Charge

Charging the shaver

Perform the following steps to charge the shaver if it seems to lose the speed.

- 1 Turn off the shaver.
 - Your shaver cannot be charged when it is turned on.
- **2** Draw out the plug completely until it clicks.
 - Please always keep your hands dry.
- **3** Plug in the appliance to the power outlet. Now, the shaver begins charging.
 - Do not touch the plug pins with your fingers when plugging in the plug, in case of electric shock.
 - Charging is completed after approx.
 8 hours.
- ▲ Disconnect the plug after charging.
 - Adequate ambient temperature for using is 0-35 °C.
 If you use the appliance in temperature outside of the recommended range, it may stop functioning.
 - When charging the shaver for the first time or when it has not been used for more than 6 months, please charge it for 16 hours before using (to activate the batteries).
- **5** Push back the plug to fold while pressing the plug lock release button.

Shave

Using the shaver

- 1 Depress the switch lock button and slide the 0/1 switch upwards.
- **2** Hold the shaver as illustrated above and shave.
- Adequate ambient temperature for using is 0-35 °C.
 If you use the appliance in temperature outside of the recommended range, it may stop functioning.

Start out shaving by applying gentle pressure to your face. Stretch your skin with your free hand and move the shaver back and forth in the direction of your beard. You may gently increase the amount of pressure as your skin becomes accustomed to this shaver. Applying excessive pressure does not provide a closer shave.

Clean

Cleaning with the brush

Clean the inner blade using the short brush by moving it in direction (A). Clean the outer foil and the shaver body using the long brush.

- Do not move the short brush in direction (B) as it will damage the inner blade and affect their sharpness.
- Do not use the short brush to clean the outer foil.

Replacing the outer foil and the inner blade

Outer foil	once every year
Inner blade	once every two years

► Replacing the outer foil

1. Press the foil frame release button and take out the outer foil section as illustrated.

9
