PPIHC - RACE FACTS:

The Broadmoor Pikes Peak International Hill Climb, brought to you by Gran Turismo, is the second oldest motorsport race in America and a long-standing tradition in Colorado Springs and the Pikes Peak Region. First staged in 1916, this year marks the 100th Running.

The race is held on a 12.42-mile course, with 156 turns, beginning at 9,390 feet and finishing at the 14,115-foot summit of Pikes Peak - America's Mountain. The event is sometimes referred to as "The Race to the Clouds".

COURSE RECORD: The course record of 7:57.148 was set by Romain Dumas in 2018 driving a 2018 Volkswagen I.D. R all-electric prototype in the Unlimited Division.

Compare that to the winning time in the very first race of 20:55.6 set by Rea Lentz in his Romano Special back in 1916.

Some Notable Firsts:

- 1926 – First Unsters to compete, Louis and Joe
- 1953 – First year Sports Car class competed
- 1956 – First on-board camera – Paul Kleinschmidt, Open Wheel
- 1960 – First woman to race on Pikes Peak – Joyce Thompson, Sports Car class
- 1965 – First automatic transmission
- 1973 – First propane-powered race car – Ak Miller
- 1976 – First Wells Coyote enters
- 1981 – First electric car – Joe Ball
- 1985 – First woman to set a course record – Michele Mouton
- 1988 – First paraplegic to make a solo run – Charley Hexom, Class S7 Truck class
- 1995 – First weather-shortened race (drivers ran only to Devils Playground)
- 1996 – First big rig trucks compete
- 2011 – First to break the 10-minute barrier – Nobuhiro "Monster" Tajima
- 2013 – First to break the 9-minute barrier – Sébastien Loeb

There is no other race in the world like the Pikes Peak International Hill Climb. It attracts race teams willing to invest large sums and months of preparation to compete for 'King of the Mountain.' This race is also a bucket list event for many grassroots racers who prepare all year to test their machines against factory teams and each other.

MEDIA SAFETY:

The PPIHC would like to provide accredited media members with course and competitor access in order to capture the best content possible; however, it must be understood that some locations are not safe and may put your life, and the future of this great motorsports tradition, in jeopardy.

Areas on the outside of a corner are extremely dangerous and you should never capture content from these locations; no camera angle is worth more than your personal safety. If you are caught capturing content in dangerous locations, (for example, from a prohibited area, or the outside of corners,) the PPIHC may revoke your accreditation (credential and vest) and decline your accreditation for future editions of the PPIHC.

The first photo was taken during a practice session in the Upper Section and shows a photographer sitting on the outside of a corner. The bottom photo, also taken during a practice session in the Upper Section, shows a race vehicle leaving the course. Not only is the

photographer in the top photo shooting from the outside of the corner, but he is doing so while sitting down and without any form of natural barrier that could provide protection if the unexpected were to occur.

Never sit, kneel or position yourself in any way that could limit your ability to react as quickly as possible. Keep natural barriers, like boulders and trees, between the racing surface and yourself at all times. Always have an escape route in mind and position yourself at a higher elevation than the racing surface.

The PPIHC is one of the most unique sporting events in the world and requires strict safety regulations. We strive to allow as much access as possible to accredited members of the media and ask for your cooperation in adhering to our safety regulations and policing unsafe behavior. If you see someone disregarding these policies, please remind them about these safety measures.

MEDIA RULES AND REMINDERS:

- **Stay off the hot course!**
- Never approach a vehicle that has stalled, crashed, or left the course. Electric vehicles are especially dangerous as they carry a large amount of voltage that may cause harm or a fatality. The PPIHC Race Safety Team will handle all incidents with competitor vehicles.
- There is no completely safe place for media to be on Pikes Peak. Media attend and cover the PPIHC at their own risk.
- Do not leave unmanned cameras anywhere on the course.

- **No one** is allowed to stand behind areas labeled “Prohibited Area” or other areas PPIHC has designated as high danger.
- Fire restrictions may be in effect during Race Week.
- **Don't be “the one” to:**
 - Disobey safety and boundary rules and cause the session or race to be delayed.
 - Get sick or hurt and cause a practice session to be cut short so competitors can't get all their runs.

Be prepared for sustained exposure to adverse weather and high elevation (from 9,390 feet / 2,862 meters to 14,115 feet / 4,302 meters) above sea level. On Practice/Qualifying days, the length of time is typically about 5 hours. On Race Day, the time spent at altitude can be up to 14 hours.

- ✓ Drink plenty of water
- ✓ Use sunscreen
- ✓ Protect your eyes with sunglasses
- ✓ Dress warmly
- ✓ Know the symptom of altitude sickness

JUNE 20 - 23 - PRACTICE/QUALIFYING DAY ACCESS FOR CREDENTIALLED MEDIA:

- All credentialed media will be allowed to attend PPIHC Race Week Practice Days only after participating in the **mandatory** virtual media meeting, then registering and picking up a media credential and vest.
- The Gateway will be open for credentialed media from 4:00am-5:00am on Practice Days after Competitors/Crews and Race Officials have entered. You will be directed at stage at Gate 2. Typical media entry time is 4:30am.

- **IMPORTANT:** Foot traffic on the shoulder of the road is allowed **ONLY** between practice qualifying runs (about 5-12 minutes). If a course official asks you to get off the road, please do so immediately. The safety of everyone involved in this event is our top priority.

JUNE 25 - RACE DAY ACCESS FOR CREDENTIALLED MEDIA:

- The Gateway opens to all credentialed media at 1:30am.
- No cars will be allowed above the Start Line after 5:00am. Often, parking above the Start Line is full prior to 5:00am, so access may be denied. Be sure to arrive very early if you want to park above the Start Line.
- Take Off Area/Start Line Access:
 - The Start Line has two access control points to allow competitors the space they need to prepare for their run.
 - Credentialed media will be allowed through the first access point but will not be allowed through the second access point with the flag man.

No media shuttles will be available.

PLEASE carpool if possible since parking will be very crowded.

Media may park at any of the spectator areas except 9 Mile.

- Start Line
 - Park in the dirt lot (*Practice/Qualifying days only*) or along the shoulder of the road leading up to the Pit area.
 - NO PARKING ON PIT ROW.
 - NO PARKING IN THE PAVED LOT. That is the driver pit area.
- Halfway Picnic Grounds – use the upper entrance
- Ski Area
- Glen Cove – If full, park at Cove Creek and walk down to Glen Cove before 5:00 AM.

- 16 Mile
- Devils Playground – Park all the way in the pack of the lot, up against the cable.

If you would like to request access to park your vehicle outside of these areas, please contact Lisa Haight (Lisa@ppihc.org) before June 14, 2023.

Formal requests for additional access should include your name, competitor you are following (if applicable), requested location and date you would like to park at that location. (If you're following a competitor, check the Practice Day Schedule to know which section they will run on each day.)

These parking spaces are available on a limited basis, by advance reservation only:

- Brown Bush
- Bottomless Pit
- Boulder Park

The above locations are parking areas; you may walk to a different shooting area once parked. Only walk to a new location when a set of practice runs has ended and the cars are traveling downhill to start a new run. Once the course is hot, move off the road and away from the course.

SUMMIT PARKING – RACE DAY ONLY

If you need to access the Summit on Race Day:

- Request a Summit Pass in Advance
 - Due to the unique venue of the race and limited space at the summit of Pikes Peak – America's Mountain the PPIHC cannot grant access for everyone to cover the race from the summit on Race Day. A limited number of Summit Passes will be available.
 - There will be no Media Summit Bus in 2023. Carpooling to the summit with other credentialed media is recommended.

The PPIHC will offer 20-25 daily images from each of the PPIHC sanctioned events captured by the PPIHC's Official Photography Group lead by Larry Chen, to be used solely for editorial purposes. These high-resolution, non-watermarked images will be available during Race Week.
