choice such as diesel heater and
awning etc.

Available in a choice of
multiple furniture and material
finishes from standard to
absolute luxury tailored to suit

The Crusader Campervan is another long standing Leisuredrive stablemate with a design that has evolved and improved over the last 50 years to what we offer today. A beautiful Volkswagen T6.1 campervan with a more traditional side kitchen layout.

The Crusader layout offers plenty of space with a fitted kitchen set along the driver's side of the van and two rear forward-facing seats. This then allows for a very large area at the rear of the van for storage. The Crusader is offered in a range of beautiful hand-crafted kitchens, perfectly finished and fully fitted with high spec Dometic appliances including a grill oven, a 60L 3 system fridge freezer, an integrated electric pumped sink with a two-burner hob on the opposite side. These are neatly covered by a split, hinged toughened glass lid when not in use. A microwave can also be fitted as an optional extra.

The Crusader comes as standard with a Leisuredrive side lift elevating roof with optional children's roof bed. Also available is our hi-top roof, again made in house and not only sleek and aesthetically stunning but with hundreds of hours in design and testing has been proven to offer superior fuel efficiency over other hi-tops.

The Crusader comes with fully STATUS accredited crash tested rear seats which fold flat to a size of 6' x 4' plus providing outstanding comfort and safety when driving as well as sleeping. They are available in a large range of beautiful upholstery, leather or a mix. The front swivel passenger seat enables easy access to large free-standing stow away dining table and comes fitted with an under seat safe as standard. The High-top version also provides comfortable additional sleeping space accommodating up to 2 children. All our seats are fitted with fully STATUS crash tested three-point seat belts.

The interior is lit by multiple, independent lighting options including strip lights at the sides and rear doors, touch spotlights and reading lights at the front if required.

Numerous plugs sockets with integrated USB adapters to charge your devices are placed around the interior.

We use only the finest sheep wool insulation for warmth and sound proofing and blackout curtains on all the windows give you complete privacy and an excellent night's sleep.

The Crusader has a range of optional extras including but not limited to a TV and reception, Webasto Diesel heater an awning and Bike rack.

The Crusader is offered in a range of Volkswagen T6.1 models right up to a top of the range Highline.

All our new campervans come with our two-year warranty, VW warranty and RAC roadside mechanical assistance.
