Red Hat Enterprise Linux 7

System Administrator's Guide

Deployment, Configuration, and Administration of Red Hat Enterprise Linux 7

Last Updated: 2017-09-25

Tanita bc-1000 plus software download. Tanita tbf-604 user manual. Tanita bc-551 manual. Tanita body fat scale manual.

1.Insert the SD memory card into the card slot of your computer. 1) When handling the card, follow the instructions in the instruction manual for the memory card. Physical Activity Level indicates the intensity of physical activity in your everyday life. Then, click “Next”. Magnify or minimize the graph. New Registration 4 2.Enter your name and physical activity level, and click “Next”. 4) We do not bear any responsibility arising from the use of this software if the software has been revised or modified. The screen will go back to the start screen. Operating Environment •Insert the Memory Card How to Insert/ Remove the Memory Card Insert the memory card into the slot in the direction as shown before the equipment is turned on. Line chart/ Bar chart Printout the graph or data table. Registration Confirmation 6. Doing so may destroy data in the memory card. Before Use 1 1) Copyright of this software is the property of TANITA Corporation. Microsoft and Windows are trademarks or registered trademarks of Microsoft Corporation in the USA and other countries. 7) Please do not operate other files and/or applications while this software is running. Failed to obtain data from the SD memory card Have you finished user settings and taken measurements with the Body Composition Monitor? Notes: •Removal of the Memory Card How to Insert/ Remove the Memory Card 1. Note:You need to have your SD memory card inserted to delete records stored in the media. Goal setting You can change the width of one division of the graph and the display position in zoom-in display. 1. Delete records Choose application or SD memory card where the records you want to delete is stored. “memo” indicates the selected record has a note. Add records and modify Target Value 9. Details Figures of each record are displayed in the balloon by placing the pointer on. Display term Viewing details You can view the details of each record by right clicking. 3.The application will be installed to the registry (C:TANITACorporationBodyvision) unless you specify otherwise. In that case, replace with a new memory card. Please be advised the registration number is no longer used if both the password and keyword are lost. Open the Tanita folder and double click “setup.exe” to start installation. * Hot and humid or corrosive places * Places where strong static electricity or electromagnetic waves are generated 4) When inserting or removing the memory card, do not touch the contact face directly. Choose your registration number to view your measurement data on graphs. 4. · Refer to the Operating Environment and confirm that all conditions are met. To remove, push the memory card in further. The installation is complete when the left screen is displayed. 6) Only insert specified memory cards into the memory card slot. Installation 2 Please take following steps before you start installation. 3) Avoid using or storing the memory card in the places listed below. Corresponding PC ..... PC/AT compatible machine System Configuration ..... Microsoft WindowsXP, Vista, or 7(Not compatible with 64 bit version) Memory..... Greater than the recommended memory capacity Hard Disk Free Space ..... 20MB or more Display Resolution ..... 1,024 X 768 dots or more (recommended) Disk Device ..... SD Drive User Account Administrator or Power User * All the messages in the enclosed software are in English. You need to complete User Registration in advance. Change registration To delete your registration. 2. Forgot the keyword (password reminder) The registration number cannot be used any longer. You can set the target value of the weight and body fat percentage. 2.Read through the license agreement, and choose “agree” if you agree to the terms and conditions. You need to have your SD memory card inserted into your computer. 3. Delete add or modify record data The application can generate CSV format data file that can be edited with spreadsheet software. Choosing items Click the arrows on Muscle mass and Body fat, and select a segment from the list. Please read carefully before use. Click, “Next”. 3.If you created the short cut icon yourself, delete the icon as well. Start Register your personal information when you use this application for the first time. 10. Output recorded data You can change the display units for weight, height, and calorie. 1. 7. 3) Reproduction of this software or instruction is not allowed. Note: You must delete registration on the application first when you delete the registration on the body composition monitor. Pinch the portion that has come out with the thumb and index finger and remove. With the option feature, you can manage your records, change settings or use useful feature to help your health management. Version information Start 3 Double click the icon shown on your desktop or installed folder. You can protect your personal information and recorded data from others. Exit Link to the Tanita world wide website 6. You need to obtain data every time you transfer your measurement data taken with the Body Composition Monitor to the application. 7) When the equipment is used for long hours, the removed memory card may be warm. What is Physical Activity Level? Obtain Data 1.Insert your SD memory card into your computer and click “New Registra- tion” on the start screen. A blank record will be added as the record of the previous date. 5) The specification of this software and the contents described in the instruction manual are subject to change without any prior notice in the future. If you choose the latest record, record of the day after the latest is added. Make sure if the application is Bodyvision, and click “YES” or “Allow”. Measurement data Your measurement data is displayed on a graph in this section. Select “Remove” and click “Next”. 8) The memory card has a limited life. Print Bar chart Line chart 8. You can only change “Name”,“Physical Activity Level”,“Password”. Are personal settings and measurement data stored in the SD memory card? Make sure if SD memory card is inserted to your computer and detected by the computer. Latest record is shown on the right. Choosing segments and items to be shown Click items to show the graph of selected item. The obtained data is not deleted from the SD memory card. 2) There is a write-protection notch on the memory card. You can modify the display width by changing Zoom-in setting. Latest record The latest record is always displayed on the right. Microsoft Windows 7 Operating system English version is indicated as Windows 7. (When you start, or modify user registration,) Have you finished user registration with the application? · Make sure that your operating system is working properly. · Set your computer clock. Insertion of other objects may result in a breakdown. You can add , delete or modify record manually with this feature. Recommended value is automatically calculated based on standard values or your physique. Choosing segments Changing the display method You can select the term of the graph from “Daily”,“Week average”,“Month average”,“Weekly average” by clicking each button. For Windows 7 or Vista users User Account Control will ask you if you allow the application to access the computer. Display term Details You can leave notes about the details of the meals or exercise on the selected date. •Before removing the memory card, confirm that is not displayed. Viewing Records 5 The obtained measurement data is shown on a graph. To obtain your measured data, click “Obtain data” on the screen. Contents Before Use ..... 1 Installation ..... 2 Start ..... 3 New Registration ..... 4 Viewing Records ..... 5 Options ..... 7 Uninstllation..... 8 Troubleshooting ..... 9 Application Software Manual 2. This is normal. Now the application is uninstalled. Delete registration Exit the application 5. Zoom-in display setting Options 7 Correct or modify your registered data. Correction of registration details Only one record is stored per day. You can compare previous records with your latest record by clicking.Only one record is stored per day. Start installation by double clicking on “setup.exe”. 4.Delete “Bodyvision” folder in the installed “TANITA Corporation” folder. The target value is displayed with a red line on the graph. 3.Click “Start” on the initial screen. It is strongly recommended to write down your keyword and keep it for reference. In this manual, Microsoft® Windows® XP Operating system English version is indicated as Windows XP and Microsoft Windows Vista™ Operating system English version is indicated as Windows Vista. Click “Finish” to complete the registration. To set the password, tick the box and enter a password and keyword. 2) Please use this software and the instruction manual under the conditions described in the License Agreement of this product. Link The version of this application 7. Start screen Registration screen ① ⑦ ② ③ ④ ⑤ ⑥ 5. Cannot click the registration number. 6) Please note that images in the instruction manual may differ from those used in the software. Choose the registration number, and click “Delete”. New Registration Correct or modify your registered data. 3. 2.The screen shown on the left is displayed. Choose the same number that you chose with the body composition monitor. You can specify the display date by clicking the date field. Troubleshooting 9 Error message “Memory cartridge has not been connected” is displayed. To change user return to top and cancel registration” is displayed. Error message “Please check user profile for errors. If you forget your password, register your information in a new registration number. 9) Please note that we will never bear any responsibilities for the loss or corruption of data of the contents stored in the memory card. To change user return to top and cancel registration” is displayed. Uninstallation 8 1.Insert the SD memory card into the card slot of your computer. As the memory card is used over a period of time, saving, reading, or data functions may fail. Complete personal settings and measurements with the Body Composition Monitor in advance, and have the SD memory card inserted to your computer. For the details, see P.7. Zoom-in/Zoom-out Viewing Records 6 Back Back Forward Forward Specify a date Show the past data Latest Zoom-in Zoom-out Change the display method. Figures You can compare the latest record with selected record. Choosing the display date Magnify or minimize the graph. · Turn off the virus checking software and screensaver until the instructions are finished. To delete a record, choose a record and click “Delete”. If you insert the memory card while weighing, the data cannot be stored. Note: Excessive weight loss may harm your health. Setting for changing unit Add records Choose a record, and click “Add”. 4. Keyword is a password reminder. 4.Click on “Install” to start the installation. Read the description on the registration-screen, and choose a level most appropriate to you. Choose the registration number which you wish to correct, and enter new information. Note: The application CANNOT recover any deleted data. Password Password setting is NOT mandatory. Click on “Finish” to exit the instration. 5) While the equipment is transferring data to the memory card, do not remove the memory card from the equipment or do not shut down the power. Indicate the period to be output, and click “Write data” to indicate the location to save the file. Your measurement data in the SD memory card will be transferred to the application. Always unlock it when using the scale and the application. Enter your desired values in the fields. Enter values for each items, and press Enter to determine. Doing so may destroy the data in the memory card or cause a breakdown of the SD card interface.
