headrest frame

Headrest frame

Use bracket 2 for headrest frame style

Remove the bracket 2 from the monitor and install bracket 1 as folloes diagram for stand style use

Bracket 1
for mounting stand style purpose

Bracket 2
for headrest frame style use purpose

Use bracket 1 for stand sytle

Step of install headrest frame

Setup work

Remove the headrest and set it in an uncluttered work area. Take the appropriate precautions to ensure that it is not damaged during the installation.

Measurements

Push on the headliner with your fingers to make sure there are no obstructions that would hinder the installation. Use the paper template to mark the area to be cut.

Cut the headrest

Using an adjustable-depth blade, start your cut 1/4 inch inside one corner and cut diagonally across, stopping 1/4 inch in from the other corner, repeat the procedure for the other two corners.

Remove form & obstructions

Carefully peel back the material. Set the adjustable blade to one inch depth and cut around the edges of the hole, staying 1/4 inch inside the edge. Pull up one corner or the foam and use the blade to cut underneath. Remove small section at a time, using the pull up and cut method for uniform depth. Use a dremel or other appropriate tool to remove other obstructions. Insert the monitor to measure the fit and make adjustment if necessary

Route the cable through the headrest

Run the supplied cable through the opening and out the bottom of the headrest. If possible, conceal the wires using a shaft covering. Connect the power, ground and video leads to test the MONITOR.

Before connecting the monitor, pull the connecting cable assembly through the headrest frame as shown in diagram. Place headrest frame into the opening and secure with correct fasteners.

Install the headrest frame

Pull the connecting cable through the center of the frame as shown in diagram, then secure with correct fasteners

Preparing to insert monitor

Adjust the bracket pin to 90°, run the cable through the frame as diagram shown and connect it.

Inert the monitor

Push to insert the monitor to the headrest frame

Swivel an angle

Push up or down to adjust a suitable angle.

Detachable

Insert the key between the monitor and headrest frame gap and pull out to remove the monitor from the headrest frame.
