Valve adapter selection guide

To connect a thermal actuator to control valve, a special adapter ring is needed. Thermal actuators can be mounted to the Produal NV2 control valves by using a VA 80 adapter ring.

The adapter rings are also available for other manufacturers' valves. See the following table for more information.

NOTE: If you can't find the needed valve from the table, you can fill in the form on our website (scan the QR code on the right to open the PDF or browse to Product selection guides / Valve measuring guide) and send the dimensions to Produal customer support. The customer support will determine the correct adapter ring.

Valve manufacturer	Valve type	Adapter	Product number	Adapter description	Notes
