Notice

- ❖ Please read this manual carefully before use and save it for reference.
- ❖ Please follow to the operating procedures and precautions in this manual.
- ❖ Please open the package carefully and check whether the device and accessories have been damaged due to transportation when you receive the device.

Please contact us for return processing once damage occurs.

- ❖ Please do not repair it yourself, and contact our technical support department directly if the device fails.

OneFex Industrial IoT

1 Description

DDC supports graphic, JS and PLC mixed programming, convenient for users to realize the logic function of different applications. At the same time, the built-in WEB server supports the HTML5 configuration page, so that users do not need to buy configuration software, just use PC, mobile phone, iPad or products with browser function to log in the configuration screen for monitoring. It also supports Mail alarm, MQTT service, project upload Cloud sever and other functions; It can also be forwarded to BACnet server, Modbus server and OPC UA server, and the open data interface can be integrated by the third-party system.

2 Support register type and number

Note: Register points are dynamically supported and the total number of points cannot exceed 256.

The BACnet/Modbus register types and maximum number of points supported are shown in the table below.

BACnet Register Module	BACnet Register Number	Modbus Register Module	Modbus Register Number
AI (Read only no writing)	256 (0~255)	0X(Coil Status)Read and Write	256 (1~256)
AO (Read and Write)	256 (0~255)	1X(Input Status)Read only	256 (1~256)
AV (Read and Write)	256 (0~255)	4X(Holding Register)Read and Write	256 (1~512)
BI (Read only no writing)	256 (0~255)	3X(Input Register)Read only	256 (1~512)
BO (Read and Write)	256 (0~255)		
BV (Read and Write)	256 (0~255)		
MI (Read only no writing)	256 (0~255)		
MO (Read and Write)	256 (0~255)		
MV (Read and Write)	256 (0~255)		

Note:

4X and 3X register addresses = the register addresses of BACnet *2+1

Register address of 0X and 1X = register address of BACnet +1

3 Software Features

- Support graphic, JS and PLC mixed programming, PID control function

-Two ethernet ports support the switch function, facilitating onsite cabling

-DDC is also a gateway that supporting nearly communication protocols, easy to expand

-Supports BACnet, Modbus, OPC UA, HTTP, and MQTT cloud servers

-Support SMS alarm, Wechat alarm, DingTalk alarm, Email alarm

-Supports timer which can realize RUN and STOP the device regularly and setting the value

-Supports external storage of MySQL and SQLServer databases

-Support view the offline and online status of the device

-Supports cloud configuration, which facilitates remote monitoring of terminal devices by mobile phones, ipads, and PC

-Support internal variable function, you can use JS script to achieve complex logic operations

-Supports trigger to realize the conversion between any two protocols

4 Hardware Features

Processor: 1core 300MHz

Power Supply: DC 24V

Memory: 64M

Size(L×W×H): 185*119*42mm

System: LINUX

Flash: 256M

Material: Plastic Shell

Weight: 350g

Interface: 2x Ethernet、1x RS485

Installation: DIN-RAIL

Digital signal: 8 DI(support dry contact input)、6 DO(support dry contact output, maximum 220V/8A)

7 After-sale Service

7.1 Commitment

OneFex provides after-sales service of the device within 2 years from the date of sale. But for damage caused by improper use, you need to send it back and take the freight for repair or adjust. Make sure that the package is in good condition to avoid damage during transportation. Repair the damage of device instrument is free.

7.2 Disclaimer

This document does not grant any intellectual property license, express or implied, or by hijacking or otherwise. OneFex assumes no responsibility other than those specified in the terms and conditions of sale of the product. And makes no warranties, express or implied, for the sale and/or use of this product, including the product's fitness for a particular purpose, merchantability, or liability for infringement of any patent, copyright or other intellectual property rights. OneFex may change the product specifications and descriptions at any time without prior notice.
