About your MOVETIME Smartwatch

Your TCL MOVETIME Smartwatch can intelligently track your fitness activities, calculate steps, calories burned, distance travelled, sleep patterns and heart rate to provide you with information about your daily lifestyle. It can keep you permanently connected with your smartphone, allowing you to answer and make calls or track SMS messages, e-mails and phone calls all from your wrist. A special function allows you to control your smartphone's music and camera by simply rotating your wrist or touching the watch's screen. What's more, you can quickly obtain the latest weather reports and upgrade the watch's firmware when using a Wi-Fi connection.

Know your MOVETIME Smartwatch

1. Speaker
2. Power key
3. Wristband
4. Heart rate sensor
5. Charging port
