

CANVAS PAINTING

Explanation

1. Thoroughly read through the instructions for your design.
2. Trace the design onto your canvas by first placing your carbon paper onto the canvas, then place the design template on top of the carbon and tape it to your canvas. *If your design requires painting the background prior to tracing the design, ensure the paint is completely dry before tracing. Trace over the design with the back end of a paintbrush.
3. Now you're ready to start painting! Use the instruction guide or paint it As You Wish!
4. You will need to mix primary paints to create some additional colors. Refer to the included color mixing guide for instructions.
5. To finish your design, you may want to paint the edge of the canvas black.
6. Be sure to sign your work of art.
7. Enjoy your masterpiece!
