Company Overview

Livingstone International was founded in 1984. It is an Australian Owned company that supplies consumables to over 25,000 customers throughout Australia and overseas within the Healthcare, Medical, Dental, Childcare, Pharmacy, Hair & Beauty, Education, First Aid, Scientific, Food Manufacturing and OH&S industries. Celebrating over 35 years in the industry, Livingstone International is proud to be a distributor and marketer of over 80,000 products.

Mission Statement

To become the market leader in the healthcare, dental, scientific, and safety industries by providing quality products combined with customer-focused service, at the most competitive prices.

The Livingstone Brand

Here at Livingstone, we are proud of our own premium quality branded products. We continuously try to understand our customers' demands and have developed the Livingstone brand in accordance to their needs and wants focusing on customer satisfaction. Our Livingstone products are competitively priced and are of premium quality - representing the best value - that has made us market leaders in the healthcare industry.

Best Price and Best Value Guarantee

We do it for you!!

We have a team of people who are constantly benchmarking and comparing our prices against other companies. Therefore, we can confidently declare and guarantee that our pricing are always the lowest against our main competitors. We are effectively your purchasing team shopping around for you all year round.

We guarantee that you will **ALWAYS** get **BEST PRICE AND BEST VALUE** from us. We have the buying power and the scale to reduce costs, and to pass them on to you.

In the unlikely event that you have been offered a better price for an identical product*, we will beat it by Five Percent (5%). Please chat, email or call us to have the price beaten or matched. It will be our pleasure to demonstrate our capabilities to you.

Email: sales@livingstone.com.au • Phone: (02) 8344 7300

*An identical product means identical features, quality, specifications, pack size, components, validity, warranty, expiry date, delivery terms, and stock availability.

Customer Service

The Livingstone group employs experienced staffs that are committed in assisting our valued customers. We offer personalised account managers to service our customer's diverse needs.

Quality Policy Statement

Livingstone International quality management system has been designed to conform to ISO 9001:2000 and meet the requirements laid down by the Australian Standards Association. This quality management system has been designed and implemented as a means of ensuring that products supplied by the Company are of the highest quality, and in every instance meet the needs and requirements of the Company's customers. The quality and reliability of the Company's products is the concern of every person in the organisation and not just the sole responsibility of quality assurance personnel. It is an important requirement of this policy that Livingstone supplies its customers with the products that are suitable for their intended purposes and that conform to the relevant agreed specifications or contracts. The company ensures supplied products adhere to the appropriate Australian standards. For therapeutic goods, the company conforms to the import, labelling requirements and guidelines stipulated by the Department of Health.

Livingstone International has also received ISO13485 certification, which is the International Standard for Medical Device Manufacturing. Along with this certification, we have also received CE markings on a wide range of our medical device products. You can rely on Livingstone to deliver the best quality products at the best possible price.

Copyright

The design and artwork of this catalogue are subject to copyright protection in part and/or in whole.

Certifications

Livingstone International has been granted HACCP certification on range of reusable and disposable gloves - Latex and vinyl, head protection and aprons. HACCP Australia Food Safety Accreditation provides a recognised endorsement of food safety excellence.

Further, Livingstone International is a member of Sedex, a global membership organisation used to manage labour rights, health and safety, the environment and business ethics. This ensures better management of social and environmental risks within their supply chain, to make a real positive impact with responsible sourcing.

Livingstone is also an accredited Australian Trusted Trader meeting and exceeding international and domestic supply chain security and trade compliance standards and practices. Livingstone has been awarded the Environmental Management System Certification complying with the requirements of ISO 14001:2015 for our offices and warehouse operations.

E-Commerce

At Livingstone, we understand the advantages the Internet brings and as a result we have harnessed the capabilities for the benefit of our customers. The newly updated Livingstone website (www.livingstone.com.au) makes it extremely easy, cost effective and convenient for customers to shop with Livingstone.

Publishing System

Livingstone International employs a sophisticated marketing approach; utilising a combination of product managers, marketing coordinators, marketing assistants and telemarketing staff to deliver the marketing message using a wide array of mediums, including direct marketing materials, advertising, e-commerce, trade shows and customer visits.

Direct marketing materials come in the form of brochures, catalogues, fax and email broadcasts. The in-house design team use sophisticated technology to create award winning designs and marketing materials. This has saved the company valuable time, money and resource in its marketing and promotional activities.

An added advantage of the publishing and graphics system is that it enables the company to publish in-house magazines and publications for industry circulation. The company is also earning additional revenue from advertisers. We also advertise on catalogues and websites of our strategic partners.

Livingstone has the scope to extend the publication to the doctors, dentists and laboratory technicians.

Disclaimer

Whilst the utmost care has been taken in the preparation of this product catalogue, the final responsibility for information about individual benefits, specifications or capabilities of products rests with the manufacturer. Livingstone International accepts no responsibility for any changes or amendments to product specifications in this catalogue. The use of such information and the conditions in which these products are used are beyond the control of Livingstone International. It is the obligation of the user to determine the correct selection and use of these products. Pictures shown in this catalogue are meant for illustrative purposes only. Product packaging may vary from photographs in catalogue. Consumers will be advised on www.livingstone.com.au of any catalogue price changes due to errors, omissions, currency exchange variations or significant price increase imposed by manufacturers. Please check prior in placing order.

Privacy Act

Livingstone is committed to protecting your privacy; if you do not wish to receive information from Livingstone, please email: healthcare@livingstone.com.au and type "remove my details" in the subject header. Please include your mail code and contact details (name and company) in the email.

Livingstone International takes an active role in proudly supporting organisations that positively impact lives and communities throughout Australia.

Livingstone is proud to announce our partnership with **UNICEF Australia**. Through this partnership, we are committed to providing funds to ensure that vulnerable children in Australia are given the best opportunity in life to thrive.

After some evaluation, UNICEF Australia and Livingstone carefully selected the perfect program that reflects our vision of supporting Indigenous children and most disadvantaged communities in Australia. The program selected is the **UNICEF Australia Early Childhood Development Program** that supports **young Aboriginal children** living in rural areas of Australia that are more likely to face barriers in accessing early childhood education and health care programs.

The UNICEF Australia Early Childhood Development Program provides support for communities and parents to provide the nurturing care that children under the age of five need - across the critical domains of health, nutrition, stimulation and protection by supporting a locally developed program that aims to:

- 1) **Improve health outcomes for children under the age of five, their families and communities** through promoting physical activity and healthy eating habits, supporting social and emotional wellbeing and helping to reduce incidents of communicable diseases.
- 2) **Deliver an innovative early learning model** to help children become confident learners, effective communicators and feel connected to their family, community, culture and Country.
- 3) **Support local employment and training for community women**, with a strong focus on sustainability by building local staff capacity through mentoring, skills development and formal qualifications.

Both Livingstone and UNICEF Australia's core visions and commitments are aligned to deliver **life changing support** to disadvantaged children and their communities in rural and remote locations to help ensure that every child has a fair chance to realise their full potential.

UNICEF does not endorse any company, brand, product or service.

Livingstone is committed to providing access, resources or funds that are readily available to the community. With this partnership, it allows **St. George Foundation** to fund programs run by charities who are truly close to the families they help but who don't attract funding from government and aren't big enough to generate significant fundraising income.

Since 1990, St. George Foundation has partnered with over 800 community organisations across Australia and invested more than \$23 million to improve the lives of Australian kids who are **physically, socially or economically disadvantaged**.

Livingstone and St. George Foundation core visions and commitments are aligned to deliver high quality **support to disadvantaged Australian children**.

Livingstone proudly supports **Accelerate**, an Indigenous Injury Management company, that is Supply Nation Certified. Accelerate offers guidance and support to Australians affected by workplace related injuries and ensures a safe recovery and return back to work as efficiently as possible.

With this partnership and access to funding, resources and consumables, it allows Accelerate to fund their initiatives of providing **education, employment and support** for Indigenous communities.

Livingstone and Accelerate core visions and commitments are aligned to deliver high quality support to **Indigenous communities** throughout Australia.

Catheters (Continued)

Urine Foley Balloon Catheters

- Narrow tubes are used to drain urine from the bladder
- More than capable of staying in place for up to several months
- Has a second channel within the catheter which provides the means to inflate a small balloon once the tip of the catheter has been inserted into the bladder
- Balloon prevents the tip of the catheter from falling back down the urethra and retains the drainage eyes of the catheter immersed in the urine which collects in the bladder
- Drainage bag is attached to the opposite and acts as a reservoir for the urine
- Sterile

MEDICAL & SURGICAL SUPPLIES

INTRAVENOUS CATHETER NEEDLES

SURFLO®

- Individually packed in a sterile, easy-to-open plastic case
- Rigid plastic case provides added protection to both the catheter and the user
- Colour coded for easy identification of the catheter gauge and has a tamper-evident seal for additional safety
- Catheter hub is translucent, making it easy to confirm continued access in the lumen of the vein and helps to monitor solution or blood flow

ANTIBACTERIAL COPPER FILM

**GUARANTEED
SATISFACTION
or your
MONEY-BACK!**

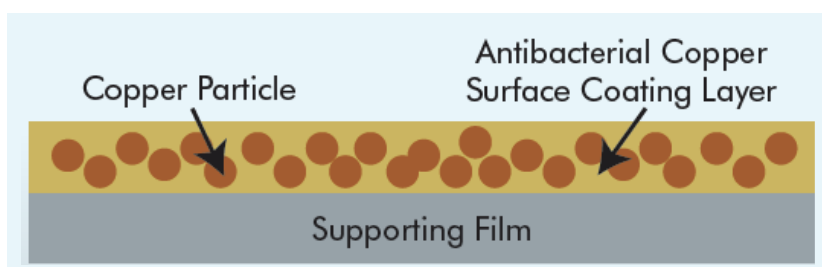

Used to protect surfaces and equipment from bacteria and microbes

Features:

- 40cm x 10m
- Semi-permanent period of use - change depending on damage made on the film
- Harmless to humans and the environment

How it Works:

1. The bacteria recognises the copper surface as an essential nutrient so the bacteria absorbs it
2. The absorbed copper ion penetrates the cell membrane causing it to lose significant nutrients and water
3. The copper ion pulls the active oxygen ROS (Reactive Oxygen Species) through the penetrated hole of the cell membrane
4. The bacteria gets serious prevention for respiratory and metabolic activity causing complete extinction

Unit: Each
Item No.: **FILMAVB**

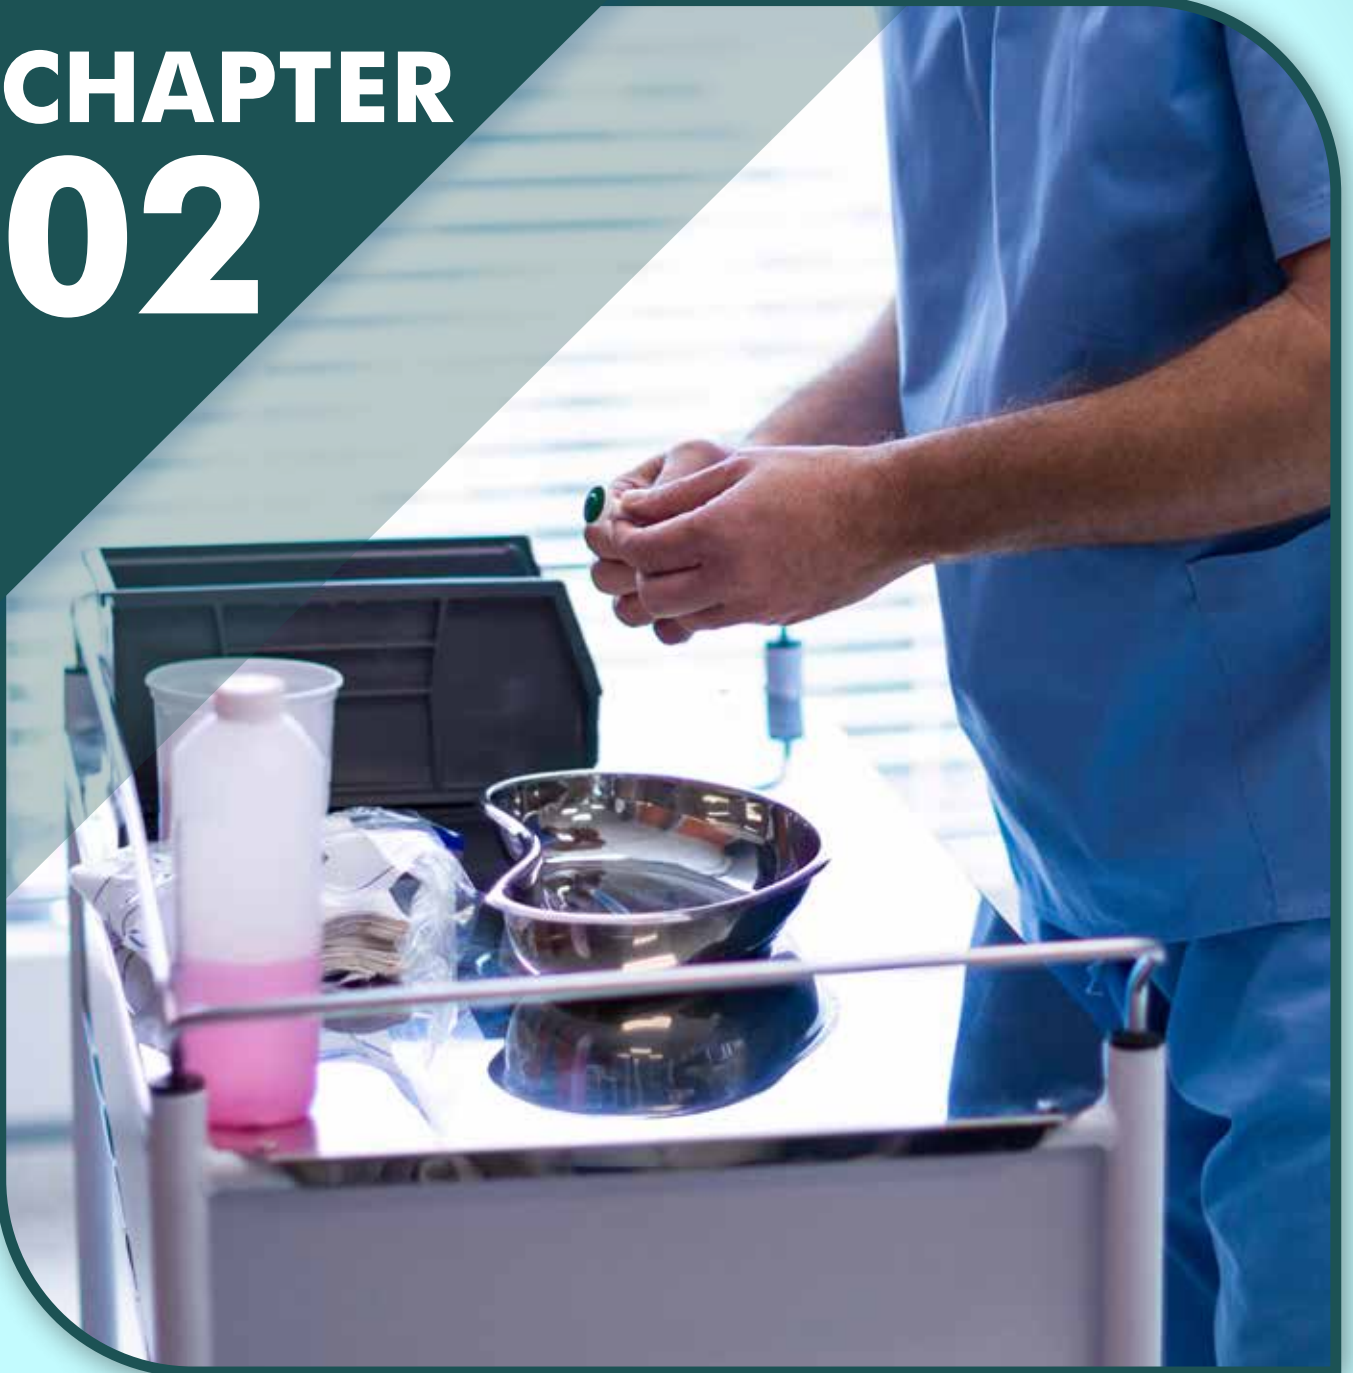

Did You know?

1. Human coronavirus can proliferate for days on materials such as plastic, ceramic tiles, glass and stainless steel
2. However, the coronavirus is deactivated in the Copper Surface within 30 minutes as the copper destroys the body structure and genome of the virus

T.E.N.S. AND E.M.S. UNITS (Continued)

EV-806 Digi Tens/E.M.S. Comfy Stim®

- Comfy Stim® is a combination unit of T.E.N.S. and E.M.S.
- Pulse width, pulse rate, ramp time, on time, off time and timer are fully adjustable
- User can identify if it is a T.E.N.S. or E.M.S. mode by the reading the top of LCD

Features:

- 5 T.E.N.S. modes, 2 E.M.S. modes
- Flip top cover
- Protective strips on both sides of unit
- Large LCD settings
- Easy-to-use press buttons control
- Patient compliance meter up to 999 hours
- Ability to store last used settings
- Unbreakable stainless steel belt clip
- Treatment time countdown
- Low battery indicator
- Pulse Amplitude: Adjustable, 0 - 100 mA peak into 500 Ω load
- Wave Form: Asymmetrical Bi-Phasic Square Pulse
- Size: 10.1 x 6.1 x 2.45cm
- Weight: 150g with battery
- On Time: adjustable, 2 - 90 seconds, 1 sec./step
- Off Time: adjustable, 0 - 90 seconds, 1 sec./step

GLUCOSE MONITORING (Continued)

Accu-Chek® Performa Blood Glucose Monitor

RDACPERF

- New ergonomic design - Small with easy to hold rubber grips
- Time clock battery back up - Additional battery in the meter maintains the time for up to 72 hours
- 500 Value memory - Expanded memory stores extensive data for improved tracking
- Customisable hypo indicator - Allows the user to define a hypoglycaemic level between 3.3 and 4.4 mmol/L
- General Flag - Users can mark results with an asterisk to help them recall events such as an alternative site test
- Extended battery life - Battery life is an average of 2,000 tests
- Infrared (IR) communication - Includes an IR window that provides convenient data transfer for 'wireless' consumers

Item No.	Description	Unit	Price	3+	15+
RDACPERF	Blood Glucose Meter	Each	\$41.99	\$40.99	\$39.99

CoaguChek PT Test Strips

BM04625358019

- Used by patients at home and by professionals in medical settings to determine blood clotting time of patients taking anti-coagulants, also known as blood thinners to diagnose some disease condition

Item No.	Description	Unit	Price	2+	4+
BM04625358019	Blood Clotting Strips	24/Box	\$159.00	\$155.00	\$151.05

Item No.	Description	Unit	Price	2+	3+
BM04625315019	Blood Clotting Strips	48/Box	\$254.00	\$247.65	\$241.30

Accu-Chek® Performa Test Strips

BM04625315019

- Fast test time - Test time of 5 seconds makes the Accu-Chek® Performa system one of the fastest on the market
- Only requires a tiny 0.6 µL blood sample
- Fast capillary fill - Uses a super-fast-fill capillary window, making dosing more convenient for the user
- Large dosing area - Wide mouth allows easier application of the sample
- Contrast dosing - Yellow window is in contrast to the grey tip of the test strip, making it easy to see the dosing area
- Strip Graphics - Features directional arrows to help the user understand the proper way to insert the strip
- 6 gold electrodes - Test strip electrodes work with the system technology and code key to perform extensive quality checks prior to each test

Item No.	Description	Unit	Price	2+	10+
BM04948874020	Blood Glucose Strips	100/Pack	\$55.00	\$53.70	\$52.40

CoaguChek XS Plus Kit

- Virtually pain-free testing using the CoaguChek Softclix lancing device: no need for venous blood sampling
- Only one drop of capillary whole blood (10 µL) from the fingertip to get a quick (1 min) and precise INR result
- Choice between top-dosing and 2 side-dosing options offers an easier application of blood
- Displays results only after several quality control steps have been passed
- Automatic control of internal system functions
- On-board single-channel strip control (OS2C) which checks the integrity of every strip directly in the measuring channel
- Failsafe features device and strip are constantly monitored during the measuring process (e.g. check for sufficient blood volume application)
- Reagent is sensitive (ISI close to 1,0) and compares very well with reference laboratory results
- Reagent is insensitive to heparin (up to 1 I.U./ml for UFH, up to 2 aXa U/ml for IMWH), allowing continuous vitamin K antagonist (VKA) therapy management, e.g. during transition from heparin to VKA therapy
- 100 Test results can be stored in memory
- Better clinical outcome: testing more frequently means less risks of over or under-dosing, hence less odds for adverse effects (bleeding or clotting)
- For professional use only

Item No.	Description	Unit	Price	2+	3+
BM05864640001	PT/INR Testing Device	Each	\$1,049.95	\$1,024.95	\$999.95

Metron® Accusonic Plus

- 1 and 3 Mhz technology through one dual frequency 5cm2 applicator
- Additional 3 Mhz 0.75 cm2 applicator is available for use
- Two internal ports
- 10 Pre-programmed/customized clinical protocols
- State-of-the art microprocessor technology
- Internal software for a self-tuning calibration procedure prior to treatment and it communicates with each applicator to correctly monitor the frequency

Mini 3000® Fiber Optic Otoscopes

- Xenon Halogen bulbs for bright illumination and accurate colour rendering
- 20,000 on/off switch cycles guaranteed
- Distal fiber optic (F.O.) illumination: Reflex-free illumination of tympanum and ear canal
- Viewing window with 3x magnification and optimised casing surface for razor-sharp images and minimal reflection, swivelling viewing window built into instrument
- Pneumatic testing of the tympanum mobility by using the insufflation port and an optional connector
- Attachment clip with integrated on/off switch turns off automatically when returned to the pocket
- Replaceable batteries, Size AA or optional rechargeable battery with mini NT table charger
- 2-Piece handle and head, flexible and easy to maintain
- Award-winning design, Maximum quality with minimum dimensions
- With Mini 3000 Battery Handle and 5 of Both 2.5 and Ø 4mm

Mini 3000® LED Fiber Optic (F.O.) Otoscopes

- Modern otoscope with maintenance-free LED illumination twice as bright as a conventional Xenon Halogen instrument
- Maintenance-free, no need to ever exchange the LED
- LED Thermal Management for a consistent light output throughout the whole working life
- High-performance-LED: bright and absolutely homogeneous illumination with excellent colour rendering – colour temperature 4000 K, colour rendering index > 95, and > 90 rendering index of the colour red
- Exclusive Battery Performance Indicator: When the instrument is switched on, the maximum light intensity is shown then the light intensity is regulated down to the level that corresponds to the current charge status of the battery so you know when your batteries need changing
- Exclusive fade-out function reduces illumination intensity with battery level to let you know when to replace
- Operation time up to 10 hours
- With Mini 3000 Battery Handle and 5 of Both 2.5 and Ø 4mm

Item No.	Description	Unit	Price	2+	4+

GAMMA® C 3 Cardio Stethoscopes

- Exceptional acoustic performance, particularly in the cardiac frequency range
- Combined double chest-piece with two different frequency ranges
- Instant selection of a double membrane on one side or a conical acoustic head on the other
- High-performance double membrane, Ø 45mm gives ideal sound transmission and perfect skin contact for exceptional sound reproduction
- Two-in-one tube system for enhanced performance
- Very supple, yet kink-resistant with exceptional acoustic reproduction
- Includes ear olives (large/soft) and one pair of replacements (small/hard) for sound insulation

GAMMA® G7 Sphygmomanometer

HEM00009232

- Shockproof
- Latex free
- Pressure-proof manometer, ensures durability and reliability
- Micro-filter protects valve and manometer
- Large-diameter scale, Ø 56mm black-on-white scale is easy to read
- High quality indicator, precisely calibrated, durable and shock resistant
- Large insufflation bulb, 50% larger bulb volume for fast inflation of the cuff
- Exclusive air-release valve provides fine and precise air release rate adjustment, quick deflation, and extreme durability, a rubber-stop prevents valve-lock
- Upper housing made of aluminium alloy with a shock absorbing ring protecting indicator and glass
- Lower housing is moulded of shockproof plastic with shock absorbing, anti-slip coating
- Light alloy, adjustable spoon, for both right- or left-handed operation
- High quality, single-tube cuff with velcro fastener
- Washable

Item No.	Description	Unit	Price	2+	4+

Blood-Pressure Cuffs for Gamma® G7 Sphygmomanometer

HEM00009615

- Latex Free
- Fits the most widely-used sphygmomanometer
- High quality velcro cuffs made of wear-resistant material
- Physiologically tested
- Double-sewn
- Washable
- Index mark for exact positioning
- Clear indication of size and control mark for arm circumference
- Extra-thick
- Highly-flexible tube
- Proven reliability
- Absolute airtight system

Item No.	Description	Unit	Price	2+	3+

HL 1200 Examination Light

H0527078

- Ultra-slim head, provides more freedom of movement and unobstructed view for the examiner
- Built-in temperature filter: to avoid patient discomfort
- Exceeds all relevant quality standards guaranteed protection for the patient even if e.g. a bulb fails
- Special non-tip wheeled stand, resists tipping to improve safety in clinic and practice
- Long-life 12 V/20 W lamp, 4000 hours bulb life
- 90,000 Lux light output at 30cm, bright, white light

Item No.	Description	Unit	Price	2+	3+
H0527078	Black, with Stand	Each	\$2,033.15	\$1,982.30	\$1,931.50

HEINE EQUIPMENT (Continued)

Delta® 20 Plus Dermatoscope

- Immersion and polarisation, with different contact plates (contact plate N for immersion and contact plate P for polarisation) the examination can be matched with the respective lesion, because some characteristics are more visible when a liquid is used, others under polarised light
- 4 High performance LEDs produce an absolutely homogenous and bright illumination with excellent colour rendering (Colour Rendering Index CRI > 87)
- High-resolution optics with achromatic lens system, 10 to 16x magnification, distortion-free edge-to-edge, very large, highly detailed image
- Adjustable eyepiece, Individual focusing, range of correction -6 to +6 dpt
- Detailed compendium with photographic atlas included, simplifies the differential diagnosis of pigmented lesions

Resusci® Anne Basic and SkillGuide™

- Natural obstruction of the airway allows students to learn the important technique of opening the airway
- Head tilt/chin lift and jaw thrust allows students to correctly practice airway maneuvers necessary when resuscitating a real victim
- Occluded airway with hyperextension stresses proper head position
- Realistic resistance for chest compression allows the students to experience the amount of pressure needed to perform proper chest compressions in a real-life situation
- Anatomically correct landmarks and sternal notch allow the student to practice identification of all anatomical landmarks relevant to adult CPR
- Articulating arms, legs and head allow realistic weight and handling of an adult during obstructed airway maneuvers
- Carotid pulse simulation to realistically check for pulse
- Disposable non-rebreathing airways are suitable for use by more than one student during class and are quick and easy to change after each training session
- Optional SkillGuide™ CPR performance indicator provides immediate objective feedback on ventilation duration and volume, compression depth and hand position
- Removable/reusable faces allow each student to have their own mouth-to-mouth face and offers easy after-class cleaning and sanitation

Item No.	Description	Unit	Price	2+	3+

LMCR9X10M

Nonwoven Dressing

- Used for medium to heavily exuding wounds or as a secondary dressing
- Combination of an absorbent thick fleece layer and a soft nonwoven fabric sealed at each end
- Pre-cut into manageable pieces
- Nonwoven covered pads have soft end seals to prevent pressure areas from forming
- Equipped with water repellent layer on one side to reduce fluid contamination
- Sterile, for single use only
- Comes in a dispenser box for easy administration and storage

SUTURES

SUTURES

ETHICON MONOCRYL

- Indicated for use in general soft tissue approximation and/or ligation, but not for cardiovascular, neurological tissues, microsurgery or ophthalmic surgery use
- Absorbable and should not be used where extended approximation of tissue under stress is required, such as in fascia
- Progressive loss of tensile strength and eventual absorption of Monocryl suture occurs by means of hydrolysis
- Absorption begins as a loss of tensile strength followed by a loss of mass

PDS II

- PDS II (polydioxanone) monofilament synthetic absorbable suture is prepared from the polyester and poly (p-dioxanone)
- Indicated for use in soft tissue approximation, including use in paediatric cardiovascular tissue where growth is expected to occur and ophthalmic surgery
- Indicated in adult cardiovascular tissue, microsurgery and neural tissue
- Particularly useful where the combination of an absorbable suture and extended wound support (up to six weeks) is desirable

Surgical Stainless Steel

- Non-absorbable
- Composed of 316L stainless steel
- Available as a monofilament and multifilament suture
- Indicated for use in abdominal wound closure, hernia repair, sterna closure and orthopaedic procedures including cerclage and tendon repair

Prolene Polypropylene

- Indicated for use in general soft tissue approximating and/or ligation, including use in cardiovascular, ophthalmic and neurological procedures
- Used in over 100 million people worldwide and in 8 out of 10 CABG procedures
- High tensile strength and "stretch before break" breaking resistance engineered into every strand
- Unique extrusion process ensures uniform suture diameter, avoiding suture weak spots
- Available with a wide range of needles, including innovative technologies such as EVERPOINT™ Cardiovascular Needles
- Elicit a minimal inflammatory reaction in tissue which is followed by gradual encapsulation of the suture by fibrous connective tissue
- PROLENE Sutures are not absorbed, nor are they subject to degradation or weakening by the action of tissue enzymes
- As a monofilament, PROLENE sutures resist involvement in infection and have been successfully employed in contaminated and infected wounds to eliminate or minimise later sinus formation and suture extrusion
- Lack of adherence to the tissues has facilitated the use of PROLENE suture as a pull-out suture

ETHIBOND EXCEL™ POLYESTER

- Indicated for use in general soft tissue approximation and/or ligation, including use in cardiovascular, ophthalmic and neurological procedures
- Designed for superior performance
- Unique center core and braid construction of ETHIBOND EXCEL suture delivers superior strength for greater confidence
- Sixteen carriers and a polybutylate coating promote superior knot slide performance
- Gold standard in cardiovascular surgery
- Elicits a minimal acute inflammatory reaction in tissue, followed by a gradual encapsulation of the suture by fibrous connective tissue
- Implantation studies in animals show no meaningful decline in polyester suture strength over time
- Both the polyester fibre suture material and the polybutylate coating are pharmacologically inactive

SUTURES

ETHIBOND EXCEL™ POLYESTER (Continued)

- Indicated for use in general soft tissue approximation and/or ligation, including use in cardiovascular, ophthalmic and neurological procedures
- Designed for superior performance
- Unique center core and braid construction of ETHIBOND EXCEL suture delivers superior strength for greater confidence
- Sixteen carriers and a polybutylate coating promote superior knot slide performance
- Gold standard in cardiovascular surgery
- Elicits a minimal acute inflammatory reaction in tissue, followed by a gradual encapsulation of the suture by fibrous connective tissue
- Implantation studies in animals show no meaningful decline in polyester suture strength over time
- Both the polyester fibre suture material and the polybutylate coating are pharmacologically inactive

PERMA-HAND SILK

- Indicated for use in general soft tissue approximating and/or ligation, including use in cardiovascular, ophthalmic and neurological procedures
- Elicits an acute inflammatory reaction in tissue, which is followed by a gradual encapsulation of the suture by fibrous connective tissue
- Silk sutures are not absorbed, progressive degradation of the proteinaceous silk fiber in vivo may result in gradual loss of all of the suture's tensile strength over time
- Due to the gradual loss of tensile strength which may occur over prolonged periods in vivo, silk suture should not be used where permanent retention of tensile strength is required

Livingstone Sterile Surgical Blades are made of Top Grade European Carbon Steel from Sweden and Switzerland and are manufactured using the latest cutting edge grinding technology and equipment that gives exceptional sharpness and precision in parity to well known British and German brands. Livingstone Blades has made its reputation in the market as being competitively priced but still meeting and even exceeding the expectations of its current users.

Countless surgeons, pathologists, scientists and other healthcare and medical professionals/practitioners throughout Australia and overseas have made the wise switch to Livingstone brand.

GLOVES SELECTION GUIDE

Choosing gloves sizes is very important for your comfort and safety. Choosing the correct size for your hands ensures you get the best performance from your gloves.

According to Australian Standards EN420 glove-size is "the hand circumference measured around your palm from a point 20mm about the crotch of your thumb but excluding the thumb."

6"	7"	8"	9"	10"
EXTRA SMALL	SMALL	MEDIUM	LARGE	EXTRA LARGE

Colour Code Chart

GLOVES INFORMATION

COTTON

- Lightweight, comfortable and soft
- Glove liner
- Genuine cotton fibre
- Pair

POLYETHYLENE

- Lightweight, soft and smooth
- Food preparation, assembly, packaging and glove liner
- Polymer of ethylene
- Ambidextrous

CUT RESISTANT

- Unbeatable grip, highest tear, heat and abrasion resistance
- Handling sharp materials
- Latex crinkle dip
- Pair

POLYVINYL CHLORIDE

- Excellent wet and dry grip, resistant to oils and mechanical risk
- Automotive, manufacturing, maintenance and food processing
- PVC double dipped
- Pair

FINGER COTS

- General purpose protection
- Medical, dental, banks, assembly and manufacturing
- Natural latex or non-latex nitrile
- Ambidextrous

RIGGER

- Tough and durable
- General purpose handling, construction, automotive, mining, engineering and rigging
- Cow grain
- Pair

HEAT RESISTANT

- Seamless and strong
- Automotive, construction, aluminium and steel handling
- Knitted cotton lined with double face coating of nitrile
- Ambidextrous

RUBBER

- Excellent tensile strength and resistant to cleaning detergents
- General purpose and household cleaning
- Natural rubber latex
- Pair

LATEX

- Excellent tactile sensitivity, dexterity, grip and skin tight fit
- Healthcare, medical, dental and first aid
- Natural latex rubber
- Ambidextrous and beaded cuff

SYNTHETIC

- Excellent abrasion resistance and comfortable
- Assembly, automotive, delicate operations and painting
- Polyurethane (PU) coated palm with nylon liner
- Pair

NITRILE

- Chemical and pathogen resistant, strong, skin friendly and tight fit
- Laboratory, pathology, healthcare and medical
- Non-latex synthetic chemical resistant nitrile
- Ambidextrous and beaded cuff

VINYL

- Resistant to oil, fats and grease, skin friendly, smooth loose fit
- Kitchen, catering, food preparation, cleaning, personal care, janitorial and first aid
- Synthetic thermoplastic polymers
- Ambidextrous and beaded cuff

Livingstone Masks meet the Australian Standards AS4381. Its BFE/PFE and Delta P have been fully tested by world renowned Nelson Laboratory in USA. We are probably the only Australian-owned company that undertakes expensive voluntary testing in compliance to AS4381 for your protection and peace of mind.

Nelson Laboratories is a leading provider of full, life-cycle microbiology testing services for the medical device, pharmaceutical, and natural product industries.

LIVIUSCARE

NO WEARABLES

NO BUTTONS

NO CAMERAS

NO BATTERIES

AWARD WINNING FALL DETECTION

Set & Forget

The fall detection sensor is mounted on the wall or ceiling and powered by mains. There is no need to remember to wear devices or charge them again, giving you peace of mind.

Privacy Focused

With no cameras being used, your privacy and dignity is maintained making the system ideally suitable for bedrooms and bathrooms.

24/7 Monitoring & Alerts

The system provides continuous fall monitoring and will alert carers or loved ones by SMS and optional voice call to allow two-way communication with the device.

Ensures timely intervention to prevent long lie times even when a person is unresponsive or unable to call for help.

HOW TO CREATE AN ONLINE ACCOUNT?

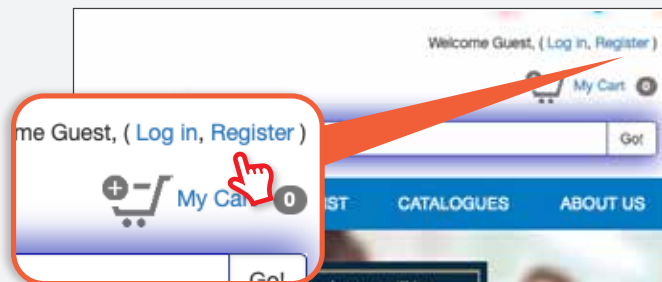

STEP 1:

Go to healthcare.livingstone.com.au

STEP 2:

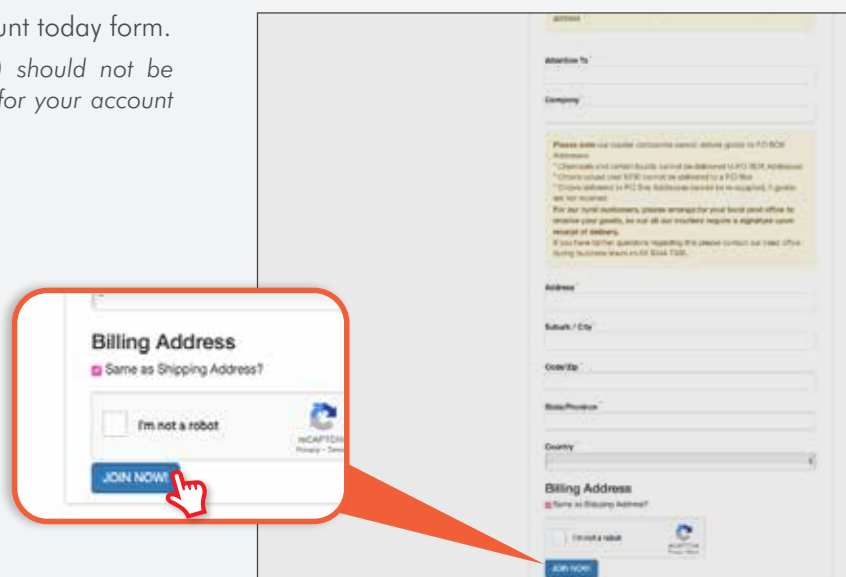

Click **Register** located at the upper right corner of the Livingstone Website

STEP 3:

Fill-out the Open an Account today form.
(Information with asterisk (*) should not be skipped, they are necessary for your account creation)

Click **Join Now!**

STEP 4:

An email notification that includes your Username and Password will be sent to your email address.

!
If you do not receive an email notification within 1 - 2 days, you may follow-up with us through chat, call or email. Contact details are available on the [Contact Us page](#).

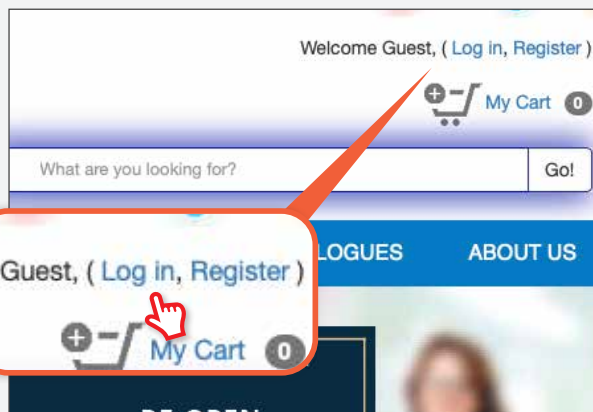

HOW TO LOG-IN OR SIGN IN?

STEP 1:

Go to healthcare.livingstone.com.au.

Click **Log in** located at the upper right corner of the Livingstone Website

STEP 2:

Type your email address and/or Username, and then your Password

Username and Password are case sensitive.
It should not have a space before or after

E-mail as User Name

TERMS AND CONDITIONS

- Gift must be specified at the time of order
- Only available for purchases at advertised prices from this promotion
- Only one gift per customer and customer from the same market as per this promotion
- Total order for gift should be GST exclusive
- This offer is valid only for Healthcare Professionals in Australia, limit is 1 gift per customer from this particular promotion
- Value spent should be equal to the value of 1 order, not the total of many orders
- If gift specified is out of stock, gift substitution with similar value will be offered

- If the total amount of order has become lower than the original value due to returning of goods, then customer has the following options:
 - Add MORE items to make up for the returned value (to keep the original order value above the gift eligibility value) from the same promotion and at the same promotion prices
 - Customer will have to pay full price of the gift's value
 - Return the gift in its original state

Please quote Promo No. **"DR009C2112"**
for promotional prices

Hi Partners,

It is our foremost desire to offer you the best products and service you truly deserve. In line with this, we would like to hear from you. Email healthcare@livingstone.com.au for your comments on this catalogue. We would also appreciate knowing what you want to see on our future promo materials. Feel free to contact us! Call **1300 780 078** and let's work together!

Livingstone International takes an active role in proudly supporting organisations that positively impact lives and communities throughout Australia.

Livingstone is proud to announce our partnership with **UNICEF Australia**. Through this partnership, we are committed to providing funds to ensure that vulnerable children in Australia are given the best opportunity in life to thrive.

After some evaluation, UNICEF Australia and Livingstone carefully selected the perfect program that reflects our vision of supporting Indigenous children and most disadvantaged communities in Australia. The program selected is the **UNICEF Australia Early Childhood Development Program** that supports **young Aboriginal children** living in rural areas of Australia that are more likely to face barriers in accessing early childhood education and health care programs.

The UNICEF Australia Early Childhood Development Program provides support for communities and parents to provide the nurturing care that children under the age of five need - across the critical domains of health, nutrition, stimulation and protection by supporting a locally developed program that aims to:

- 1) **Improve health outcomes for children under the age of five, their families and communities** through promoting physical activity and healthy eating habits, supporting social and emotional wellbeing and helping to reduce incidents of communicable diseases.
- 2) **Deliver an innovative early learning model** to help children become confident learners, effective communicators and feel connected to their family, community, culture and Country.
- 3) **Support local employment and training for community women**, with a strong focus on sustainability by building local staff capacity through mentoring, skills development and formal qualifications.

Both Livingstone and UNICEF Australia's core visions and commitments are aligned to deliver **life changing support** to disadvantaged children and their communities in rural and remote locations to help ensure that every child has a fair chance to realise their full potential.

UNICEF does not endorse any company, brand, product or service.

Livingstone is committed to providing access, resources or funds that are readily available to the community. With this partnership, it allows **St. George Foundation** to fund programs run by charities who are truly close to the families they help but who don't attract funding from government and aren't big enough to generate significant fundraising income.

Since 1990, St. George Foundation has partnered with over 800 community organisations across Australia and invested more than \$23 million to improve the lives of Australian kids who are **physically, socially or economically disadvantaged**.

Livingstone and St. George Foundation core visions and commitments are aligned to deliver high quality **support to disadvantaged Australian children**.

Livingstone proudly supports **Accelerate**, an Indigenous Injury Management company, that is Supply Nation Certified. Accelerate offers guidance and support to Australians affected by workplace related injuries and ensures a safe recovery and return back to work as efficiently as possible.

With this partnership and access to funding, resources and consumables, it allows Accelerate to fund their initiatives of providing **education, employment and support** for Indigenous communities.

Livingstone and Accelerate core visions and commitments are aligned to deliver high quality support to **Indigenous communities** throughout Australia.

For full Terms and Conditions please visit www.livingstone.com.au

Terms and Methods of Payment

1. Payment by Mastercard, Visa or cheque accepted.
2. The cost of recovering any default payments will be borne by the customer.
3. Goods remain the property of Livingstone International Pty Ltd until full payment is received.

Prices, Availability and Delivery

1. PRICES – Prices are quoted in Australian Dollars. Catalogue prices are correct at time of printing. Livingstone International may pass on price increases during the period of the catalogue due to currency exchange variations and manufacturer price increases. Consumers will be advised of any such changes on www.livingstone.com.au. Please check prior to placing order.

2. AVAILABILITY – Any unavailable items are automatically placed on backorder. We may substitute the item with an alternative. If you wish to cancel products on backorder, please advise customer service on 1300 556 556.

3. DELIVERY – Customers specifying their own courier must supply the courier's details and their account number with order.

4. RETURNED GOODS – After 7 days of receipt of goods, in such cases where goods are returned through no fault of Livingstone International, restocking fees will be charged at 10% of total order price or \$20 minimum.

Disclaimer: Whilst the utmost care has been taken in the preparation of this product catalogue, the final responsibility for information about individual benefits, specifications or capabilities for products rests with the manufacturer. Livingstone International accepts no responsibility for any changes or amendments to product specifications in this catalogue. The use of such information and the conditions in which these products are used are beyond the control of Livingstone International. It is the obligation of the user to determine the correct selection and use of these products. Pictures shown in this catalogue are meant for illustrative purposes only. Product packaging may vary from photographs in catalogue. Consumers will be advised on www.livingstone.com.au of any catalogue price changes due to errors, omissions, currency exchange variations or significant price increase imposed by manufacturers. Please check prior to placing order.

Copyright: The design and artwork of this catalogue are subject to copyright protection in part and/or in whole.

Privacy Act: "Livingstone is committed to protecting your privacy; if you do not wish to receive information from Livingstone, please email: healthcare@livingstone.com.au and type "remove my details" in the subject header. Please include your mail code and contact details (name and company) in the email.

Placing Orders

1. All orders are to include item code, product description, quantity, price and freight and handling charges (for own freight company/ carrier, see below for details).
2. Orders may be placed by phone, fax, mail, or e-mail. Please quote your order number and payment details.
3. Detailed conditions of trade appear on the reverse side of invoice.

Terms and Methods of Payment

1. Strictly 30 days from date of statement for account customers.
2. All new customers must complete an account application form.
3. For non-account customers, payment is required with order and can be paid by cheque, Mastercard, Visa Card, American Express or direct deposit into our nominated account or EFTPOS.
4. The cost of recovering any default of payments will be borne by the customer. Court in NSW has sole jurisdiction.
5. The goods remain the property of Livingstone International until full payment is received.
6. Insurance is always the responsibility of the export customers; we do not insure export consignments.

Prices

1. Reduced prices in this catalogue are applicable for First Time Users.
2. Standing orders, for 12 months or longer are negotiable, subject to minimum quantity requirements.
3. Prices are negotiable for bulk requirements. Please contact our sales department.
4. Prices are quoted in Australian dollars.
5. Catalogue prices are correct at time of printing. Livingstone International may pass on price increases during the period of the catalogue due to currency exchange variances and manufacturer price increases. Customers will be advised of any such changes on www.livingstone.com.au. Please check prior to placing order.
6. We reserve the right to rectify prices quoted in the invoice, if found to be incorrect.

Availability and Brands

1. We endeavour to stock all items displayed in this catalogue at all times. However, due to unforeseen and/or unexpected circumstances there is always a possibility that we may temporarily run out of stock of a particular stock item, in which case we will exercise our discretion and supply an alternative brand of comparable quality to save you the inconvenience of backordering.
2. If back ordered item is no longer required, please advise our customer service.

Delivery

If you prefer to nominate your own carrier, please supply in writing your own carrier's name and account number, otherwise the following freight and insurance charges will apply:

Capital Cities (Metropolitan)		Country Area outside NSW	Far North Queensland
(Sydney, Brisbane, Melbourne, Adelaide, Canberra, Perth)	Hobart and Darwin		
\$17.68 per order	\$20.00 per order	\$25.00 per order	\$30.00 per order

N.B. For bulky or heavy consignments which exceed the above, extra freight will be invoiced at cost. (P.O.A).

Goods Returned

1. Prior Approval must be obtained from our Customer Service and Accounts Depts. on 1300 556 556 or 1300 722 722 before returning goods.
2. A Return Authority (R.A.) Number will be sent to you once the return is authorised. This number is to be included with the goods, together with a copy of our delivery docket/invoice and any other relevant correspondence.
3. Goods returned must be in their original packaging.
4. Any claim for incorrect shipments, faulty or damaged goods on delivery, must be made within five working days of receipt of goods.
5. Goods will be accepted for credit or replacement at the sole discretion of the management of Livingstone International.

Collection of Goods

1. Livingstone International will arrange for the goods to be collected, unless otherwise agreed in writing.
2. If the goods have been returned without any written authorisation by Livingstone International, the company will not be responsible for any freight charges (for any reason).

Claims for Breakages

Claims for breakages must be referred to your insurers. We do not insure export consignments.

10% Restocking Fee

Goods returned due to orders placed incorrectly will be subject to a 10% restocking fee with a minimum fee of \$20.00.

Issue of Credit

Livingstone International reserves the right to refuse or delay credit or replacement unless the procedures for the return of goods have been followed.
