# Intelligent Printing and Exporting

**from your preferred layout and design applications**

**axaio**
software gmbh

**axaio MadeToPrint is the intelligent print and export solution for publishers, printers, ad agencies and the packaging industry, to standardize and automate the output from within Adobe InDesign/InDesign Server, Illustrator, InCopy and QuarkXPress.**

## Key Features:

- Combining manual prepress steps into job sets for an automated processing
- Processing of multiple output jobs in parallel
- Saving output in predefined target paths
- Rule-based definition of file and folder names using variables
- Simultaneous control of several output devices
- Comfortable export/import of saved job sets
- Option to prioritise the job execution order
- Reliable PDF verification during export
- Individual and reliable layer handling through built-in MadeForLayers functionality
- Flexible control through XML job tickets
- Option to connect individual scripts
- Built-in callas pdfToolbox profiles for PDF post control
- Integrates with Enfocus Switch
- Three automation versions available:
  - MadeToPrint **Standard**
  - MadeToPrint **Auto** (hot folder automation)
  - MadeToPrint **Server** (incl. Adobe InDesign Server)

## Optional Publishing System Connection:

- vjoon K4, WoodWing Enterprise, Van Gennep PlanSystem4, Quark Publishing Platform
- Status or task based export from within the editorial database
- Keeps publication components up-to-date
- Updates content right before output
- Use of database meta data

## Product Benefits:

- Standardized, automated output = safety and control
- Error minimization = time and cost saving

## General
- For Adobe InDesign/InDesign Server
  Adobe Illustrator/InCopy and Quark XPress
- Supports Mac and Windows

## Fields of application:

### For Publishers
Typically, several teams simultaneously work on a large number of documents. Against the deadlines! Predefined jobsets provide identical output from every file for increased efficiency, as well as considerable time and cost savings. MadeToPrint seamlessly integrates in any editorial system.

### For Printers
axaio MadeToPrint is the ideal gate keeper and offers streamlined and faultless production with standardized file naming, adding info bars, handling language layers and finally providing a fully imposed ready to print file. MadeToPrint can easily be integrated in any production automation solution.

### For Ad Agencies
In comes axaio MadeToPrint, the intelligent printing and exporting add-on to Adobe InDesign/InCopy/Illustrator or QuarkXPress. It relieves designers for all technicalities of preparing files for print. It solves output flaws, misprints, issues with layers, etc. by extending, enhancing, checking and streamlining all output processes. Production managers can create output jobsets once, making them available to all users, to get identical output from every workstation with one mouse click.

### For Packaging Service
For packaging design and pre-press teams, MadeToPrint is the perfect tool to automate the creation of different packaging versions, standardize file naming and increase output consistency. MadeToPrint for Illustrator also allows you to extract all kinds of versions from the same master file, for example different language versions.
