

Guide for Poster Presentation

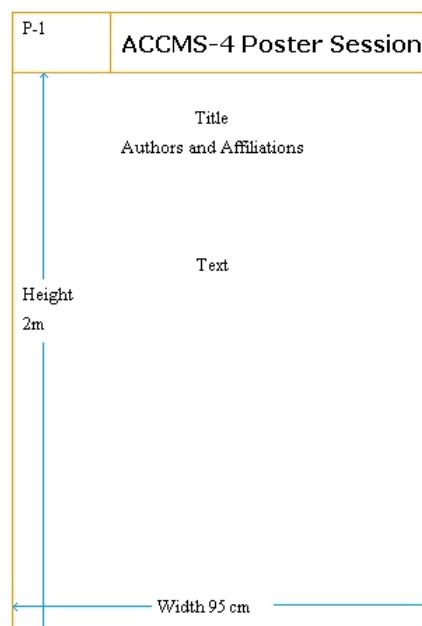

Poster session is considered as a very important communication method in ACCMS-4, where in-depth discussion occurs to share the research results and information. 112 papers of high quality research will be posted during conference period (from Sept. 13th to 16th) to enhance discussion among the attendants.

1. Poster Size

A poster board, 95 cm wide and 200 cm high with one light on top will be provided to mount your poster. Your presentation will be limited to this area. Be sure to include the title of the abstract, authors and affiliations should be at the top of your poster centered.

2. Poster No.

A 10 cm * 10 cm sign designating your poster board number will be prepared by Secretariat Office and positioned in the upper left-hand corner of the board (Pn-#). To find your own paper number, [click here](#)

3. Poster Set-up and take-off

All posters are supposed to be **set-up on Sept 13th** in the poster room. Posters should be displayed during the conference for in-depth discussion. Posters can be **taken off in the morning of Sept. 16th**. During the poster session (16:15-18:15 Sept. 14, 2007), the researchers are supposed to be present by their poster to answer questions.
