Automatic bundling up to 20 mm diameter

- **Autotool 2000**

The reliability, ergonomics, simple handling and flexibility makes the HellermannTyton Autotool 2000 ideal for the diverse applications where high quantities are required, e.g. in cable assemblies for automotive, brown and white goods industry, electronics, TV and domestics appliances, packaging of bags and the bundling of parts together. The system suits both the high volume use of ties or where flexible production practices are necessary. Overall the Autotool 2000 gives full, flexible and cost effective utilization of labour and maximises efficiency.

With the bench mount kit or the overhead suspender the Autotool 2000 can be used stationary or mobile, depending on the customer's application.

Another opportunity is the integration of AT2000 into a fully automated production line. To do this you would need the control box, which is the interface between AT2000 and your production line.

Features and Benefits

- Electronically operated automatic cable tying system
- Speeds up binding process
- Consistent, high-quality bundling, threading and cutting
- Very easy to use
- Binding speed of 0.8 seconds per cycle
- Handles bandolier of 50 or reels of 3500 cable ties
- Automatic bundling up to 20mm diameter
- Flush cut off
- Adjustable binding force and electronic fault diagnosis

For your assembly line requirements we offer individual solutions.

Autotool 2000.

Power Supply	Electrical, with Switching Power Pack
Cycle Time	0.8 sec
Weight	1.2 kg
Tension Force	Continuously adjustable

RoHS

TYPE	Article-No.
Autotool 2000	120-00000

Subject to technical changes.

Date of issue: February 2015
