The consumption values are maximum values, the exact power consumption of the product is always indicated on the product label.

HOW TO CONNECT THE EFFI-FLEX-LG?

- The EFFI-Flex-LG requires 24V DC input power.
- The trigger pin needs to be connected to a PNP trigger signal.
- If a continuous signal is applied to the PNP trigger pin, the output light is strobed by default at maximum Frequency and Strobe length (150 Hz - 400 μ s), although it appears continuous for human eye.

INITIALIZATION PHASE

When EFFI-Flex-LG is supplied, the product first enters in a few seconds initialization phase. This initialization is a sequence of very short strobes of increasing intensity. Please wait until the end of this initialization to use the product (max 5 seconds).

MEGAStrobe FEATURE

MegaStrobe	
Strobing time (internal protection)	400 μ s max
Frequency (internal protection)	150Hz max
Rising time	<1 μ s
Falling time	<2 μ s

CHS/CHO CONFIGURATIONS (DAISY-CHAIN OPTIONS)

You can chain several EFFI-Flex-LG-CHS by connecting the output connector directly to the next EFFI-Flex-LG bars. The EFFI-Flex-LG-CHS / EFFI-Flex-LG-CHO requires the use of a standard 5 pin M12 cable (or a 4 pins M12 Power cable depending on the product's connector) to effectively chain the lights.

The number of bars possible to chain depends on the product software and the cables' length.

With the standard software and 1 meter cables, the number of chainable products is:

Connector configuration	Optical length of the product						
INPUT & OUTPUT connectors	200mm	400mm	600mm	800mm	1000mm	1200mm	1400mm
Standard M12 connector (5-pins, A-coded)	4	2	X	X	X	X	X
M12P Power connector (4-pins, T-coded)	14	7	4	3	2	2	2

The pinout specifications are the same for the INPUT and OUTPUT connectors)

OPTICAL FLEXIBILITY

Be careful to always open the product from the side without the connector.

HOW TO CHANGE THE OPTICAL CONFIGURATION?

The EFFI-Flex-LG offers flexible lens positioning to control the beam angle and different type of diffusers to adapt the uniformity. The user can easily change the diffuser and the lens position.

Unscrew the M4 screws and remove the cap

Slide out the window and all lenses

Place the lenses & window in desired configuration

HOW TO INSTALL A POLARIZER ACCESSORY?

By using polarizers, on the Effilux light and on the camera, it is possible to eliminate glare from your workpiece making it easier to acquire a suitable image for the application. The user can insert directly the polarizer **EFFO-FLEX-POL** inside the EFFI-Flex-LG, under the window.

Open the EFFI-Flex-LG and insert the LD window

Insert the polarizer under the LD window

Close the product

Important note:

- The polarization is optimal with a **LD window**, the use of SD or OP window can depolarize the light.

ENVIRONMENTAL REGULATIONS

EU RoHS DIRECTIVE

The EU RoHS Directive is short for the «Restriction Of use of certain Hazardous Substances in electrical and electronic equipment». The EU RoHS Directive (2011/65/EU) restricts the use of specific hazardous substances for the new electronic equipment marketed in the EU. The Directive (EU) 2015/863 amending 2011/65/EU was published in 2015 to restrict the use of specific hazardous substances, including six conventional substances, lead (<0.1%), mercury (<0.1%), cadmium (<0.01%), hexavalent chromium (<0.1%), polybrominated biphenyl (PBB) (0.1%) and polybrominated diphenyl ether (PBDE) (<0.1%), as well as four substances (phthalate compounds), bis(2-Ethylhexyl) phthalate (DEHP) (<0.1%), benzyl butyl phthalate (BBP) (<0.1%), dibutyl phthalate (DBP) (<0.1%), diisobutyl phthalate (DIBP) (<0.1%). Our products do not contain the above certain hazardous substances in excess of the maximum permitted concentration. However, this does not apply if the product falls under the exemption.

CHINA RoHS

China RoHS Directive is formally known as «Management Methods for Restricting Hazardous Substances Used in Electric and Electronic Products», which was implemented on July 1st, 2016 in China. Same as EU RoHS Directive (2011/65/EU), this regulation restricts the usage of same six substances. This regulation requires electronic information products which are manufactured or imported, and sold in China, to clearly disclose contents of the 6 restricted substances listed below.
