDA TECHNOLOGY CO., LTD. declares that the radio equipment type F9 is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: Page 3 Page 6 Page 7 Page 8 Page 9 Page 10 Page 11 Page 12 Page 13 Page 14 Page 15 Page 16 Page 17 Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures: — Reorient or relocate the receiving antenna. — Increase the separation between the equipment and receiver. — Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. — Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.
