Fiery® Options Bundle
for the Xerox® WorkCentre® 7800i Series and 7970i Multifunction Printers

Increased productivity and superior colour

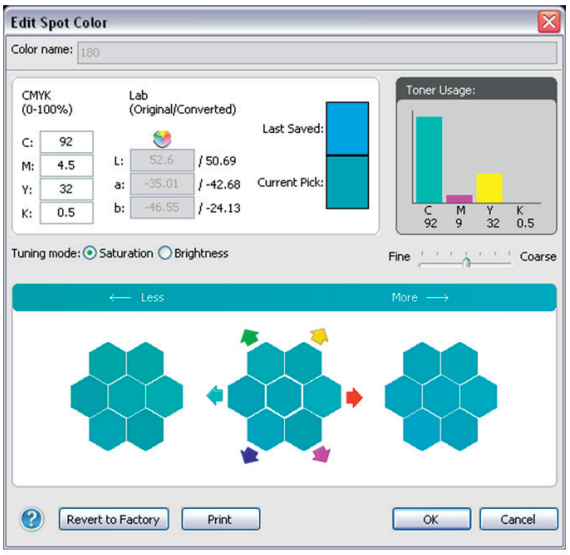

The Fiery® Options Bundle for the Xerox® WorkCentre® 7800i Series and 7970i Multifunction Printers offers a set of software applications that enable you to differentiate your business and achieve image quality that satisfies your expectations.

Features in the Fiery Options Bundle for the Xerox WorkCentre 7800i Series and 7970i include:

- Fiery Spot-On™
- Fiery Hot Folders
- Fiery Virtual Printers
- Auto Trapping

Fiery Spot-On

Get precise spot colour matching that guarantees the accurate reproduction of corporate colours from any application, including Microsoft® Office®. Manage CMYK, RGB, and named colours on the Fiery server including all PANTONE®, HKS, Toyo, and DIC named colours, in Adobe® PostScript® or PDF documents. In addition, you can create custom colours or edit colours with an intuitive user interface. The software also integrates with an optional ES-2000 spectrophotometer to create new spot colours from a colour swatch.

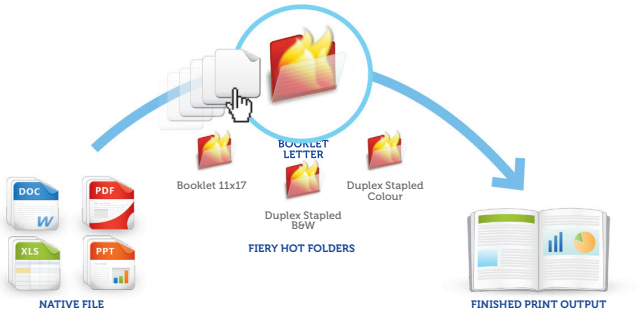

Edit spot colours with Fiery Spot-On

Fiery Hot Folders

Automate job submission for error-free output. Create separate Hot Folders for the print settings you most frequently use and process jobs with a simple drag-and-drop action. Publish and share them with multiple users in your network to enable faster printing and minimise manual setup. Fiery Hot Folders support the following file formats*: PS, PDF, Fiery FreeForm, DOC, DOCX, XLS, XLSX, PPT, PPS, PPTX, PPSX, PUB, TIFF.

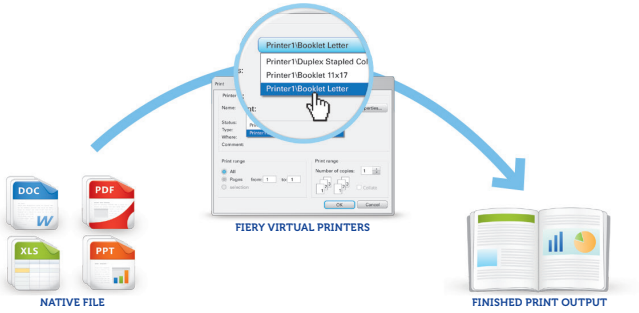

*Microsoft Office files (above) are supported when the corresponding application is installed on the same PC as Fiery Hot Folders. These file formats are not supported with the Mac® version of Fiery Hot Folders.

Fiery Hot Folders — drag-and-drop workflow

Fiery Virtual Printers

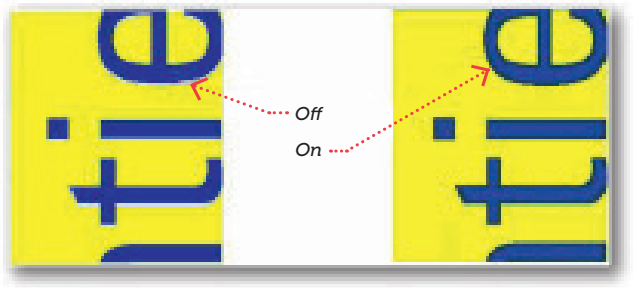

Streamline job setup times and eliminate print errors on repetitive print jobs with Virtual Printers. Perform complex jobs using preset print settings configured for tasks such as duplex printing with stapled finishing. By using predefined job settings through a Virtual Printer, regular print jobs can be automated in a snap for trouble-free printing. You can configure Fiery print actions such as Hold, Process and Hold, Print, and Print and Hold to achieve the desired workflow.

Fiery Virtual Printers — File → Print workflow

Auto Trapping

Achieve smooth transition between adjacent colours with no white edges for flawless print output. Automatically trap adjacent colours to prevent the paper from showing through due to specific media and environmental conditions. Supports files originated in different software applications. The intuitive interface contains only two modes — on and off and does not require the document designer to insert any information.

Auto Trapping on/off

For more information contact your EFI™ sales representative.

EFI fuels success.

We develop breakthrough technologies for the manufacturing of signage, packaging, textiles, ceramic tiles, and personalised documents, with a wide range of printers, inks, digital front ends, and a comprehensive business and production workflow suite that transforms and streamlines the entire production process, increasing your competitiveness and boosting productivity. Visit www.efi.com or call 0808 101 3484 (UK only) or +44 (0)1246 298000 for more information.
