

TIP GUIDE : LOGINS

LOGINS

Use the Logins tab to store sensitive credentials like CAQH passwords. Logins are available to all coordinators on your team. Providers can only see logins that they own (including logins you create for the provider).

LOGINS

Adding a Login.

Account Owner:

Choose an Account Owner from the drop-down list. This is the person to whom the login details belong, and can be either a coordinator or provider on your team.

Category:

Choose a category for the login.

Site Name:

Click on the blank space next to Site Name to pick a website from the list, or select "Custom" from the dropdown menu under Site List to enter a custom website.

Username & Password:

Enter in the appropriate username and password.
