The Victorian Flooring Guide

Introduction

The Cathedral Range of Victorian style porcelain floor tiles, manufactured by Armatile, offers the timeless elegance that has come to be associated with classical Victorian style floor designs.

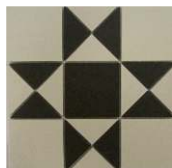

The range is created in classical geometric mosaic designs and colours originally seen in churches and aristocratic homes of the 1800s.

The individual pieces in our geometric mosaic designs are manufactured from the highest quality unglazed porcelain stoneware and then pre-assembled on mesh sheets to allow for easy installation and lower fitting costs. This system ensures pre-defined grout joints and perfectly symmetrical floors. Other companies supply Victorian tile designs in individual pieces that can be labour intensive, difficult and costly to fit!

As a result the entire range is suitable for both indoor and outdoor use in a wide range of domestic and architectural applications.

The Cathedral Range of Victorian style tile mosaics are supplied complete on four different modular mesh mounted panels using our innovative manufacturing techniques.

FRONT

Black & White
285x285mm

Beige
285x285mm

Red
285x285mm

Yellow
285x285mm

REVERSE

Black & White
285x285mm

Civic buildings, churches, hotels, museums, pubs, restaurants etc

Technical Information

Features

Benefits

Victorian Style Natural Finish

- Authentic Victorian Style Aesthetic

Mesh Mounted Tile Panels

- Pre-determined Grout Lines (2mm)
- Reduced Fitting Time (21 individual mosaic pieces per panel)
- Reduced Fitting Costs

Modular Design with Linking Components

- Easy to Measure, Plan, Price and Fit

Full Body Porcelain Tiles

- No Sealing Required (less than 0.05% water absorption)
- Highly Durable
- Scratch Resistant
- Stain Resistant
- Easy to Clean and Maintain
- UV Resistant
- Suitable for commercial/high foot traffic areas
- Suitable for indoor and outdoor application

Rectified Edges

- Clean Minimal Appearance

Slip Resistance

- Minimum R9 Slip-Start Value (DIN 51130)
- A – Rated (DIN 51097)
- Coefficient of Friction (PTV Slider 96)
 - Dry 0.58
 - Wet 0.36

Bespoke Design Service Available

For customers requiring bespoke colours and geometric patterns Armatile specialises in the design and creation of truly innovative tile and mosaic surfaces for interior, commercial and residential design projects.

We integrate several operational processes, using waterjet cutting and assembling technology to consistently achieve high quality personalised floor tile designs, marble and tile carpets and bespoke mosaics for both domestic and commercial applications to the exact specifications of every client.

By using combinations of tiles, marble, glass and metal, our creative team will work with you create unique designs specifically tailored to your needs.

From the initial brief, our creative in-house design team can provide you with a comprehensive design service including colour suggestions, prices, 2D and 3D drawings, samples and technical information.

Design Personalised... *just for you!*
