

## **Bright Futures Guía Para Las Familias** **Bright Futures Family Pocket Guide in Spanish**

**AVAILABLE FOR THE COST OF SHIPPING! (No production, handling, or processing fees.)**

A companion to the popular English version released in 2012, the Spanish Bright Futures Family Pocket Guide is designed for a broad range of Spanish-speaking families, including those with children and youth with special health care needs. This translation presents the same information for families found in the English guide, including links to additional Spanish- and English-language resources.

Developed for families by families, in partnership with the American Academy of Pediatrics (AAP) and other professionals, both the English and Spanish versions of the Pocket Guide are based on the AAP *Bright Futures: Guidelines for the Health Supervision on Infants, Children, and Adolescents, 3rd edition*.

### **The Pocket Guide includes:**

- Information and encouragement for the **roles families play every day** in the health and well-being of their children.
- Information about the **importance of well-child visits** for all children, including children and youth with special health care needs.
- **Encouragement for family caregivers to speak up** and to take active roles in their children's health care.
- **Encouragement to form partnerships** with other families and with professionals to improve policies, health care, services, and support for all children and families.
- An overall **framework for children's good health** and insight into all those who contribute to it.
- Current, comprehensive, succinct information about **child development**.
- Links to **resources and further sources of information** for children's good health, referencing Spanish-language resources where available.
