Premium Office Comb Binder

4400420

Overview

The C340 Combines Simplicity With Strength Allowing You To Create A Perfect Bound Document With Ease. This Large Capacity Machine Is Ideal For Frequent Use In Mid To Large Office Environments. It Features A Unique Paper Separator To Divide Sheets Up For Punching, And Auto Centring As Standard. Complete With The Unique GBC Quickstep Workflow Guide, The C340 Makes The Binding Process Easy And Ensures Perfect Results Every Time!

Description

With a punch capacity of up to 25 (80gsm) sheets and binding capability of up to 450 pages, the CombBind C340 is one of the most productive manual binding machines on the market. Featuring the patented Flowline Pro binding system which makes the set-up process fast and easy, the solid, robust CombBind C340 is the ideal solution for moderate to heavy use in medium sized offices or educational establishments.

Whether you want to produce training manuals, annual reports or funding proposals, this manual puncher and comb binder simplifies the whole process, enabling users of all experience to create professional documents with ease. It comes with a comprehensive Quick Starter Guide and a 2 year parts and labour warranty, so you can purchase with confidence.

Quick and easy: whether you are a novice or expert binder, the CombBind C340 is easy to set up and operate. The unique Flowline Pro system guides users through each stage of the binding process and practically does the thinking for you thanks to a number of innovative features.

There's a handy document separator that divides your pages into punchable quantities to speed up the punching process: no more guessing or counting sheets. Just click the comb selector knob and settings are automatically adjusted to suit the plastic comb size (up to 51mm) and the number of pages you are binding (maximum 450 sheets). The auto centering feature quickly positions the pages for accurate punching whether sheets are letter-sized, oversized covers or standard A4. And the auto edge guide ensures there are no paper break-outs at either edge to minimise waste and achieve perfect results first time. Practical: the CombBind C340 brings you all the benefits associated with classic comb binding. It allows you to add, replace or remove individual pages whenever required, saving you the time and expense of reproducing a whole document if you only want to update a single page. And the bound pages lie flat which makes reports easy to read and photocopying quick and easy.

The CombBind C340 features a comfortable, full-width handle for better-balanced, 2-handed operation which makes punching up to 25 sheets at a time effortless and quick. An easy-access chip tray tidily collects the paper waste from the punching process and slides out for quick and mess-free disposal.

Professional: the plastic comb spines come in a choice of colours including black, white and red so you can make your documents stand out from the rest. With the CombBind C340 it's so easy to create stylishly bound, accurate documents quickly and easily and give your ideas a competitive edge.
