SCOSCHE BASECHARGE MagSafe Compatible Charger with Power Bank

USING BASE CHARGE

MagicRing Installation on Non-MagSafe Devices

Clean the surface of the case using the supplied wipe. Use included template to accurately position MagicRing on device.

If a metal object is detected on either wireless charger (stand or base) the light surrounding the base will pulse slowly*. When the object is removed, normal function will resume. *Note: The FOD light pattern functions even if the light feature has been disabled (see previous section).

Specifications

- Wireless Puck: 5W/ 7.5W / 10W
- Wireless Base: 5W 17.5W / 10W
- USB-C: C:5V  3A,15W

FCC Compliance Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Warning: changes or modifications to this product not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/IV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Canadian Compliance Statement

This device contains licence-exempt transmitters//receiver(s) that comply with Innovation, Science and Economic Development Canada's licence exempt RSSs). Operation is subject to the following two conditions: (1) This device may not cause interference (2) This device must accept any interference including interference that may cause undesired operation of the device.

This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment This equipment should be installed and operated with minimum distance 20 am between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
