2013 SPRING

#1 Driver in Golf claim based on combined 2012 wins and usage on the PGA, European, Japan Golf, Web.com, Champions and LPGA Tours, as reported by the Darrell Survey Co. and Sports Marketing Surveys, Inc.

1R

> Our depth of experience and expertise with tuning technologies allowed us to create the R1, one driver that can be adjusted for everyone from Tour pros to high handicaps.

DR. BENOIT VINCENT
CHIEF TECHNICAL OFFICER

ONE DRIVER THAT TUNES TO ANY LOFT, ANY LOOK AND ANY FLIGHT

- One driver model that can be tuned to fit Tour pros and amateurs alike.
- TaylorMade Loft-Sleeve technology promotes optimal launch angle by offering 12 settings between standard driver lofts of 8° and 12° (±2°) – including 7 standard and 5 upright loft options.
- 7 face angle options: N/square, open, medium-open, maximum-open, closed, medium-closed, maximum-closed.
- Shot-shaping movable weights promote a neutral/straight flight or a distance-enhancing draw.
- Thick-thin crown provides lower and more-forward CG location promoting high launch, fast ball speed and low spin.
- Inverted Cone Technology milled into the inner side of the clubface expands the portion of the face that delivers high ball speed.
- Black clubface, non-glare white crown and new gray/orange/black crown graphic together promote easy alignment.
- Improved aerodynamics reduce drag over the head to promote faster clubhead speed.
- Aldila RIP Phenom 55-gram shaft promotes faster clubhead speed while delivering greater feel than typical ultra-light shafts.

2013 SPRING

THIS LITTLE THING

HAS CHANGED THE IRON FOREVER.

#1 IRONS IN GOLF TaylorMade

ROCKETBLADEZ™

Irons powered by the Speed Pocket.

#1 Irons in Golf claim based on 2012 Golf Datatech On & Off Course Retail Market Report.

ROCKETBLADEZ™ IRONS

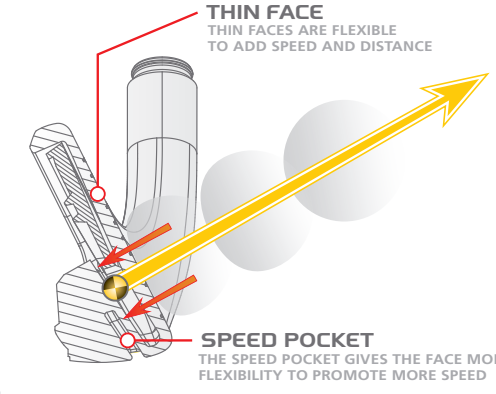

"The Speed Pocket in our new RocketBladez irons is a once-in-a-lifetime innovation that makes every iron without it inferior by design. The Speed Pocket changes iron performance dramatically in terms of distance, trajectory and control. The way it promotes additional ball speed on mis-hits low on the face is unprecedented.

DR. BENOIT VINCENT
CHIEF TECHNICAL OFFICER

THE SPEED POCKET HAS CHANGED THE IRON FOREVER

- Speed Pocket in the 3- through 7-irons works with an advanced, ultra-thin face design to promote consistently high ball speed and distance.
- Consistent distance with every iron made possible by careful management of the Speed Pocket, improved Inverted Cone shape and high MOI.
- 17.5 grams of weight is strategically redistributed to lower and center the CG location, promoting a higher launch angle, higher peak trajectory and a steep, soft-landing, quick-stopping descent angle.
- Fantastic feel promoted by a specially formulated polyurethane developed by 3M that fills the Speed Pocket and quiets vibration.
- SW and LW have specially designed cavities to promote feel, and feature our renowned ATV sole for maximum greenside versatility, and come equipped with heavier steel shafts to promote better rhythm and control.

MAX TECHNOLOGY AND THE SPEED POCKET MAKES THIS OUR LONGEST IRON EVER

- RBZ Speed Pocket in the 4-iron through AW works with an advanced ultra-thin face design and improved Inverted Cone shape to promote consistently high ball speed and distance on center and off-center hits, especially low on the face.
- Hollow head construction inspired by our metalwoods (4- through 7-irons) with substantial toplines, broad soles, superior perimeter-weighting, ultra-low CG and an ultra-fast 455 stainless-steel face for effortless launch and excellent distance.
- Visible tungsten weights in the toe pulls the CG into the exact center of the face to ensure that center-face impact delivers maximum ball speed and distance.
- Fantastic feel promoted by a specially formulated polyurethane developed by 3M that fills the Speed Pocket, keeping debris out, and which quiets vibration without significantly slowing/inhibiting the flex of the pocket.

GHOST Spider S

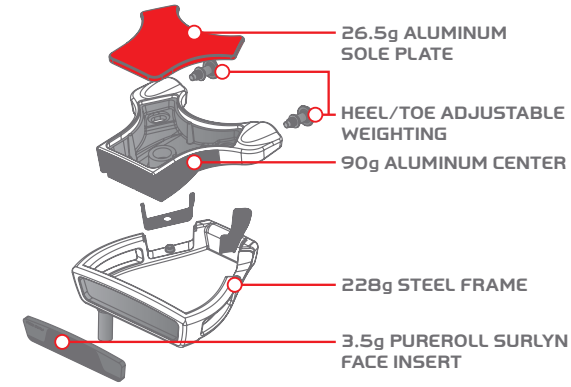

> TaylorMade has taken what we've learned from previous Ghost Spider models to create the Ghost Spider S, which is the most stable, forgiving, easy-to-square putter I've ever tried.

JASON DAY
PGA TOUR PROFESSIONAL

OUR MOST STABLE TOUR PUTTER

- 6000 MOI makes it easy to square the face at impact to start the ball on your intended line.
- 6000 MOI delivers tremendous twist-resistance on the backswing and off-center hits.
- 6000 MOI promotes phenomenal distance-control for more one-putts and fewer three-putts.
- Tour-designed crown flows smoothly into the outer frame for less distraction.
- Black/white frame and single white center-line promotes focus, accurate aim and stroke awareness.
- PureRoll Surlyn® insert promotes incredibly soft-yet-solid feel and smooth roll off the face.
- Single-bend, short-slant hosel with face-balanced / 30° toe-down promotes stability on all stroke types.

GOLF BALLS

2013 SPRING

"How good is Lethal? I put it in play straight away, and within a month I'd won a tournament and helped my team win the Ryder Cup."

JUSTIN ROSE
PGA TOUR PROFESSIONAL

THE ULTIMATE TOUR PERFORMANCE GOLF BALL

Brutally long par-3?
Wind dead in your face?
Need a few extra yards to carry that bunker?
Lethal has your back.

Lethal golf ball's revolutionary 5-Layer Construction, Progressive Velocity Technology and Seamless LDP 322 dimple pattern work in conjunction to promote game-changing performance.

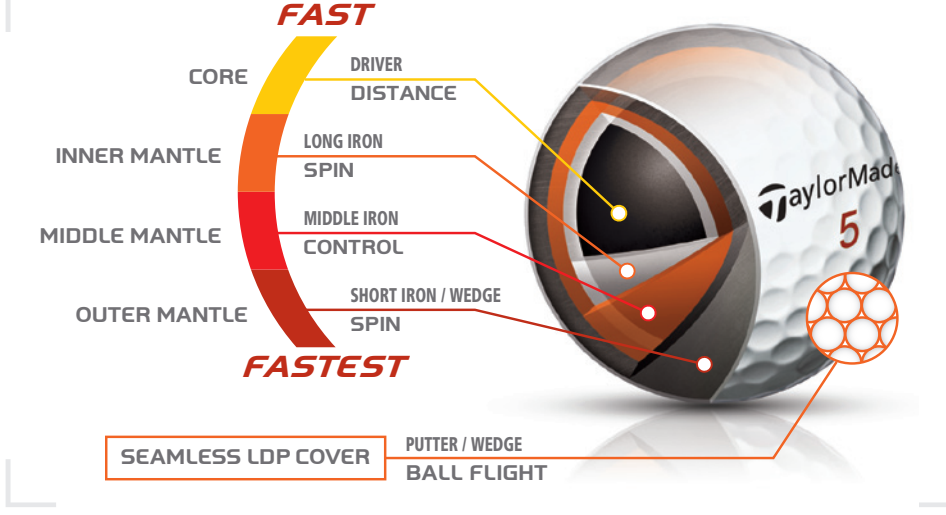

Lethal combines the most penetrating, wind-defying flight of any TaylorMade ball with the kind of greenside feel and spin that Tour professionals demand, making it the ultimate Tour performance ball.

FEATURES

- 5-Layer Technology promotes optimum spin control off every club.
- Seamless LDP (Low-Drag Performance) dimple pattern promotes the most penetrating flight of any TaylorMade ball.
- STA-White™ cast-urethane cover material promotes optimum feel and Tour-caliber spin.
- Progressive Velocity promotes maximum distance regardless of clubhead speed.

PROGRESSIVE VELOCITY

The fastest layers are on the outside, promoting maximum distance regardless of clubhead speed

"We designed RocketBallz Urethane to deliver the maximum amount of spin and workability on full-swing approach shots to help you hit more greens and stop the ball closer to the hole. The performance is absolutely fantastic at this price point."

DEAN SNELL
VICE PRESIDENT
GOLF BALL RESEARCH AND DEVELOPMENT

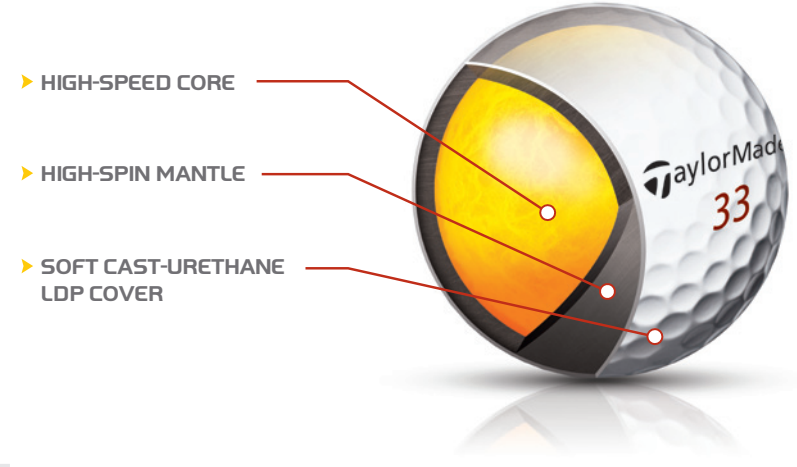

TOUR-VALIDATED 3-PIECE URETHANE FOR UNDER $30

RocketBallz Urethane is your new under-$30 ball. Its tour-validated, three-piece construction with urethane cover promotes added spin off the irons for higher, longer approach shots that land soft and stop fast, as well as a penetrating and distance-enhancing driver flight. And around the green it delivers the kind of superior feel, spin and resilience that only a Tour-caliber, urethane-cover ball can.

FEATURES

- 3-Layer Technology promotes penetrating driver flight and maximum shot-shaping control.
- LDP (Low-Drag Performance) dimple pattern promotes improved distance on driver mis-hits.
- Soft cast-urethane cover construction delivers great feel and Tour-caliber greenside spin.
- High-speed core engineered to generate fast ball speed off every clubface.

PHENOMENAL DISTANCE AND PERFORMANCE AT AN AWESOME VALUE

The name says it all. This ball goes deep. It's ultra-fast IOTHANE cover and soft-yet-resilient core work together to make it our longest 2-piece ball. SuperDeep isn't just speedy, it's also the softest of all our 2-piece balls, It even comes in our High-Visibility Yellow cover to help you track every yard of your extra-long flight.

BENEFITS

- Ultra-fast REACT core stores and releases energy with maximum efficiency for long distance.
- Ultra-fast IOTHANE cover promotes fast ball speed for long distance.
- Low-drag aerodynamics promotes long carry for long distance.
