

SUBMITTAL/TECHNICAL DATA SHEET

Doors are designed to be architectural-ly pleasing with a design which allows the door and frame to blend seamlessly with the gypsum ceiling. With a tapered edge for joint tape, they are easily textured, light weight and will not crack or shrink.

Door and Frame are fabricated from glass reinforced gypsum.

Flange has depressions for screw placement and is tapered for joint compound application.

GUIDE SPECIFICATION

Gypsum fiber glass access door (specify model number). Access door and frame shall be fabricated from glass reinforced gypsum. Frame shall have pre-positioned depressions for screw placement and tapered for application of joint compound.
