Illustrator	No	No	No	Yes	Yes	Yes
InDesign	No	No	No	Yes	Yes	Yes
Photoshop	No	No	No	Yes	Yes	Yes
Premiere Pro	No	No	No	Yes	Yes	Yes

What is Adobe Long-Term Support?

Details of Adobe Long Term Supported Versions (LTS) can be reviewed on their [website](#).

  When a security patch to a LTS version is released, Certiport tests it as quickly as possible. During this validation period, if the unpatched LTS version was supported, the patches version should continue to run, unless the security patch was a breaking change. After validation, Certiport updates this guide and the Technical Requirements page to indicate whether the new LTS version is supported.

Supported Application Versions for the Adobe Certified Professional Exams

The following table shows which applications can be used to run the exam in the long-term supported versions of the 2021 to 2023 applications. It also shows which minor application versions can be used to run the 2021 exam.

	2021 LTS	Supported 2021 application versions	2022 LTS	Supported 2022 application versions	2023 LTS	Supported 2023 application versions
After Effects	Supported	18.0 - 18.4.6	Supported	22.0 - 22.6.5	Supported	23.0 - 23.6
Animate	Supported	21.0 - 21.0.12	Supported	22.0 - 22.0.10	Supported	23.0 - 23.0.2
Dreamweaver	Supported	21.0 - 21.3		No 2022 or 2023 version released		
Illustrator	Supported	25.0 – 25.3.1 and 25.4.5 -- 25.4.8	Supported	26.0 – 26.5.3	Supported	27.0 - 27.9
InDesign	Supported	16.0 - 16.4.3	Supported	17.0 – 17.4.2	Supported	18.0 - 18.5
Photoshop	Supported	22.3.1 - 22.5.9	Supported	23.0 – 23.5.5	Supported	24.0 - 24.4.1 and 24.5, 24.7, & 24.7.1
Premiere Pro	Supported	15.0 - 15.4.5	Supported	22.0 – 22.6.4	Supported	23.0 - 23.6

Important: Adobe only supports the 2021, 2022, and 2023 applications on Mac OSX 11.0 (Big Sur) or higher.
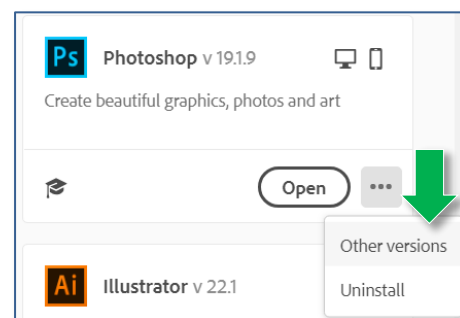

Frequently Asked Questions

Q: How do I install the required versions of the applications from Creative Cloud Desktop?
A: *Open the Creative Cloud desktop application. On the application tile, click the "..." and choose "Other Versions". Click Install next to the desired version of the application.*

Q: I cannot install the 2022 version of the application from Creative Cloud Desktop.
A: *When Adobe released the 2024 versions of the applications, they discontinued support for the 2022 versions of the applications in Creative Cloud Desktop. If you do not have access to Admin Console to create a package, you need to install and administer the 2023 exams.*

www.certiport.com

Q: What is the difference between a Named User License and a Feature Restricted User License?
A: *Adobe software is licensed using one of two models:*

- **Named user license** – *This licensing model requires users to sign in before they can use Adobe software. The user can only be simultaneously signed in on two computers. Users can install, update, and launch applications from Creative Cloud Desktop.*

- **Feature-restricted license** – *This licensing model does not require users to sign in. Applications can be deployed only by creating Adobe Admin Console packages. Creative Cloud Desktop is not installed.*
