

Quick Start Guide

This guide gets you started with a base installation for IBM® Tivoli® Federated Identity Manager.

National language version: To obtain the Quick Start Guide in other languages, access the PDF files on the Quick Start CD.

Product overview

IBM® Tivoli® Federated Identity Manager provides the necessary framework to support standards-based, federated identity management between enterprises that have established a trust relationship. Tivoli Federated Identity Manager provides capabilities in the areas of federated single sign-on, Web services security management, and identity management for service-oriented architecture (SOA) components across the enterprise.

The Tivoli Federated Identity Manager, version 6.2.2 is available in the following packages:

- Tivoli Federated Identity Manager

Includes Tivoli Federated Identity Manager Business Gateway and Tivoli Access Manager for e-business software. Users can create a federation for multiple partner connections using this package.

- Tivoli Federated Identity Manager Business Gateway

Includes only the Tivoli Federated Identity Manager software. Users can create a federation for multiple partner connections using this package. This package is also useful for organizations that already have Tivoli Access Manager for e-business in their computing environment.

The Tivoli Federated Identity Manager Business Gateway package has been designed to work with other access management products.

The Tivoli Federated Identity Manager Business Gateway documentation is a subset of the Tivoli Federated Identity Manager 6.2.2 documentation.

- Tivoli Federated Identity Manager Business Gateway for Single Partner

Includes only the Tivoli Federated Identity Manager software which can create a federation for a single partner connection. This package is also useful for organizations that already have Tivoli Access Manager for e-business in their computing environment.

The Tivoli Federated Identity Manager Business Gateway for Single Partner package has been designed to work with other access management products.

The Tivoli Federated Identity Manager Business Gateway for Single Partner documentation is a subset of the Tivoli Federated Identity Manager 6.2.2 documentation.

1 Step 1: Access your software and documentation

If you download your product from Passport Advantage®, follow the instructions in the download document available at <http://www.ibm.com/support/docview.wss?uid=swg24031050>.

This product offering includes:

- Tivoli Federated Identity Manager
- WebSphere® Application Server Network Deployment
- Tivoli Access Manager for e-business
- Tivoli Directory Integrator

For complete documentation, including installation instructions, see the IBM Tivoli Federated Identity Manager Information Center at http://publib.boulder.ibm.com/infocenter/tivihelp/v2r1/topic/com.ibm.tivoli.fim.doc_6.2.2/ic/ic-homepage.html.

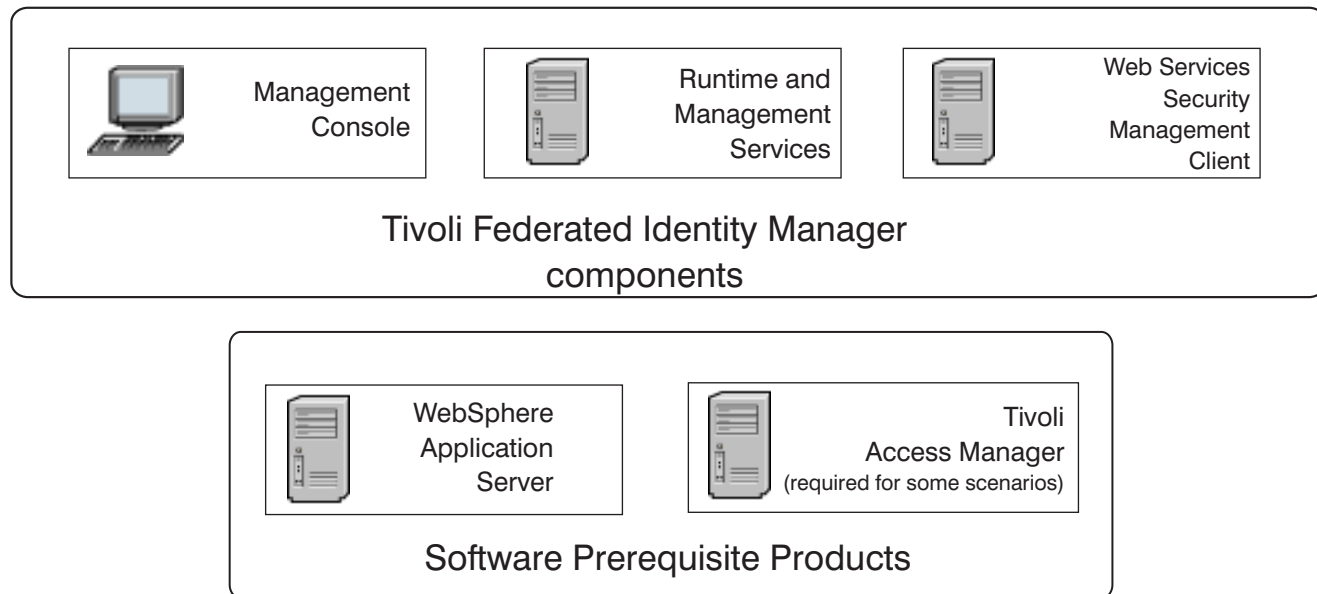

2 Step 2: Evaluate your hardware and system configuration

See information about the system requirements and supported operating systems at the “Hardware and Software Requirements” topic in the Release information section of the Tivoli Federated Identity Manager Information Center at http://publib.boulder.ibm.com/infocenter/tivihelp/v2r1/topic/com.ibm.tivoli.fim.doc_6.2.2/ic/ic-homepage.html.

3 Step 3: Review the base architecture

The IBM Tivoli Federated Identity Manager installation process involves several products and components as shown in the diagram:

4 Step 4: Install Tivoli Access Manager for e-business

Install Tivoli Access Manager for e-business, as required for some scenarios. For assistance, see the IBM Tivoli Federated Identity Manager Installation Guide.

5 Step 5: Install WebSphere Application Server

Install WebSphere Application Server Network Deployment. For assistance, see the IBM Tivoli Federated Identity Manager Installation Guide.

6 Step 6: Install Tivoli Federated Identity Manager

Install the Tivoli Federated Identity Manager components:

- Runtime and management services
- Management console
- Web services security management client

For information about installing each component, see the IBM Tivoli Federated Identity Manager Installation Guide.
