CAUTION

Carrying

- Turn off the unit and disconnect power before moving.
- The unit will not turn on if the fan cover is not properly installed.
- Keep the air filter at least 20cm away from walls or other obstacles.

AC power cord

- To avoid fire, electric shock or other damages, use the power cord and electric outlets as instructed below.
- Disconnect with the provided power cord that matches the AC power socket.
- Use a floor power cord only.
- Before handling or moving the unit, disconnect AC power cord from AC power socket.
- If the power cord is damaged, it must be replaced by a special cord assembly available from the manufacturer or its service agent.

In use

- In the event of unusual sounds, undesirable odors, high temperature, irregular fan spin or other irregularities, stop using immediately.
- Do not insert fingers or other foreign objects into any filter, motor part, or air duct.
- Keep the unit away from the wall to avoid blocking or touching the fan or cables.
- Do not sit or lean on the unit.
- Do not place anything when using alongside devices using ferromagnetic to prevent carbon monoxide poisoning.

Restrictions

- To avoid fire, electric shock or other damages, do not use in following circumstances:
- Surfaces where the unit may slip or otherwise cannot be stably placed.
- Environments that are extremely hot or cold, or exposed to water, for example bathroom.

WARNING

- Excessive bending, twisting or loading of the AC power cord may cause damage or expose the cable core.
- Always unplug by holding power plug, not by pulling the cord.
- Use only with appropriate AC power sockets.
- Do not use the power cord with other equipment.
- This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities with appropriate supervision or instruction. They have been given appropriate or restriction concerning use of the appliance.
- It is not safe for children to play with the appliance.
- Children should not play with the appliance.
- Cleaning and user maintenance shall not be made by children without supervision.

Product Introduction

Use

Correct position

For best performance, select the air filter a certain distance away from walls or other obstructions.

Plug into a power supply

- Open the filter cabinet cover by the button on the rear cover to open the filter cover. Make sure that the fan is in correct status.
- Take out the power cord and take out the new cable.
- Plug in a power supply. Connect the power cord to the power cord of the bottom of the unit, and then plug into a power supply.

Use

Power/Mode button

Press to turn on the unit or to switch the operating mode. Press and hold for 2 seconds to turn off the unit.

Screen on/off button

Press the screen on/off button on the back of the unit to turn the screen on/off.

Screen display

Information displayed on the unit's front screen:

- AQI 25
- PM2.5
- Air quality indicator
- Air quality indicated by green, orange and red lights
- Green — AQI 1-75
- Orange — AQI 75-150
- Red — AQI > 150
- Temperature
- Humidity
- WiFi indicator
- Operating mode
- Auto: Automatically switches modes according to indoor air quality conditions
- Smart: Control mode for a user's night sleep
- Favorite: Adjust and save purification mode by setting unique area ID app

Use

Connect to mobile app

Go to the app store, search "Mi Home" or scan the following QR code to download Mi Home. Open the app, account "Mi Connect" and get the Air Purifier Pro from the upper right corner. The device can be found in "Smart Device List".

Reset Mi Home module

If you are unable to connect your phone to the air purifier, press and hold the reset button for 5 seconds to reset the Mi Home module. The reset button is located on the back of the unit.

Maintenance

▲ Please make sure to turn off the air purifier and disconnect power before performing the following operations.

Replace filter

Replace the filter every 7 to 8 months. When it is detected that the filter service life is coming up, the device indicates the remaining service life of the filter with the remaining 10%.

For filter replacement, refer to the "Filter replacement" table on the back of the filter cabinet door.

- ▲ Please make sure to turn off the air purifier and disconnect power before performing the following operations.

After replacement, turn on the unit. Press and hold the reset button for 5 seconds until you hear a beep sound. This indicates successful filter replacement, and the filter replacement time is reset.

Note: Users who use the HEPA filter should use the replacement tool.

Note: Please use the correct installation direction of the HEPA filter. Note the flow direction. Please place the filter in a sunny and air circulation place to avoid mold.

Specifications

Product name	Mi Air Purifier Pro	Rated voltage	AC 220V	Rated Power	300W/h
Model	AC-M3-CA	Rated AC frequency	50/60Hz	CADR (Formaldehyde)	200m³/h
Dimensions	160x160x250mm	Rated power	160W	CCM (Particulate)	F4
Net weight	3.6kg (incl. box)	Noise	46dB(A)	Rated input voltage	100V-240V
Rated weight	3.6kg (incl. box)	Cleaning efficiency	High	Rated frequency	50/60Hz (50/60Hz Region) 50/60Hz

Net weight does not include power cord. © 2018

Regulatory compliance information

Europe – EU declaration of conformity

With regard to certain electronic technology-related features, declares that this equipment is in compliance with the applicable directives and European norms, and amendments.

Dispose and recycling information

Do not dispose of this product. This highly indicates that this product should not be disposed with other household wastes. To prevent possible harm to the environment or human health from uncontrolled waste disposal, request if necessary to provide the appropriate route of disposal resources. To learn your waste disposal, please refer to the waste and recycling symbols or symbols on the label where the product was purchased. They can take this product for environmental safe recycling.
