Mi Smart Space Heater S User Manual

Safety Instructions

Read this manual carefully before use, and retain it for future reference.

- This heater is intended for indoor use only. During use, stably place the heater on a level surface, and do not tilt or tip it over.
- Make sure the feet are correctly installed before using the heater.
- Please plug the heater into a 230V AC power outlet.
- The used power outlet must be grounded and have a rated current of at least 10 A so as to avoid accidents.
- Do not cover the heater or its power cord so as to avoid overheating.
- Do not touch the heater with wet hands.

- During or right after its use, do not touch the heater so as to avoid getting scalded.
- To prevent the risk of overheating or fire, never use an extension cord.
- Only use the heater in a well-ventilated environment. Do not insert foreign objects into the air inlets and outlets of the heater.
- Do not insert any wires or other foreign objects into any opening of the heater so as to avoid electric shocks. Do not place or use the heater in garages or workshops, nor near gasoline, paint, or other flammable and explosive materials.
- This electric heater is equipped with a drying rack that should only be used for drying laundry.

- Do not place laundry directly onto the heater. Once it is dry, please remove laundry from the drying rack as soon as possible to prevent any damage or danger.
- Do not use the heater if its power cord or the power plug is damaged or broken. In case any damages occur, it must be replaced with a genuine one from the manufacturer or the after-sales service department to avoid safety hazards.
- Do not use this heater in the immediate surroundings of a bath, a shower or a swimming pool.
- Do not use this heater if it has been dropped.
- Do not use if there are visible signs of damage to the heater.

- Do not place the heater directly in a bathtub or other water container.
- Do not place the heater directly below the socket outlet.
  This is a high-power heating product.
- Check whether the plug properly fits into the power outlet when using this heater for the first time.
  Checking method: Insert the power plug into the power outlet, then select the highest constant temperature. Turn off and unplug the heater after about 30 minutes to check whether the prongs of the power plug are too hot (temperatures in excess of 55°C). If so, try a different power outlet so as to avoid the risk of a molten power plug or fire due to overheating.

- During using this heater, do not share the same electrical circuit with other devices to avoid overloading the circuit.
- If the heater is not going to be used for an extended period of time, please turn off the on/off switch and unplug the power cord.
- If the heater stops functioning, contact the after-sales service department. Never attempt to disassemble the heater by yourself.
- This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.

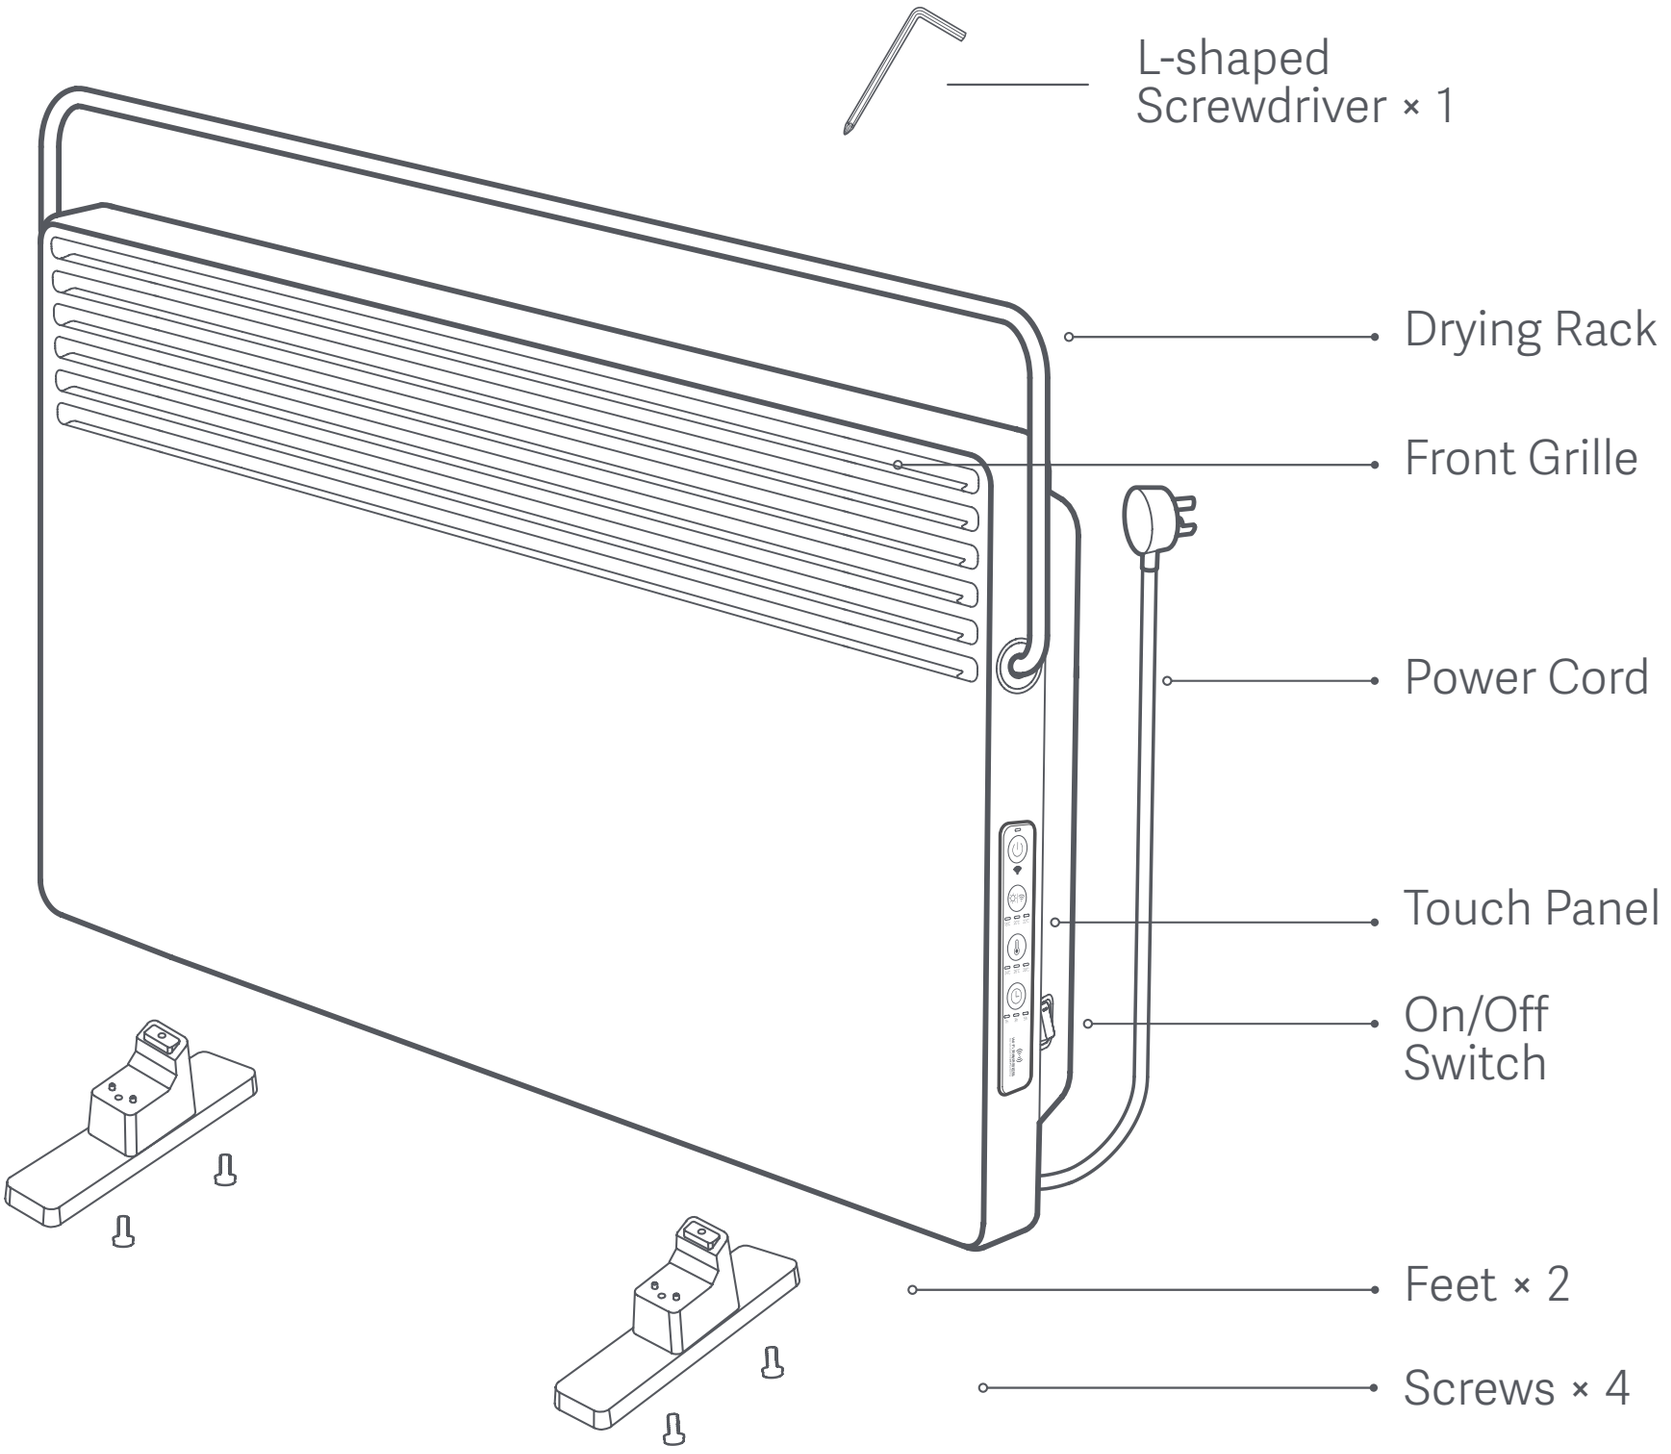

- Children shall not play with the appliance.
- Children of less than 3 years should be kept away unless continuously supervised.
- Children aged from 3 years and less than 8 years shall only switch on/off the appliance provided that it has been placed or installed in its intended normal operating position and they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children aged from 3 years and less than 8 years shall not plug in, regulate and clean the appliance or perform user maintenance.
- Cleaning and user maintenance shall not be made by children without supervision.

CAUTION
Some parts of this product can become very hot and cause burns.
Particular attention has to be given where children and vulnerable people are present.

Warning

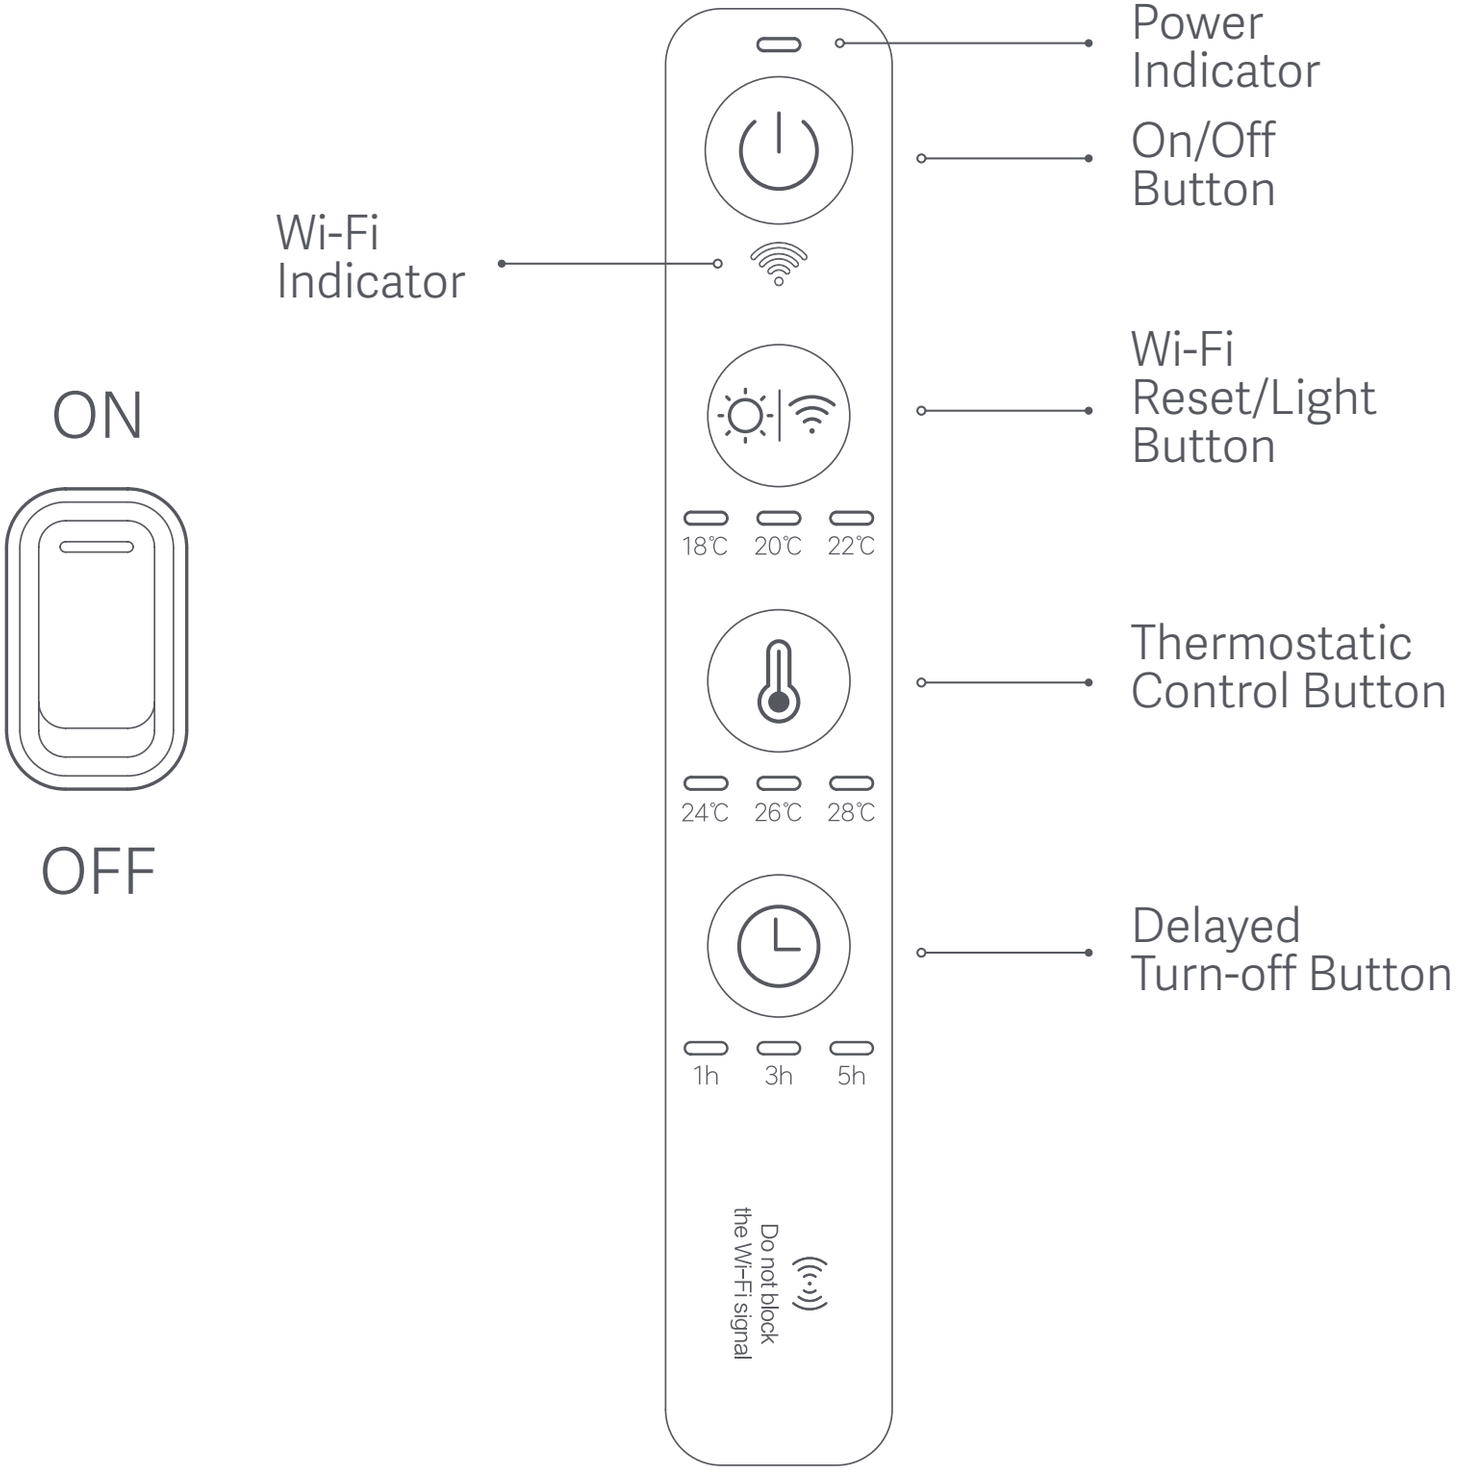

- ⚠ Do not immerse the heater in water.
- ⚠ Do not spill any water into the heater.
- ⚠ Do not use any detergent to wipe the heater clean.
- ⚠ In order to avoid overheating, do not cover the heater.
- ⚠ Do not use this heater in small rooms when they are occupied by persons not capable of leaving the room on their own, unless constant supervision is provided.
- ⚠ To reduce the risk of fire, keep textiles, curtains, or any other flammable material a minimum distance of 1 m from the air outlet.
- ⚠ Be careful of the high temperature. Do not use the drying rack to hang heavy items, nor use it as a handle.

Product Overview

Product Overview

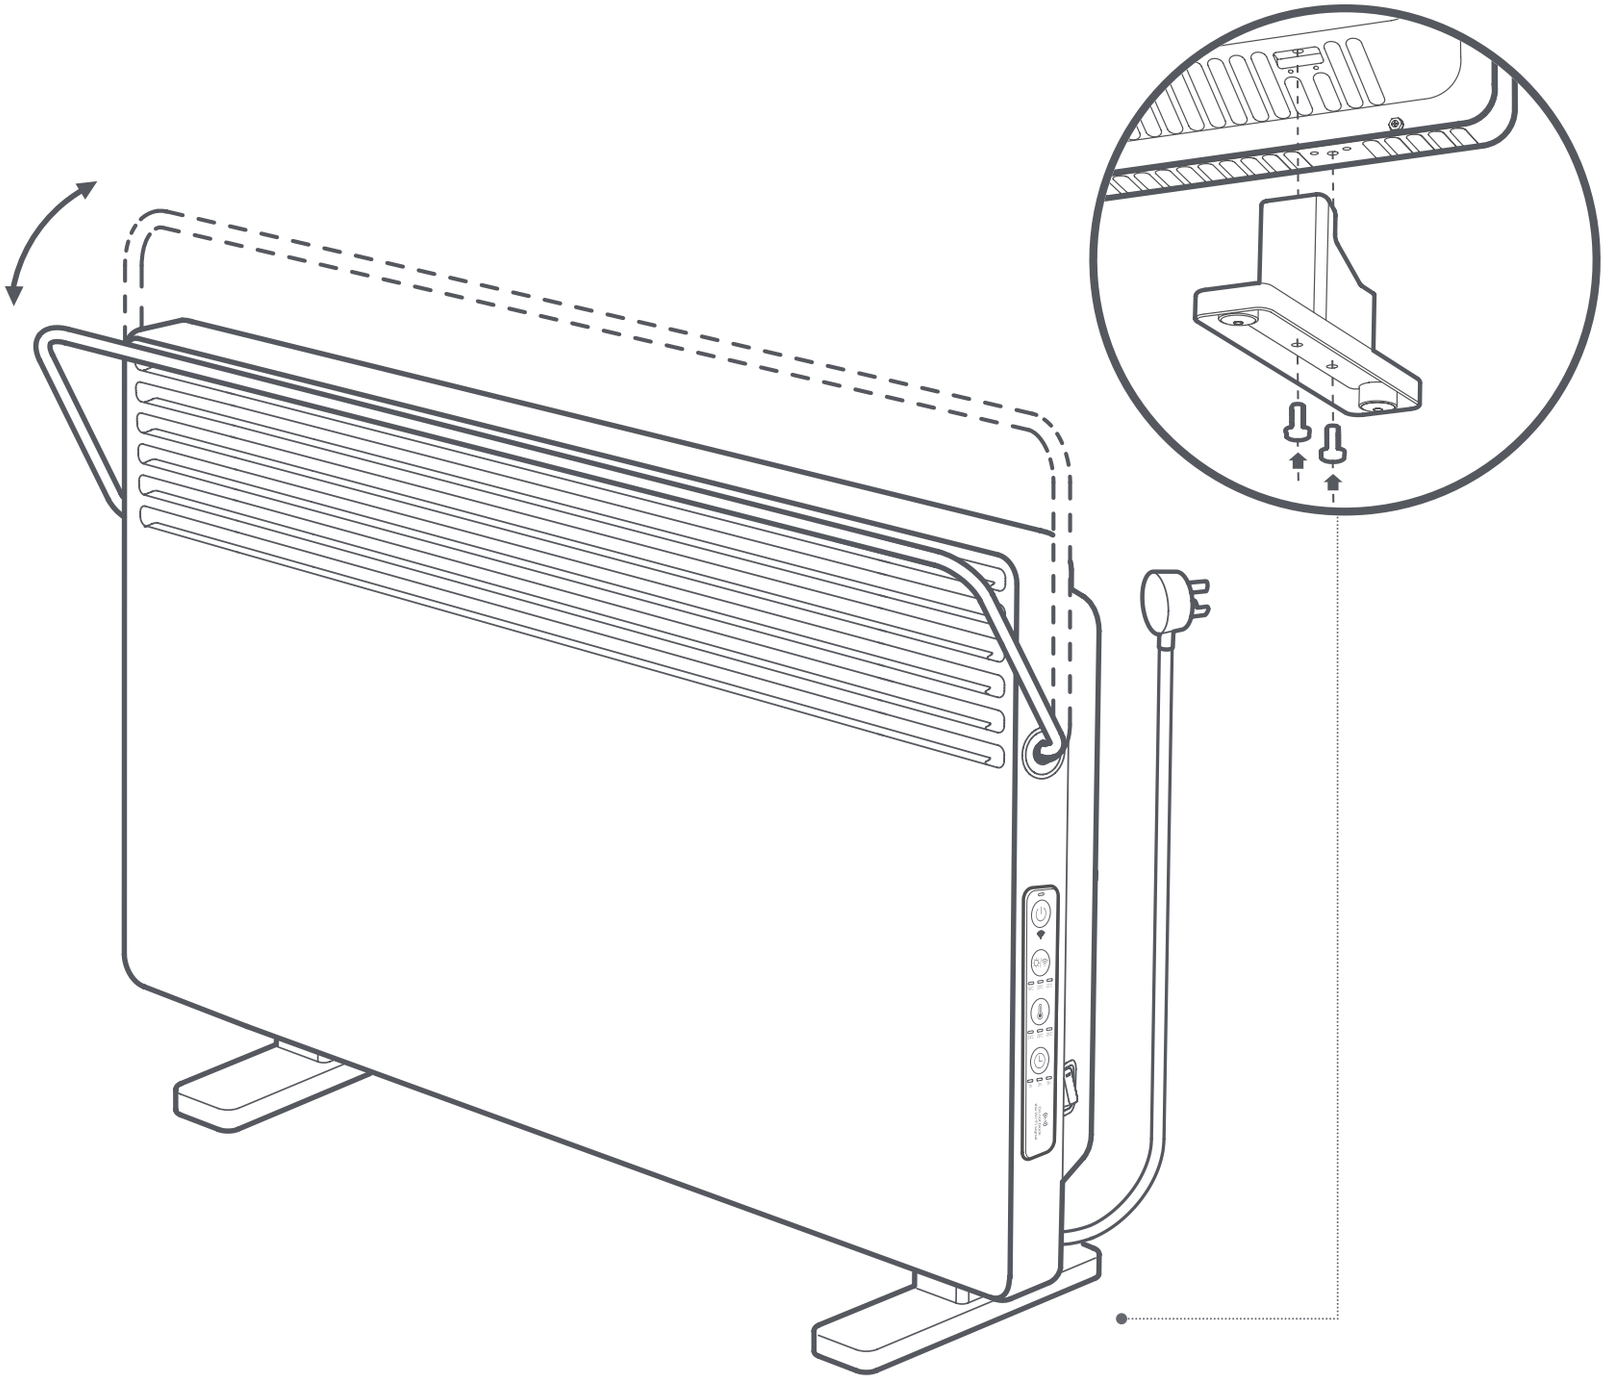

On/Off Switch & Touch Panel

Installation

Install the feet with the screws as shown in the figure.

The maximum rotation angle of the drying rack is 40 degrees.

How to Use

⚠ If the heater is not going to be used for an extended period of time, please turn off the on/off switch and unplug the power cord.
