

ColorPage-Slim 1200

Super Slim 1,200dpi Flatbed Scanner

The new Genius **ColorPage-Slim 1200** is a high quality scanner in an outstanding slim design and is powered by your USB port or hub. It is small but can tackle the big jobs. With its astounding **1,200 x 2,400 dpi** resolution and **48-bit** superior color, you can get high quality images just like the originals. Five easy buttons allow you to do lots of different scan jobs easily; and it comes with a space-saving stand when you're not using the scanner.

The **ColorPage-Slim 1200** package includes fantastic software to make scanning easier and more interesting.

The **ColorPage-Slim 1200** scanner use CIS (Contact Image Sensor) technology, which allows for a very slim shape without a power adapter. It's suited for cramped desktops and is easy to carry. The super slim design, **just 3.3 centimeter high** not only allows users to scan and store the scanner on its side to save space, but also lets you save on shipping charges.

Super Slim 1,200dpi Flatbed Scanner

◆ Outstanding software programs included:

	<p>Newsoft Presto! PageManager</p> <p>Award-winning photo / image management software supports over 100 popular applications, including color OCR and full-text indexing functions. You can create slide shows, screen savers or wallpaper with your own photos. Includes Presto! Wrapper that automatically packages photos you can share by e-mail.</p>
	<p>Newsoft Mr. Photo</p> <p>Web photo software makes your photos come alive! You can create personalized greeting cards, postcards, calendars and more. Build your own keepsake photo albums and images compositions. Share your photo masterpieces with friends and family. Send photos, slide shows, and albums by e-mail. Print photos, stickers, catalogs and mail to all your friends.</p>
	<p>NewSoft ImageFolio Image editing software</p> <p>A powerful one touch, multi-layer image editing program with the most popular functions. Edit all kinds of images to your liking; plugs directly into PhotoShop.</p>
	<p>Bridgewell Page abc</p> <p>Web page design software helps you create a homepage all by yourself. You do not need to spend money to have someone else do it for you. You can put photos, motion graphics, text and voice into your homepage. Lots of different styles and decorations are available. You can also locate your website with ease. Plus, this software includes 8MB of free disk space.</p>
	<p>ABBYY FineReader 5.0 sprint OCR software for recognition in 176 languages</p> <p>This powerful OCR engine supports color OCR and full-text indexing, in addition to black-and-white, and grayscale. Retains tables, multiple columns, page layout and directly exports to Word, Excel, WordPerfect, and WordPro. Now you're able to scan documents and convert them into editable text, with the format, layout, and graphics in the same place as the original.</p> <p><i>This product contains ABBYY FineReader 5.0 Sprint OCR.</i> <i>ABBYY® OCR© 1993-2003 by ABBYY software House.</i> <i>All rights reserved.</i> <i>ABBYY, FineReader are trademarks of ABBYY Software House.</i></p>

Specifications:

- Scanning method: Single pass scanning
- Interface: USB port
- Document size: A4 / Letter
- Scanning mode: Color 48bit, grayscale 8 bit, B/W 1 bit
- Resolution: Optical resolution 1,200 x 2,400 dpi; Interpolation 24,000 dpi
- Dimensions: 378 mm (L) x 257 mm (W) x 33 mm (H)

System Requirements:

- IBM PC Pentium II compatible or higher
 - Minimum 64MB RAM
 - Minimum 250MB hard disk space
 - Available USB port
 - Microsoft Windows XP, Me, 2000, and 98
- CD-ROM drive for software installation

Important: Due to the large quantity of image data that is transferred to the PC by the scanner while scanning or editing images, higher requirements are placed on the PC editing the images. The system requirements are only a guideline, as in general the faster the computer (processor, motherboard, hard disk, RAM, video graphic card), the better the results.
