

Composite Application Manager for Applications

Version 7.2

Quick Start Guide

Use this guide to get started with a typical installation of IBM Tivoli Composite Application Manager for Applications.

Product overview

The IBM® Tivoli® Composite Application Manager (ITCAM) for Applications Version 7.2 offering is a package of component products that monitor and manage systems, application servers, and database servers; track availability and performance; and provide reports, in a browser-based graphical user interface, to track trends and troubleshoot problems. The user interface also offers expert advice on alerts and corrective actions. This offering is compatible with IBM Tivoli Monitoring V6.2.3 Fix Pack 1. Portions of this offering are also compatible with IBM Tivoli Monitoring V6.2.2 Fix Pack 2 or later.

1 Step 1: Access your software and documentation

This offering includes the following software:

- IBM Tivoli Composite Application Manager Agent for DB2® V7.1
- IBM Tivoli Composite Application Manager Agent for HTTP Servers V7.1
- IBM Tivoli Composite Application Manager Agent for J2EE V7.1
- IBM Tivoli Composite Application Manager Agent for Lotus® Domino® V6.2.1
- IBM Tivoli Composite Application Manager Agent for Lotus Sametime® V6.2.4
- IBM Tivoli Composite Application Manager Agent for PeopleSoft Enterprise Application Domain V7.1
- IBM Tivoli Composite Application Manager Agent for PeopleSoft Enterprise Process Scheduler V7.1
- IBM Tivoli Composite Application Manager Agent for SAP Applications V7.1
- IBM Tivoli Composite Application Manager Agent for Siebel CRM V7.1
- IBM Tivoli Composite Application Manager for SOA V7.2 and V7.1.1*
- IBM Tivoli Composite Application Manager Agent for Sybase ASE V6.2
- IBM Tivoli Composite Application Manager Agent for WebSphere® Applications V7.2 and V7.1*
- IBM Tivoli Composite Application Manager Agent for WebSphere DataPower Appliance V7.1
- IBM Tivoli Composite Application Manager Agent for WebSphere Message Broker V7.1 and V7.0.1 Fix Pack 2*
- IBM Tivoli Composite Application Manager Agent for WebSphere MQ V7.1 and V7.0.1 Fix Pack 2*
- IBM Tivoli Composite Application Manager Configuration Agent for WebSphere MQ V7.1 and V7.0.1 Fix Pack 2*
- IBM Tivoli Composite Application Manager Agent for WebSphere MQ File Transfer Edition V7.0.1
- IBM Tivoli Composite Application Manager Extended Agent for Oracle Database V6.3.1 Fix Pack 1
- IBM Tivoli Monitoring V6.2.3 Fix Pack 1
- IBM Tivoli Monitoring for Virtual Environments Agent for NetApp Storage Version 7.1
- IBM Tivoli Monitoring for Virtual Environments Agent for VMware VI V7.1

* Multiple versions of some agents are included for compatibility purposes. For information on which component products to download and install, see the *IBM Tivoli Composite Application Manager for Applications: Offering Guide* in the information center.

For complete documentation about the component products, including installation instructions, see the product-specific information in the information center (http://publib.boulder.ibm.com/infocenter/tivihelp/v24r1/topic/com.ibm.itcama.doc_7.2/welcome_itcamfapps72.html).

If you download the component products from Passport Advantage®, follow the instructions in the download document (http://publib.boulder.ibm.com/infocenter/tivihelp/v24r1/topic/com.ibm.itcama.doc_7.2/downloaddoc/DownloadDocument_itcamforapplications72.html).

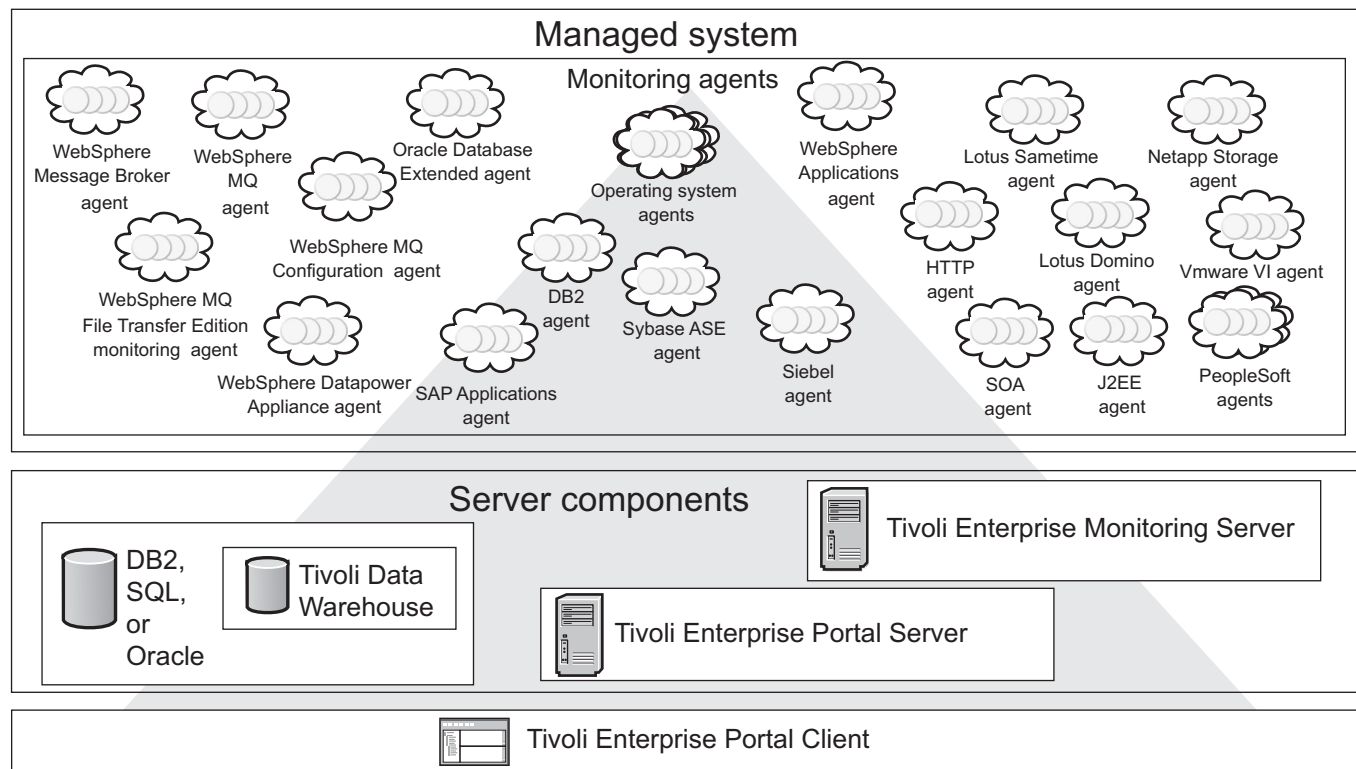

2 Step 2: Evaluate your hardware and system configuration

For information about hardware and software requirements, see the *IBM Tivoli Composite Application Manager for Applications: Offering Guide*.

3 Step 3: Review the components to be installed

The following diagram illustrates the components to be installed:

4 Step 4: Install prerequisite software

Install IBM Tivoli Monitoring 6.2.3 Fix Pack 1 if you are installing this product for the first time. Alternatively, upgrade to IBM Tivoli Monitoring 6.2.2 Fix Pack 2 or later.

See the following Tivoli Monitoring installation information in the information center (http://publib.boulder.ibm.com/infocenter/tivihelp/v24r1/topic/com.ibm.itcama.doc_7.2/welcome_itcamfapps72.html).

- For guidance in planning your IBM Tivoli Monitoring environment, see the *IBM Tivoli Monitoring: Deployment Guide*.
- For complete installation instructions, see the *IBM Tivoli Monitoring: Installation and Setup Guide*.

5 Step 5: Install the software

For an overview of the installation and configuration process, and to determine whether a component is compatible with previous versions of IBM Tivoli Monitoring, see the *IBM Tivoli Composite Application Manager for Applications: Offering Guide* in the information center (http://publib.boulder.ibm.com/infocenter/tivihelp/v24r1/topic/com.ibm.itcama.doc_7.2/welcome_itcamfapps72.html). For information about system requirements, see the Software product compatibility reports (<http://publib.boulder.ibm.com/infocenter/prodguid/v1r0/clarity/index.html>). Search for the Composite Application Manager for Applications product.
