About this Guide

Objectives

This document describes how to install the software for Infor LN Dynamic Form Editor. No specific operating system knowledge is required to use this document. However, understanding the contents requires a basic understanding of the Dynamic Form Editor in general.

Contacting Infor

If you have questions about Infor products, go to the Infor Xtreme Support portal at <http://www.infor.com/inforxtreme>.

If we update this document after the product release, we will post the new version on this Web site. We recommend that you check this Web site periodically for updated documentation.

If you have comments about Infor documentation, contact documentation@infor.com.

An important part of the user interface of a session is defined in its form.

Two form types exist:

- **Static**
You can create or modify static forms with the Static Form Editor in Enterprise Server.
- **Dynamic**
You can only create or modify dynamic forms with the Dynamic Form Editor. You must install the Dynamic Form Editor on your desktop PC.

Prerequisites

Before you can install the Dynamic Form Editor, you must install Infor LN BW.

Installing the Dynamic Form Editor

2

To install the Dynamic Form Editor:

- 1 Insert the Infor Enterprise Server medium into your system.
- 2 Change directories to `/Clients/Infor LN Dynamic Form Editor`.
- 3 Double-click the `DFESetup.exe` file. The Welcome dialog box is displayed.
- 4 Click **Next**. The Select Environment dialog box is displayed.
- 5 Select the environment for which you want to use the Dynamic Form Editor and click **Next**.
- 6 Click **Finish**. When the installation has completed successfully, the setup program is closed automatically.

To use the Dynamic Form Editor, Infor LN must be installed and running.
