

ALLIANCE SEED

A close-up photograph of a field of mature oat plants. The oat heads are golden-brown and hang from green stems. The background shows a clear blue sky with some light, wispy clouds. The entire image is framed by a white border that tapers at the top and bottom, creating a triangular shape.

SEED GUIDE 2023

**STRONG. VIGOROUS.
DEPENDABLE.**

ALLIANCESEED

Alliance Seed varieties are built to earn your acre. From AAC Aberdeen peas to AAC Vortex winter wheat, whatever you are looking for in a wheat, durum, barley, oat or pea, our line up is packed with top performers. Alliance Seed varieties deliver what you expect on your farm; high yield, disease resistance, early maturity, and grain quality. Our line up is packed with top performers. Alliance Seed works with the best seed growers and retailers to provide a high quality seed product that you can depend upon to produce your best crop. We also understand what end users want and need due to our unique ownership; three Canadian owned grain companies with connections across the globe. This gives Alliance Seed a truly unique position as we bring products to the market with a nod to ensuring that you earn top dollar for your production.

STRONG. VIGOROUS. DEPENDABLE.

ALLIANCE SEED CDC ENDURE

CDC Endure sets a new benchmark for yield and quality across western Canada and will be an oat variety that growers will choose to grow for many years. CDC Endure is from Dr. Aaron Beattie of the CDC, University of Saskatchewan.

CDC ENDURE FEATURES:

- **Top yielding oat variety** across all of western Canada outyielding AC Morgan and CS Camden in 2021 MCVET, SKVPG and ABRV trials
- **Strong standability**
- Earlier maturity than CS Camden
- High test weights
- Consistently **high Beta-glucan content**

ALLIANCE SEED AAC LEROY VB

AAC Leroy VB is the most exciting CWRS variety to be registered in recent years. With an amazing combination of **very high yield, disease resistance and midge tolerance**, AAC Leroy VB has quickly become the go-to variety for farmers across western Canada.

AAC LEROY VB FEATURES:

- AAC Leroy VB **raises the standards for CWRS yield** with higher yields than many comparable varieties; out yielding AAC Viewfield by 11% and AC Unity VB by 10% in Western Canadian Registration trials
- Semi dwarf with **strong standability** and **high yield** make AAC Leroy VB a great choice for all wheat growers across the prairies
- **Excellent disease resistance** including MR for FHB, MR for Leaf Rust, Stem Rust and Stripe Rust
- Wheat midge resistance from Sm1 gene

ALLIANCE SEED AAC REDBERRY

AAC Redberry is a **very early maturing, high yielding** CWRS with good standability and **high protein**. It has shown very high yields across all prairie production zones from the heat driven south, right up through the parkland regions.

AAC REDBERRY FEATURES:

- **High yield potential**; 115% of checks through registration trials
- **Early maturity**; in field results as much as 1 week earlier
- High grain protein, HVK and test weights, even under adverse harvest weather conditions
- Semi-dwarf

ALLIANCE SEED SY TORACH

SY TORACH Pronunciation /TOR·ak (Gaelic) ADJECTIVE; Fruitful, high yielding. SY Torach offers **increased yield while providing a protein boost** over the most commonly grown CWRS varieties in the market today.

SY TORACH FEATURES:

- **Tremendous standability** with short plant height for ease and speed of a big harvest
- **Improved protein** levels over comparable CWRS varieties
- Excellent yield
- MR for FHB, R for Loose smut and Leaf and Stem Rust allowing for an easier disease management strategy

FOR MORE INFO

SY Torach is a proprietary wheat seed developed by Syngenta and distributed by Alliance Seed under exclusive license.

ALLIANCE SEED AAC ELIE

AAC Elie is a high yielding strong strawed, semi-dwarf CWRS variety with good resistance to fusarium headblight. Since launch, wheat growers across the prairies have praised AAC Elie for consistent high yields and good grade results across all soil types and environmental conditions.

AAC ELIE FEATURES:

- **Consistent high yield performance** across all production zones, weather conditions and management levels
- Fast, efficient harvest
- Good sprouting resistance
- Easy to thresh, and no shattering issues

ALLIANCE SEED CDC PRECISION

CDC Precision CWAD set the standard for **yield potential without sacrificing important agronomic characteristics**. Prairie durum growers invest heavily in innovation and technology to maximize production and profitability; CDC Precision stands out as the elite option for today's progressive farmer.

CDC PRECISION FEATURES:

- CDC Precision sets the bar for yields in durum with **very high consistent yields** across all durum growing areas
- Strong standing
- MR or R rated for all rusts
- FHB resistance similar to Brigade

ALLIANCE SEED AAC WEYBURN VB

AAC Weyburn VB is a new durum variety from AAFC, Swift Current that combines orange blossom wheat midge tolerance and stem sawfly resistance into one **high yielding variety** that provides growers with extra insurance to protect against yield and quality loss from insect damage.

AAC WEYBURN VB FEATURES:

- Wheat Midge AND Stem Sawfly Resistance
- AAC Weyburn VB out yields Strongfield, Brigade, CDC Defy and CDC Precision
- Excellent standability
- High falling number combined with good pre-harvest sprouting resistance
- Excellent disease package

ALLIANCE SEED AB CATTLELAC

AB Cattlelac is a semi-smooth awned barley that was **ranked #1 for forage yield** in 2 years of registration trials. Coupled with good lodging resistance, great grain yield and excellent disease resistance, livestock producers can feel confident AB Cattlelac is the luxury barley of choice for their operations.

AB CATTLELAC FEATURES:

- **Excellent forage yield** throughout registration trials; 105% of AC Ranger.
- Grain yields similar to other high yielding feed barley varieties
- High cow carrying capacity
- **Improved lodging** over AC Ranger
- Semi-smooth awned 6 row

ALLIANCE SEED AAC ABERDEEN

AVAILABLE SPRING 2023

AAC Aberdeen is a **top yielding**, medium maturity, semi leafless, medium sized, yellow pea variety with leading standability and excellent resistance to powdery mildew. AAC Aberdeen's medium seed size strikes an excellent balance between the small seeded varieties commonly grown, and the robust seed size coveted by niche pulse food markets.

AAC ABERDEEN FEATURES:

- **Highest yielding yellow pea** in provincial trials
- **Excellent standability**
- Medium seed size (250 g)
- I rating for Fusarium Wilt

ALLIANCE SEED AAC VORTEX

LAUNCH 2024

GET READY FOR THE POWER OF AAC VORTEX, a new hard red winter wheat variety from AAFC Lethbridge. AAC Vortex combines the power of **high grain yield**, **excellent winter hardiness**, **short strong straw**, **medium maturity**, **excellent disease resistance** and **grain quality** into a variety that will expand your expectations of a winter wheat.

AAC VORTEX FEATURES:

- **Higher grain yield** than all of the checks in Alberta and in the Parkland regions of Saskatchewan and Manitoba
- **Excellent winter survival**
- Shorter than Emerson with excellent lodging resistance
- Excellent disease package with R ratings for Leaf Rust, Stem Rust, and Stripe Rust and MR for FHB

ALLIANCE SEED PT 5003

PT 5003(TO BE NAMED) WILL BE AVAILABLE SPRING 2025

A new addition to the Alliance Seed portfolio, PT5003 is a CWRS wheat variety from Dr. Pierre Hucl, Crop Development Center, University of Saskatchewan. With **early maturity and excellent yields**, this variety will be a great fit for growers that love the earliness of AAC Redberry in a shorter plant with improved lodging resistance.

PT5003 (TO BE NAMED) FEATURES:

- Yields of 114% of the mean of the check cultivars in the 2018-2020 Parkland Coop trials, 106% of AAC Redberry
- Early Maturing
- Semi-dwarf
- Good Lodging Resistance
- Excellent Disease package

COMING SOON

ALLIANCE SEED AAC PERFORM

FOR MORE INFO

AAC Perform CPSR; the name says it all. A new variety from Dr. Harpinder Randawa, of AAFC, this variety performs in all the right ways, **yield**, **standability**, and **disease resistance**. Growers will be thrilled with (AAC) Perform!

AAC PEFORM WILL BE AVAILABLE IN SPRING 2026.

ALLIANCE SEED CDC EVIDENT

FOR MORE INFO

IT will be CDC EVIDENT! CDC Evident is the newest, highest yielding CWAD currently registered, and looks very strong in all durum growing areas. CDC Evident has very good disease resistance, good standability and very good end use characteristics/suitability.

CDC EVIDENT WILL BE AVAILABLE IN SPRING 2026
