

IBM® InfoSphere® Optim™ Data Growth Solution for JD Edwards

FixPack ID : DG-OJDE-09.01.00-FP04

Product : IBM® InfoSphere® Optim™ Data Growth Solution for JD Edwards

Release : 9.1.0

Date : October 18, 2013

Description : Cumulative FixPack #04

Notes:

1. This Fix Pack is available for all Optim JDE supported OS platforms.
2. Obtain the Fix Pack install package(s) for the OS platform(s) where you run Optim JDE
3. Refer to the FixList_OptimJDE_DG.pdf file for a list of maintenance updates included in this Fix Pack.
4. Download the Fix Pack appropriate for your platform, and unzip the file. You will see the following folders:
 - conf
 - Defs
 - docs
 - license
 - NAA
 - version.xml
5. Refer to the 'Installing Optim Data Growth Solution', 'Importing the Optim Definitions and Scripts for JD Edwards' and 'Viewing Archived EnterpriseOne Data' sections in *Install_Optim_JDE_DG* guide and refer 'Archiving and Restoring data using Optim Data Growth Solution' section in *User_Optim_JDE_DG* guide, found in the docs folder, for next steps.
6. Note for users who are upgrading:
 - 1) Take a backup by exporting to an OEF all the objects from current working Optim directory before applying the Fix Pack.
 - 2) To restore (via load/insert) an Archive File that was created before applying the Fix Pack, use the corresponding table map. The Fix Pack may include changes to table maps (that is, added or deleted tables) that will affect Insert processing.
7. If you have any questions and/or problems with this Fix Pack, please contact IBM Optim Technical Support.
