INSTALLATION GUIDE

Note: This product must be installed by a licensed tradesperson.
This is a general installation guide - there are many factors that are involved that can alter the installation method.

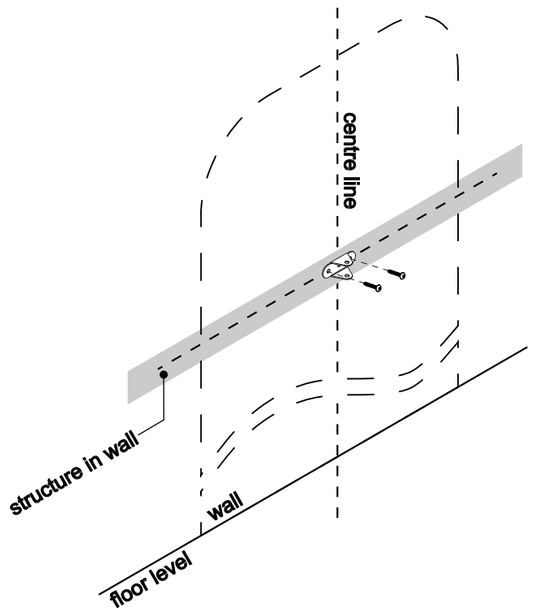

1 Check the correct position is suitable & mark out the desired position

2 Using the screws provided, fix bracket to back of mirror as per the position in the diagram below.

3 Position the wall fixing brackets with measurements taken from the mirror bracket positions. Using the screws provided fix wall brackets into structural support in wall.

4 Mount mirror to wall by lining up mirror with marked position on wall & fastening brackets together with cable fastener provided.
