Office 365 connection settings

Here you can configure how you connect to Office 365. To use Office 365 features, you must be connected to an Office 365 account. This can be accomplished as outlined below.

You are not connected to Office 365.

Connection Options:

Use your Office 365 credentials to log in to Moodle

Instead of entering a username and password on the Moodle login page, you will see a section that says "Login using your account on OpenID Connect" on the login page. You will click the link and be redirected to Office 365 to log in. After you have logged in to Office 365 successfully, you will be returned to Moodle and logged in to your account.

Start using Office 365 to log in to Moodle.

Link your Moodle and Office 365 accounts

Linking your Moodle and Office 365 accounts allows you to use Office 365 Moodle features without changing how you log in to Moodle.

Clicking the link below will send you to Office 365 to perform a one-time login, after which you will be returned here. You will be able to use all the Office 365 features without making any other changes to your Moodle account - you will log in to Moodle as you always have.

Link your Moodle account to an Office 365 account.
