Compact Ceiling Speaker System

✔*Mounts in standard round ceiling box*
✔*Aluminum cone*
✔*Rubber surroud*

RATED

Rugged 2½" driver is mounted in an attractive round faceplate that is compatible with commonly available ceiling fan electrical boxes, such as the B618R series from Carlon (MCM #28-17060). Use in this manner allows inconspicuous mounting in a variety of areas where appearance is critical, or electrical codes are an issue. When used alone, it is perfect for moderate volume music and voice reproduction in public areas. Used in pairs, and combined with a subwoofer, it is perfect for any high fidelity audio application including home theater and whole-house audio. **Specifications:** •Power capacity: 20W/30W RMS/peak •Frequency response: 100Hz~20KHz •Sensitivity: 85dB (W/M) •Nominal impedance: 8ohm •Front panel diameter: 5⅜" •Mounting depth: 1¾" •**Sold individually**

50-13320	$93.72

Enclosed Two–Way In–Wall Speaker Pairs

Easy to install in–wall speakers are ideal for background music, paging, home theater or any general music application. Their wide frequency response and above average power capacity make them ideal as main, surround or background speakers. System consists of a woven fiberglass, blue cone woofer, with rubber surround, and a 1" titanium swivel dome tweeter. The addition of a molded PVC back–box ensures uniform sound quality regardless of mounting location, while protecting the speaker from insulation debris and temperature extremes. Rotating mounting clips allow fast installation in to drywall with no additional hardware. All will mount in a standard 2 x 4 studded wall. Each speaker is 8ohm. **Sold in pairs.**

MCM Part #	Woofer Size	Power Capacity RMS/Peak	Frequency Response	SPL (W/M)	Overall Frame Dimensions	ONLY

50-6549	8"	80W/120W	50Hz~20KHz	88dB	14.0" (H) x 10.0" (W) x 4.1" (D)	129.00

6½" Single Point Stereo Ceiling Speaker

Intended for small areas that do not justify installation of two speakers, this single stereo speaker provides both left and right audio channels, from a single point. Two independent crossover channels, two separately mounted tweeters, and a dual voice coile subwoofer provide an outlet for both left and right channels, from one 6½" speaker. This speaker is an excellent solution for distributed audio or home theater applications. **Features:** •6½" poly cone woofer with rubber surround •Dual ¾" pivoting silk dome tweeters •Dual 6dB/octave crossovers •Cloth backed micro perforated grill **Specifications:** •Power capacity: 35W/50W RMS/peak per channel •Frequency response: 55Hz~22KHz (±3dB) •Sensitivity •87dB (W/M) •Impedance: 8ohm per channel **Mounting:** •Overall frame: 9.4" (dia.) •Required cutout: 8.1" (dia.) •Depth: 5.25" **•Sold individually**

MA Series Ceiling Speaker

Completely enclosed ceiling speaker is the ideal all–purpose solution, covering a wide variety of distributed commercial and residential sound applications. Internal 25V/70V transformer taps are easily selected via the front baffle, allowing final volume balancing to be done after installation. 8ohm position is provided for residential applications. Rear back box provides protection to the speaker plus consistent sound, regardless of location. Polypropylene cone woofers and ported enclosures provide extended frequency response typical of much higher cost units. **Features:** •Rubber surround woofers •1" mylar dome tweeter •Fire retardant ABS rear enclosure •White ABS frame with rotating mounting clips •Easily installs to existing wallboard •Transformer taps: 0.25W, 0.5W, 1W, 2.5W, 5W, 7.5W, 15W, 30W, 40W (#50-7536 only) **•Sold individually**

Indoor/Outdoor, Foreground/Background Speaker Pairs

Rugged weatherproof speaker pairs are designed to meet the needs of virtually any indoor or outdoor situation, in both residential whole-house systems and distributed commercial sound environments. Rear mounted rotary switch selects multiple taps on the internal 70V transformer **Features:** •Polypropylene cone woofers with rubber surrounds •Soft dome tweeters with dispersion lens •UV resistant ABS resin composite enclosures

They are the ideal choice for:

- ✔*Monitoring in the studio or small stage venues.*
- ✔*Large scale commercial systems including: Retail commercial, industrial, public transportation and school environments*
- ✔*High fidelity sound distribution in clubs, sports bars, health spas, community centers*
- ✔*Outdoor sound distribution in residential distributed systems*

5¼" Indoor/Outdoor Speaker Pair

•5¼" woofers with rubber surround •1" soft dome tweeters •Power capacity: 50W/100W RMS/peak •Sensitivity: 86dB (W/M) •Nominal impedance: 8ohm •Frequency response: 60Hz~20KHz •Transformer taps: 2.5W, 5W, 10W, 20W, 30W •8ohm bypass •Dimensions: 10.75" (H) x 7" (W) x 6" (D) •**Sold in pairs**

AUDIOPLEX TECHNOLOGY
Stereo–to–Mono Mixer

These transformers accept a signal from both the left and right amplifier channels, and provide a combined mono output to drive one speaker. Because the inputs are fully isolated, stereo separation is not compromised over the rest of the system. This allows any speaker to be used as a single–point stereo speaker. Rated power capacity is RMS, both channels combined.

Volume Control Eight-Way Hub

Designed for use with in-wall volume controls, this hub provides a simplified method of connecting up to eight controls to a single amplifier output. **Features:** •Straight-thru parallel connection, intended for impedance matching controls or 70V systems •100W RMS per channel capacity •Screw terminal output •Detachable screw terminal inputs and outputs •Wall mountable ABS housing

MCM Part #	ONLY
50-14887	$19.99

Multi Room Speaker Distribution Strip

Essential for distributed residential sound installations, this terminal strip provides a convenient method of connecting numerous pairs of speakers to a single pair of binding posts. Input terminals are heavy-duty, gold plated brass, five-way binding posts, which will accept single or paired banana plugs or bare wire up to 8AWG. Each output connection features detachable screw terminal strips which accept up to 14AWG wire. Internal PC board circuit is reinforced with internal point–to–point 14AWG wiring, for improved current capacity. Compact size allows easy location behind equipment. Screw holes allow easy wall mounting and rubber feet are included for shelf top use. **Note:** Terminal strip is straight parallel connection and provides no impedance protection. It is intended for use with 70V distributed speakers, or 8ohm systems that utilize impedance matching volume controls. **Specifications:** •Power capacity: 200W RMS per channel •Dimensions: 2" (H) x 2.25" (W) x 10.5" (L), including binding posts.

MCM Part #	(1–3)	(4–up)
50-2204	$34.99	$29.99

Four Pair Speaker Selector Switch

Allows simultaneous operation of up to four pairs of 8ohm or 16ohm speakers. Automatic load protection ensures that the amplifier sees a 4ohm or higher load, regardless of speakers selected. The built-in protection circuit inserts resistance only when more than two pairs of speakers are selected. This ensures that maximum power is delivered to the speakers. Additional resistance is inserted only when needed. Amplifier A/B switch allows selection from two different sources allowing greater flexibility. Left and right channels are fully isolated from each other, allowing compatibility with any type of amplifier. Thermo-Tek™ circuit protects switch and components in the event of an overload situation. Power capacity 40W/120W RMS/program. Rear mounted terminal strip accepts up to 10AWG wire. Dimensions: 17" (W) x 2" (H) x 5" (D). Black color.

MCM Part #	(1-3)	(4-9)	(10-up)
50-2075	$99.99	$89.99	$85.00

Multi–Zone Speaker Selectors

Ideal for controlling multiple pairs of installed speaker systems from a single location. Four and eight zone models are available with simple pushbutton on/off control for each zone. Four and six zone versions feature on/off selectors as well as 12 step volume controls for each zone. **Features**: •Rugged 17" wide metal housing (S4DC is 8⅜") •Front panel impedance protection switch, with rear panel override •Suction feet to hold unit firmly to shelf during use •Removable screw terminal connections accept up to 14AWG wire •100 room labels to customize to any application **Specifications:** •Power capacity: 125W RMS per channel (all zones combined) •Frequency response: 20Hz~20KHz ±0dB •Dimensions (S4DC): 2⅜" (H) x 8⅜" (W) x 6½" (D) •Dimensions (others): 2⅜" (H) x 17" (W) x 6½" (D)

MCM Part #	Mfr. #	Description	ONLY
50-8400	S8DC	Eight zone	$199.00
50-8430	S6VC	Six zone with volume controls	399.00

High Power Eight Pair Speaker Switch

Controls up to eight pairs of speakers with 250W/750W RMS/music power capacity. High power transformers with selectable taps allow you to obtain maximum power transfer while maintaining a safe load of 4ohm or higher. Because the system is capable of transforming a ⅛ohm load to appear as a 4ohm load, several speaker pairs may be used on a single switch position. The left and right channels are completely isolated, allowing compatibility with any amplifier. Rear mounted terminal strip which accepts up to 10AWG wire. Dimensions: 17" (W) x 3½" (H) x 6" (D).

MCM Part #	(1-3)	(4-up)
50-5705	$249.00	$225.00

Speaker Selectors

Compact shelf top selectors allow zone control of up to four, six or eight pairs of speakers. Internal impedance protection circuit ensures your amplifier sees a safe load, even when all pairs are playing. Resistor type impedance matching allows full 20Hz~20KHz frequency response. •Pushbutton control for each speaker pair •Push terminals accept up to 14AWG]cable •Handles total of 100W per channel

MCM Part #	Mfr. #	Pairs	(1–3)	(4–up)

sima Speaker Selector

- ✔ *Volume adjustment in each zone*
- ✔ *A/B source selection*
- ✔ *100W RMS capacity*

Versatile speaker switches allows connection of up two six pairs of speakers, to two different stereo sources, with individual volume control of each pair. Volume adjustment and impedance matching is accomplished through internal heavy-duty multi-trapped transformers. Rear screw terminal strips accept up to 14AWG wire, and are removable, allowing easy connection of multiple cables. **Power capacity:** 18W/50W RMS/program per speaker, 100W/150W RMS/program total. Dimensions: 3" (H) x 17" (W) x 7" (D), including knobs.

Five-Way Speaker Switch Box

✔*On/off control for five zones*
✔*Headphone jack*
✔*Compact size*

RATED ★★★★

Maintains 8ohm load when up to five sets of 8ohm speakersare used. Places 100ohm load when all speakers are switched off. Front panel ¼" headphone jack allows monitoring of the source. 200W maximum power capacity. Metal case has non-skid rubber feet and stays securely in place. Dimensions: 8⅛" (W) x 2¼" (H) x 3⅜" (D). Sloped front, black color.

MCM Part #	(1-5)	(6-9)	(10-up)
50-6200	$19.99	$18.99	$18.50

MCM CUSTOM AUDIO Eight Position Speaker Selector

RATED ★★★★

Compact table top selector provides cost effective selection of up to eight pairs of speakers, from one location. It provides a perfect solution to the need for low cost distributed audio in residential audio or commercial sound applications. Internal switching uses a combination of series and parallel wiring, ensuring that the connected amplifier sees a minimum of a 4ohm load (when 8ohm speakers are used). This means that any conventional amplifier or stereo receiver can drive multiple sets of speakers, without the need for external impedance matching devices. **Features:** •Rugged metal enclosure •Non skid rubber feet •Color coded push terminals for all speaker connections •Heavy-duty rocker switches •Attractive sloped top panel •Power capacity: 50W RMS per channel •Frequency response: 10Hz~50KHz •Dimensions: 2½" (H) x 12" (W) x 4¼" (W)

MCM Part #	ONLY
50-6225	$34.99

SpeakerCraft Automatic A/B Speaker Level Switch

This switching device automatically selects between two stereo amplifiers to a single pair of speakers. It is perfect in situations where installed speakers are used with both a local stereo or home theater system, and a distributed audio system. Default input-A is selected when no signal is present. When a signal is sensed at input-B, the selector automatically switches to that input. A separate 12VDC, 100mA signal is also provided to trigger other external devices. Trigger sensitivity is fully adjustable from 30~300mV. Off delay (from B back to A after absence of signal) is adjustable in eight steps from 0.5 seconds to 10 minutes. Relay contacts are 4PDT, with isolated L/R ground paths. Music power capacity is 100W. This unit requires 12VDC. Optional AC adapter available (#50-8362).

MCM Part #	ONLY
50-8390	$50.00

Two-Way Speaker Switch Box

Tabletop control box allows selection of A/B speaker pairs. Internal 220ohm resistors ensure that amplifier always sees a load, even with both switches off. With both speaker switches in "on" position, speaker pairs are connected in series, allowing use of 4ohm or 8ohm speaker systems, without damage to amplifier. 200W maximum power capacity. All connections are push type. Metal case has non-skid rubber feet and stays securely in place. Dimensions: 6.9" (W) x 2.2" (H) x 3.9" (D). Sloped front, black color.

Stellar Labs® Compact Stereo Amplifier with D/A Converter

Great for any situation requiring compact, reliable amplification. This amplifier is great for driving speakers from iPods®, iPads® and other compact devices including tablets and laptops. It is also ideal driving in-wall or ceiling speakers directly from a wall mounted television. **Features:** •15W RMS x 2CH output •Two stereo L/R line level inputs •Built in D/A converter •TOSLINK coaxial digital input •Independent headphone amplifier with level control •Pushbutton input selector •Rugged wall mountable metal housing •Requires 12VDC, 2A, AC adaptor included

MCM Part #	ONLY
50-14800	$89.99

knoll Illusion 2 Compact Two Channel Stereo Amplifier

✔*Bass and treble controls*

Ideal for use in a kiosk, for upgrading the sound of a television, in a whole house audio system, or for amplifying speakers for a computer, this amplifier provides terrific sound quality and is extremely compact in design. **Features:** •Power output: 15W/20W (RMS/peak) @ 8ohm •Frequency response: 10Hz~40KHz •2ohm stable •Inputs: One gold plated RCA •Outputs: Detachable phoenix style •Adjustable bass, treble, and balance •Required power: 15VDC, 2.4A (power supply included) •Dimensions: 4 ½" (L) x 1 ¾" (D) x 4" (H)

MCM Part #	ONLY
50-13225	$189.00

knoll Multi Zone Audio Distribution Amplifiers

Available in either four zone (8 channel) or six zone (12 channel) configurations, the these amplifiers are designed to meet the needs of custom installed multi-zone systems where high quality sound is a specific requirement. Features: •Protection circuitry protects against low impedance, overheating, overloading, overvoltage and undervoltage •Individual channel gain adjustment •One RCA input per zone •Power can be controlled by external controllers •Channel link: Allows the installer to link any or all of stereo channels to channel one (left and right) without using Y cords or external adapters •Quiet internal fan •Power capacity: 50W/100W (RMS/peak) per channel at 8ohm

Stellar Labs® Compact Stereo Amplifier with USB Input

Designed specifically to power a pair of speakers from a standard line level source, such as a CD player, television, and MP3 player. A USB input also allows connection to a desktop or laptop PC to power a set of bookshelf speakers. **Features:** •20W RMS, 40W peak at 8ohm •Heavy-duty brushed aluminum faceplate •Three position input selector •Stereo 3.5mm line level input •RCA unbalanced line level subwoofer output •Heavy-duty binding post speaker outputs **Specifications:** •Frequency response: 20Hz~20KHz •Total harmonic distortion (THD): 0.1% •Dimensions: 3.0" (H) x 10.8" (W) x 7.3" (D) •Mfr. #SLA 100

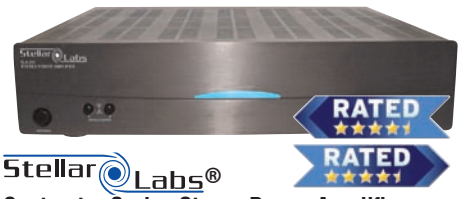

MCM Part #	ONLY
50-4606	$59.99

Ultra Compact 40W Stereo Amplifier

Weighing in at less than 6 oz., this miniature stereo amplifier is smaller than a deck of cards, yet delivers an incredible 20W RMS per channel. It is perfect for driving a pair of speakers directly from a portable MP3 player or PC, flat panel TV or any other line or headphone level source. 92% efficient digital amplifier circuit is housed in a rugged extruded aluminum enclosure and is convection cooled, ensuring whisper quiet operation. **Features:** •3.5mm input •Included 3.5mm male/male cable •Detachable Phoenix style speaker connections •LED power indicator •Includes AC adapter **Specifications:** •Output: 20W x 2CH @ 8ohm •THD 0.11% at 50% rated power •S/N ratio: >99dB •Requires 24VDC, 2A •Dimensions: 1.0" (H) x 2.2" (W) x 2.78" (D)

MCM Part #	ONLY
50-4600	$84.96

Stellar Labs® Contractor Series Stereo Power Amplifiers

Designed specifically for use in distributed audio installations. Remote on/off triggering and signal sensing allow these units to be set up in equipment racks, with no further contact required. Rear mounted master level controls keep installation safe from future tampering. Two auto-switching inputs allow automatic operation when used with more than one system. **Features:** •Front panel controls for level, balance and A/B speaker selection •Two sets of L/R inputs, each may be switched to accept line level speaker level signal •Auto-switching between inputs, with adjustable delay •Line level pass through output on input #2 •Manual or auto-sensing power control •12V trigger input allows power-on command from external components •12V trigger output allows amplifier to trigger external components •Stereo and bridged mono operation •Heavy-duty binding post speaker outputs •Discrete output components •THD of less than 0.2% (at 4ohm) •See www.MCMelectronics.com for complete details including instruction manual

50-13700	$109.00

CHANNEL VISION™

Aria® Six Zone Whole House Audio Amplifier

This powerhouse is perfect for use as a stand alone amplifier to power six stereo zones in any whole house environment, or it may be used to expand an existing Channel Vision Aria system. 12 channel amplifier delivers 60W RMS per channel, continuous duty, even with full load on all channels. **Features:** •Auto turn-on for each channel pair •Each channel pair may select individual source or global input •Quiet fanless convection cooling •Mfr. #A1260

MCM Part #	ONLY
50-13020	$761.11

CHANNEL VISION™

Aria® Keypads

Designed specifically for use with the Aria® model A4623 six zone amplifier, these keypads are designed to be installed within each zone, and are connected to the central amplifier via standard Cat5 cable. Each unit provides source selection, power on/off and volume control for each zone. Keypads also function as an IR target, with IR emitter ports being located in the central amplifier. This allows IR control of source gear from the remote location. Units are single gang size and are compatible with Decora faceplates. Model A0127W is white color, A0127IA is shipped as ivory, but includes an almond color change kit.

CHANNEL VISION™

Aria® Six Zone A/V Controller/Amplifier

The A4623 is a four input, six zone matrix A/V controller with an integrated audio amplifier, designed for whole house A/V distribution. Any of four inputs can be selected and routed to any of the six stereo zones independently. Separately available keypads allow remote operation of each zone, and are connected to the amplifier via standard Cat5 network cable. In addition to amplifier control, the each keypad acts as a target, providing an IR control path to optional emitters connected to the amplifier. **Features:** •20W RMS per channel amplifier in each zone •Pre amp outputs for additional amplification in each zone •Provides composite video path for each source and output channel •IR and serial control options •Mfr. #A4623

MCM Part #	ONLY
50-13030	$805.56

Compact Digital Class T Stereo Amplifier

Featuring Tripath digital technology, this amplifier provides highly efficient, high quality audio amplification. Capable of being powered by either "AA" batteries, or 12VDC, this amplifier is highly versatile for any application. **Features:** •Front panel on/off and volume control •Extremely small footprint, only 1¼" (H) x 7½" (W) x 5¼" (D) •3.5mm stereo line input and headphone output •Push terminal speaker outputs •Powered by eight "AA" batteries, or by 12VDC 1.5A (power supply sold separately) **Specifications:** •Power output: 10W RMS x 2 channels @ 8ohm, 15W @ 4ohm •Frequency response: 60Hz~20KHz •THD: <0.1%

MCM Part #	ONLY
50-10145	$17.99

PYLE

Compact Stereo Amplifier

This small amplifier is perfect when a line level source, such as a CD or DVD player, or portable MP3 player needs to be connected directly to a pair of speakers. Attached input cable is terminated with male L/R RCA connectors for connection to most devices. Optional RCA to 3.5mm adapter (#24-4590) allows easy connection to headphone output of iPods and similar devices. **Features:** •Very compact size •Push terminal speaker connections •110/220VAC selectable **Specifications:** •Power output: 3W RMS two channels, 15W two channels max (4ohm) •THD: 1% •Frequency response: 40Hz~20KHz •Dimensions: 2.2" (H) x 5.6" (W) x 4.2" (D) •Mfr. #PCA1

MCM Part #	(1-3)	(4-up)
555-3194	$30.99	$28.99

PYLE

Mini Stereo Amplifier with USB Input

Compact amplifier easily drives a moderate pair of speakers and will play MP3 files directly from USB thumb drives or SD cards. •30W x 2CH max output •Three line level input selector •ID3 tag display •Repeat play and shuffle functions •**Includes:** IR remote control •Independent bass and treble controls •Dimensions: 2.5" (H) x 7.8" (W) x 5.9" (D) •Mfr. #PVA3U

MCM Part #	(1–3)	(4–up)
50-13825	$90.99	$85.99

PYLE PRO Compact Stereo Amplifier With Mic Input

Small amplifier is perfect when multiple line level sources, such as a CD or DVD players, or portable MP3 players need to be connected directly to a pair of speakers. **Features:** •Very compact size •Front panel selector for CD and AUX input •¼" microphone input with mic level control •Selectable mic "mix" or mic "page" modes •Two sets of L/R RCA female input connections •¼" front panel headphone jack •Push terminal speaker connections •110/220VAC selectable **Specifications:** •Power output: 3W RMS x 2 channels, 15W x 2 channels max (4ohm) •THD: 1% •Frequency response: 30Hz~20KHz •Dimensions: 2.5" (H) x 7.5" (W) x 5.25" (D) •Mfr. #PTA1

MCM Part #	(1–3)	(4–up)
555-9990	$42.99	$39.99

PYLE PRO Compact Stereo Amplifier

Small amplifier is perfect when a line level source, such as a CD or DVD player, or portable MP3 player needs to be connected directly to a pair of speakers. It also ideal when an extra set of in-wall, in-ceiling or outdoor speakers, need to be connected to an existing sound system. **Features:** •Very compact size with relatively high output power •Five LED bargraph output indicator for each channel •Independent bass and treble controls •L/R RCA female input connections •Push terminal speaker connections •110/220VAC selectable **Specifications:** •Power output: 15W RMS x 2 channels, 75W x 2 channels max (4ohm) •THD: 1% •Frequency response: 20Hz~40KHz •Dimensions: 2.5" (H) x 7.5" (W) x 5.5" (D) •Mfr. #PCA3

Distributed Audio

CHANNEL VISION

Complete Four Zone A-BUS System

Complete package provides virtually everything needed to install a single source, four zone distributed audio system, and is designed for installation in any of Channel Visions structured wiring panels. Entire system may be controlled from each zone, via include single gang decora keypads, and multiple systems may be interfaced together, allowing additional zones. Keypads connect to the system hub via unterminated Cat 5 cable, and remote speakers connect to keypads via standard in-wall speaker wire (both available separately) **Kit includes:** •AB-404 hub •AB-202 line level interface which allows connection of a single source and four IR emitters •Four AB-124 amplified keypads •Power supply •Four IR emitters •Programmable IR remote control •Mfr. #AB-902

MCM Part #	ONLY
50-13150	$599.63

CHANNEL VISION

A-BUS Local Source Input

Designed for use in any A-BUS distributed environment, this module provides line level input connection. This unit may be connected to the input of any A-BUS hub, to act as a standard source input. It may also be located in an individual zone, and connected between the output of the hub and a keypad, allowing connection of a local input source. This is perfect when a system contains a zone that occasionally has need to listen to an independent source. Device mounts in a single gang opening and is compatible with decora cover plates. Mfr. #AB-301.

MCM Part #	ONLY
50-13120	$78.11

CHANNEL VISION

A-BUS System Amplfied Keypad

Designed for use in any A-BUS distributed environment, this keypad can be used to expand an existing system or as a component in a custom package. Standard single gang device is compatible with decora devices and includes white cover plate. Mfr. #AB-124.

MCM Part #	ONLY
50-13100	$121.11

CHANNEL VISION™

Complete Four Source Four Zone A-BUS System

Complete package provides virtually everything needed to install a four source, four zone distributed audio system. A single gang decora keypad in each zone provides independent source selection, IR remote control and volume adjustment within that zone. Keypads connect to the system hub via standard Cat5 cable, and remote speakers connect to keypads via standard in-wall speaker wire (both available separately) **Kit includes:** •P-1044 hub, which allows connection of four line level sources, and acts as the system distribution point and power source •Four AB-124 amplified keypads •Power supply •Four IR emitters •Programmable IR remote control system •Mfr. #AB-904

MCM Part #	ONLY
50-13170	$841.77

CHANNEL VISION™

iBus® iPod® Dock

Designed for use in any A-BUS distributed environment, this wall mount iPod® dock serves as one line level audio input source. Compatible with most iPod® models, including 3rd and 4th generation, this dock provides charge function and supports IR control. Standard double gang device is compatible with decora devices and includes white cover plate, and connects to, and is powered by the A-BUS system via terminated or unterminated Cat 5 cable. Mfr. #AB-315.

MCM Part #	ONLY
50-13130	$115.50

CHANNEL VISION™

Amplified Wireless Audio Receiver

Designed to be used with Channel Vision's WA-320 (#50-12970), this single point wireless audio receiver features an integrated 100W amplifier, making it ideal for a distributed audio system or in a home theater. **Features:** •Operates on the 2.4GHz wireless frequency •50W/100W (RMS/max) class D amplifier •Subwoofer output •Local audio input which overrides the wireless signal •Frequency response: 20Hz~25KHz •Required power: 24VDC (adapter included) •Mfr. #WA350

MCM Part #	ONLY
50-12995	$177.78

CHANNEL VISION™

iBus Wall Mount iPod® Docking Stations

Channel Vision's docking station made for iPod® is designed for distributed audio systems. The dock connector easily adjusts to fit any iPod® and has a non-skid pad to help keep the music player secure. With its elegant and contemporary styling, it fits into any home or business décor. **Features:** •IR support: Compatible with universal or Apple® remote controls •Integrated IR receiver •Charges the iPod® while docked •Video output •Mounts in standard dual gang box •Compatible with all iPod®'s, including iPod® touch •#50-12960 features RS-232 support for use with advanced control systems

Distributed IR Control

Stellar Labs®

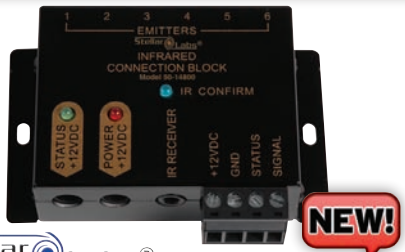

NEW!

IR Repeater System Connecting Hub

Compact hub is compatible with all Stellar Labs IR repeater system components. It is perfect for small systems where only one or two components needs to be controlled from a short distance. **Features:** •3.5mm IR target input •Two 3.5mm IR emitter outputs •Compatible with 38KHz and 56KHz IR systems •Requires 12VDC, AC adaptor included

MCM Part #	ONLY
50-14865	$14.99

NEW!

Stellar Labs®

Complete IR Repeater System

Complete kit includes everything needed to transmit infrared signal to up to four components located behind closet doors, in equipment racks or another room. **Features:** •Compatible with 38KHz and 56KHz IR systems •Includes four emitters, up to four additional emitters may be connected •Includes surface mount IR target with status indicator •Six 3.5mm IR outputs •3.5mm and terminal block IR input •Requires 12VDC, 1A max, AC adaptor included

MCM Part #	ONLY
50-14850	$39.99

NEW!

Stellar Labs®

IR Repeater System Connecting Hub

Active hub is compatible with all Stellar Labs IR repeater system components, and is identical to the hub included with the #50-14850 kit. Purchasing the hub separately allows installers to customize a particular set to exact system needs. **Features:** •3.5mm and screw terminal IR target inputs •12VDC status input •Status, power and IR confirm LED's •Six 3.5mm IR emitter outputs •Compatible with 38KHz and 56KHz IR systems •Requires 12VDC, AC adaptor included

MCM Part #	ONLY
50-14860	$19.99

VANCO™

NEW!

IR Over HDMI Sender Set

This set of components will allow you to easily send IR signals over existing HDMI cable. The complete set consists of two HDMI adapter units, an IR emitter and an IR target. Simply install an adapter unit at each end of the HDMI cable, plug an emitter into one end, and a target in to the other. It will work with any length of HDMI cable, no external power required. **Note:** Not compatible with HDMI cable extenders or splitters. **Sold individually**.

Fig.	MCM Part #	Description	ONLY
A	50-14610	HDMI adapter (two required)	$12.50

NEW!

Stellar Labs®

IR Over Coax Cable Repeater System

Separately available sender and receiver components allow IR signals to be carried over existing coaxial cable, along with CATV or antenna signals. This is perfect in retrofit applications where multiple sets are controlled by a single CATV or satellite box. They are compatible with all Stellar Labs IR targets and emitters, and when used with DC passive splitters, multiple IR injectors can feed a single IR coupler. IR injector: •3.5mm input for IR target, inserts IR signal into coax •Requires no power •Compatible with 38KHz and 56KHz IR systems IR coupler: •Two 3.5mm IR outputs •Takes IR signal from the coax and sends to connected emitters •Ideally located at the video source •Requires 12VDC, AC adaptor included

MCM Part #	Description	ONLY
50-14890	IR Injector	$7.99

NEW!

Keystone Mount IR Emitter Jack

3.5mm jack mounts in a standard keystone wall plate and provides simple tool-less connection of two conductor unterminated cable on the rear. Intended for IR emitters in distributed IR control systems, it is fully suitable for any application requiring a 2C 3.5mm wall mount jack. **Features:** •Rear spring terminals accept up to 22AWG wire •White color

MCM Part #	ONLY
50-14881	$4.99

Stellar Labs®

NEW!

Keystone Mount IR Target Jack

3.5mm jack mounts in a standard keystone wall plate and provides simple tool-less connection of three conductor unterminated cable on the rear. Intended for IR targets in distributed IR control systems, it is fully suitable for any application requiring a 3C 3.5mm wall mount jack including iPod® inputs and headphone jacks. **Features:** •Rear spring terminals accept up to 22AWG wire •White color

MCM Part #	ONLY
50-14882	$4.99

Distributed IR Control

Stellar Labs®

IR Repeater Emitters

Designed for use with Stellar Labs IR repeater systems •Attached 10' cord •3.5mm male plug •Available with single or dual emitters

MCM Part #	Type	ONLY
50-14870	Single	$4.99
50-14871	Dual	6.99

Stellar Labs®

Keystone Mount IR Repeater Target

Designed for use with Stellar Labs IR repeater systems, this target is compatible with all 38KHz and 56KHz IR remotes. •Mounts in standard keystone wall plates •Includes status LED •Rear push terminal accept unterminated wire

MCM Part #	ONLY
50-14880	$14.99

TERK TECHNOLOGIES

Universal Remote Control Extender

•Extends the range of any remote control and operates through walls and floors from up to 120' away •Free standing units works with most remote controls and A/V components •Installs easily and is expandable **Includes:** •Remote transmitter and receiver, AC adapters and IR blaster cable •Mfr. #LFIRX

MCM Part #	ONLY
80-5703	$37.58

CHANNEL VISION™

Simple IR Hub

Compact "Y" cable "hub" allows simple connection of one IR emitter to one IR target. Includes AC adapter: the only additional items required are the actual target and emitter. Connections are 3.5mm female. Mfr. #IR-1200.

MCM Part #	(ea.)	(2–up)
50-13004	$13.38	$12.37

CHANNEL VISION™

Universal IR Target

Ultra sleek and compact IR target features remote mounted electronics, allowing much greater flexibility when hiding among equipment. It is fully compatible with any Channel Vision IR distribution system and terminal strip connection allows use with conventional twisted pair cable. Mfr. #IR-2400

MCM Part #	ONLY
50-13015	$57.68

CHANNEL VISION™

Expandable Amplified IR Hub

Compact hub acts as the central connection point for multiple IR emitters and targets in a distributed system. IR target input accepts either a 3.5mm plug, or screw terminal connections for use with twisted pair cable. Four 3.5mm IR outputs allow connection of multiple emitters. Two LEDs are provided for power and LED status indication. AC adapter is included as well. Mfr. #IR-1203

MCM Part #	ONLY
50-13005	$25.67

CHANNEL VISION™

Wall Mount IR Target

Decora style target is compatible with any Channel Vision IR distribution system. Terminal strip connection allows use with conventional twisted pair cable, and decora style plate is compatible with standard wall plates. Attractive single gang snap-on cover plate attaches without hardware, for a sleek low profile look. Mfr. #IR-2005.

MCM Part #	ONLY
50-13010	$73.12

CHANNEL VISION™

All-in-One Complete IR System

Complete IR system includes an IR target, four-output distribution hub and four emitters, everything needed for complete IR remote control. It is perfect for use with wall mounted LCD or plasma displays, or in entertainment centers where components are located inside the cabinet. IR target cord length, 36", IR emitter cord length, 72". Kit includes mounting brackets, adhesive tape and AC adapter. Mfr. #IR-5000

MCM Part #	ONLY
50-13049	$71.67

CHANNEL VISION™

Universal IR Emitters

Compact IR emitters utilize 3.5mm male plugs for compatibility with all Channel Vision IR distribution systems, and most others. Units include adhesive mounting tape, allowing simple installation on the face of most equipment. Single head unit operates one device and includes 6' of attached cable. Dual head unit operates two devices simultaneously and includes 12' of attached cable.

MCM Part #	Mfr. #	Type	ONLY
50-13019	IR-3001	Single head	$4.33
50-13025	IR-3002	Dual head	7.50

CHANNEL VISION™

Bypass Cable

Use with channel Vision coax IR engine products to bypass amplified couplers and other devices that do not pass DC. Must be used with IR-4000 and IR-4100 couplers, sold separately. Mfr. #IR-4180

MCM Part #	ONLY
50-13039	$5.71

CHANNEL VISION™

Complete IR Over Coax System

In old-work and retrofit installations, the simplest method of sending IR remote control operation to another room, is over the coax cable already in use. This complete IR coax engine system will allow just that. The kit includes an IR coax engine, with power supply, a dual head IR emitter, and plasma proof IR target. Components connect in-line with existing RG59/U or RG6/U cable, with no effect on cable system performance. **Note:** Any splitters in the signal path between components must be DC passive. Mfr. #IR-4500

MCM Part #	ONLY
50-13045	$64.91

CHANNEL VISION™

IR Over Coax System Components

Individual IR engine components are useful when installing a custom IR system in an old-work or retrofit installation. The IR coax engine includes the necessary AC adapter and features a 3.5mm female connector, for use with any Channel Vision IR emitter, allowing it to receive IR commands via the existing RG59/U or RG6/U coax. The IR target includes the matching coax engine, allowing the IR signal to be inserted into the RG59/U or RG6/U coax. Both items are sold separately.

MCM Part #	Mfr. #	Description	ONLY
50-13029	IR-4000	IR Coax Engine	$27.78
50-13035	IR-4101	IR Coax Target	35.28

S–Video Balun

- ✔ *Accommodates S-video*
- ✔ *Seperate chroma and luminance paths*
- ✔ *Accepts unterminated Cat 5 cable*
- ✔ *1,000' max distance*

Back

Front

Use to send S–video signal over Cat 5 cable. Independent balun circuits provide separate paths for chroma and luminance signals, utilizing two pairs of Cat 5 cable. This balun features a female 4 pin S–video connector, and female RJ-45 jack. Utilizes pin 7/8 (luminance) and pin 4/5 (chroma). **Specifications:** •Bandwidth: DC~6MHz •Dimensions: 1.19" (dia.) x 2" (L) **Sold individually, must be used in pairs**

Micro Four Target IR Repeater Kit

Wall plate receiver

Ideal for controlling A/V products that may be hidden in a closet, enclosed in a cabinet, or in a different room, these infrared repeater kits include everything you need for a multi-room installation. Wall plate receivers are standard single gang, decora style. Each receiver is CFL proof, and plasma friendly. •Connection block: Allows for connection of up to four emitters, and ten infrared receivers •Infrared emitters: Each kit includes two dual infrared emitters •Power supply: 12VDC, 200mA power supply will power up to five infrared receivers

MCM Part #	Mfr. #	Color	ONLY
50-13360	IR-MICRO-4-W	White	$499.00

knoll

Infrared Repeater System Connection Modules

Available in either a standard block style, or a stylish decora style wall plate design, these connection modules are the heart of any IR distribution system. Connection modules connect to up to ten IR receivers, and distribute the signal to up to four single or dual IR emitters. •Decora cover not included

Single Target IR Repeater Kits

Ideal for controlling A/V products that may be hidden in a closet, enclosed in a cabinet, or in a different room, these infrared repeater kits include everything you need for a basic installation. **Includes:** •Infrared receiver: available in various configurations to suit your needs. Mini receiver is smaller than a quarter, and ideal for a simple, yet stealthy installation. Peephole receiver is ideal for custom installation, such as behind the grill of an in-wall speaker, or in a door, and includes interchangeable gold or white trim rings. Each receiver is CFL proof, and plasma friendly. •Connection block: Allows for connection of up to four emitters, and 10 infrared receivers •Infrared emitters: Each kit includes two dual infrared emitters •Power supply: 12VDC, 200mA power supply will power up to 5 infrared receivers

50-8359	IRE-4.0	Dual emitter w/visible LED	19.06

SpeakerCraft

Passive Terminator

The PT-1.0 passive terminator functions as central control unit for compact, single room IR systems, allowing connection of the power supply, up to two IR emitters and a single IR receiver, equipped with a four-conductor 3.5mm plug. 5~24VDC status input accepts status signal from IR controlled equipment, and provides visual indication at the IR receiver.

MCM Part #	Mfr. #	ONLY
50-8340	PT-1.0	$14.25

SpeakerCraft

Surface Mount Mini IR Receivers

Compact receivers are intended for surface mounting on cabinets, TV sets or the wall, with attached double sided adhesive. Clearly visible system status and IR activity LEDs provide positive feedback to the user. Models are available in black or white, with 8' attached lead, terminated with bare wire connections or SpeakerCraft's unique four-conductor 3.5mm plug. Black version, with stripped leads is also available with the ALR (ambient light restrictor) lens for use near plasma displays. Standard receivers provide a reception angle of 110°, the ALR version is 60°. Dimensions: 2 9/16" (L) x 17/32" (W) x 9/16" (L)

SpeakerCraft

SmartPath IR System Power Supplies

Supplies plug directly into SpeakerCraft terminator models AT-1.0 or PT-1.0 to provide power to the entire IR repeater system. Both high quality units are regulated at 12VDC, at the current rating shown below. The correct power supply, with sufficient current output, must be selected for the system in place. To calculate current requirements, simply add the current draw of each device to determine the total current needed. **Current draw of SpeakerCraft devices are as follows:** •IR emitters: 15mA •IR receivers: 6mA •IR blasters: 150mA •Terminator units AT-1.0 and PT-1.0 add no additional current draw

MCM Part #	Mfr. #	Current	ONLY
50-8361	PS-2.0	1200mA	$54.00
50-8362	PS-1.0	200mA	14.00

SpeakerCraft
Complete SmartPath IR Repeater System

Take the guess work out of setting up a typical one room system with this complete IR repeater kit, everything is included in one convenient package. **System includes:** •One IRC-3.0 shelf top receiver •One AT-1.0 amplified terminator unit •One PS-1.0 power supply •Four IRE-1.0 IR emitters

MCM Part #	Mfr. #	ONLY
50-8363	IRC-3.0 KIT	$179.98

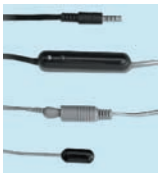

SpeakerCraft
Flush Mount Mini IR Receivers

Compact receivers require only a ½" hole, and may be mounted flush in cabinets or walls, leaving only a circular bezel exposed to the room. They may also be mounted behind the grill of most in-wall speakers. Each includes a set of four color bezels (almond, black, bone and white), to match any décor. Also included are two specially designed ALR (ambient light restrictor) bezels, for use near plasma displays. Clearly visible system status and IR activity LEDs provide positive feedback to the user. Models include an 8' attached lead, and are available with bare wire connections or SpeakerCraft's unique four-conductor 3.5mm plug. Receivers provide a reception angle of 110° standard, 60° with ALR bezel installed. **Dimensions:** •Unit: 13/32" diameter x 2⅛" (L) •Cap bezel: 47/64" diameter x ⅛" (L) •ALR bezel: 47/64" diameter x 23/64" (L)

MCM Part #	Mfr. #	Connection	ONLY
50-8310	IRC-1.0	3.5mm plug	$130.00

SpeakerCraft
Ultra Compact Plasma Block Mini IR Receivers

These units are designed to block plasma, CFL, EMI, and ESI noise sources, using SpeakerCraft's exclusive "smart" circuit (patent pending). The actual sensor and electronics are separated into separate "main" and "pick-up" modules, enabling installation into very tiny spaces of furniture recesses, monitor panels and under shelves. The main module houses the status and activity LEDs. Detachable lead between main and pick-up module totals 6' in length. The main module has attached 5' lead, terminated with bare wire connections or SpeakerCraft's unique four-conductor 3.5mm plug. Overall reception angle is 100°. Dimensions: •Pick-up module: ⅞" (L) x 13/32" (W) x 9/32" (D) •Main module: 2 1/16" (L) x 5/16" (W) x ½" (D)

MCM Part #	Mfr. #	Connection	ONLY
50-8320	IRC-2P2.0	3.5mm plug	$199.98

SpeakerCraft
Shelf Top IR Receivers

Compact receivers are housed in an attractive case to sit on the surface of a cabinet or shelf. Clearly visible system status and IR activity LEDs provide positive feedback to the user. Models include an 8' attached lead, terminated with SpeakerCraft's unique four-conductor 3.5mm plug. Provides a reception angle of 110°. Dimensions: 1⅛" (L) x 3 5/16" (W) x 1 1/16" (D)

MCM Part #	Mfr. #	ONLY
50-8325	IRC-3.0	$79.98

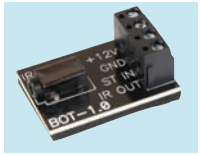

SpeakerCraft
Amplified Terminator Unit

The AT-1.0 amplified terminator unit functions as central control unit for large multi room IR systems, allowing connection of the power supply, IR emitters and receivers. EZ-connect terminal block allows connection of multiple daisy chained receivers. Four-conductor 3.5mm jack accepts connection of one similarly equipped receiver. This unit has a total of four outputs that will drive four emitters, or two emitters and two blasters. The EMX-1.0 expansion terminator (#50-8350) allows connection of additional emitters. 5~24VDC status input accepts status signal from IR controlled equipment, and provides visual indication at each IR receiver.

MCM Part #	Mfr. #	ONLY
50-8335	AT-1.0	$76.00

SpeakerCraft
Break Out Terminator

The BOT-1.0 breakout terminator provides bare wire connection to SmartPath IR receivers that are equipped with SpeakerCraft's standard four-conductor 3.5mm plug. This allows plug terminated receivers to be connected to the EZ-connect terminal blocks, as well as other brand three and four wire systems.

MCM Part #	Mfr. #	ONLY
50-8345	BOT-1.0	$10.00

SpeakerCraft
Emitter Cover

Prevents IR signals from interfering with other components. Fits over SmartPath IR emitters or components IR sensor window. Units measure 1" x 2" and may be trimmed to fit.

MCM Part #	Mfr. #	ONLY
50-8371	IR SHIELD	$2.50

SpeakerCraft
Emitter Expansion Terminator

The EMX-1.0 expansion terminator expands the number of outputs of the AT-1.0 amplified terminator unit. This passive device simply plugs into the emitter output of the AT-1.0, and provides up to ten emitter outputs. A feed through output is also provided, allowing multiple EMX-1.0s to be cascaded. Includes 12" cable for connection to the AT-1.0.

MCM Part #	Mfr. #	ONLY
50-8350	EMX-1.0	$22.00

AUDIOPLEX TECHNOLOGY
Miniature Infrared "Stick" Emitter

Mounts directly over existing components IR sensor. Mini size allows discrete placement. Adhesive backing allows easy placement. May be used as either an isolated or feed-through type. Dimensions: 1/16" x 1/16" x 3/16", lead length 6".

MCM Part #	ONLY
50-5647	$11.83

SpeakerCraft Automatic A/B Line Level Switch

This switching device automatically selects between two line level sources to a single input. L/R RCA female input/output connections accommodate left and right channels, making it perfect for all consumer electronic devices. Default input-A is selected when no signal is present. When a signal is sensed at input-B, the selector automatically switches to that input. A separate 12VDC, 100mA signal is also provided to trigger other external devices. Trigger sensitivity is fully adjustable from 10~100mV. Off delay (from B back to A after absence of signal) is adjustable in eight steps from 0.5 seconds to 10 minutes. This unit requires 12VDC. Optional AC adapter available (#50-8362).

Phono Preamplifier/ USB Interface

This high quality USB audio interface with standalone RIAA phono preamp acts as an interface between your computer and a wide variety of analog and digital sources. Analog inputs are switchable between phono and line level signals and a low cut filter removes rumble and wind noise while leaving the audio pristine. The front panel USB monitor/headphone ⅛" jack and the optical output on the rear panel can monitor audio output from your computer. Line output jacks are always connected to the input preamps signal for source monitoring. The unit may be powered by an external power source or from USB port. Optical TOSLINK in/outs and S/PDIF input let you use this as a digital audio to USB interface as well. Fully compliant with the USB 1.1 specification and uses USB adaptive mode for playback and USB asynchronous mode for record. It will work with the USB audio device drivers built into Windows 98SE/ME/2000/XP or Macs with native USB support OS9.1 or greater or OSX. No special drivers required. **Specifications:** •Frequency response: 10Hz~50KHz •THD: .01% dB •A/D & D/A: 16 bit, 44.1KHz or 48KHz USB selectable •Power requirements: 7~12VDC or 9~12VAC, 150mA, or USB bus •Dimensions: 1.75" (H) x 4.2" (W) x 3.5" (D)

Phono Input Attenuator

Device allows standard line level items to be played through magnetic phono inputs, commonly found on older home audio receivers and mixing consoles. CD/ DVD/ MP3 players, tape decks, VCRs, computer sound cards and tuners may now be connected to unused phono inputs. In addition to providing the required signal attenuation, this unit provides passive equalization to compensate for the RIAA curve that is present on magnetic phono inputs. Inputs are RCA female, outputs are male RCA connections on a 7" pigtail. Passive device requires no power. Dimensions: 1" (H) x 2.25" (W) x 3" (D)

60"~110" Home Theater Projection Screens

These fixed frame screens provide a perfectly flat viewing surface and also include a black velvet frame to minimize glare. Choose from three sizes of 80", 92" and 110" diagonal to fit your application. Each size includes two different screen types. Choose from the high contrast white material which offers high effective scattered screen angle or the dove gray material which offers the best black color reproduction for a theater like appearance. Hardware is included for easy hanging on the wall or from the ceiling.

Antibacterial Clean Remote

The Clean Remote has tested to be 99% cleaner than standard remotes. In several studies, TV remotes have been revealed to be a leading carrier of bacteria in a patient's room. With many cracks and crevices, they are nearly impossible to properly disinfect. The Clean Remote has a flat non-porous surface that makes it simple to clean and disinfect. **Features:** •Simple one touch set-up (no codes needed) •For TV only (will not work TV/DVD, VCR or DVD/VCR combination units) •Works over 250 brands of commercial and retail TVs •No menu button - So patients and guests cannot change settings •Hidden battery compartment and attached door to help prevent batteries from being taken

MCM Part #	(1-9)	(10-up)

audio-technica ½" or P-Mount Phono Cartridge with Stylus

•0.6mm conical •Frequency response: 20Hz~22KHz •Tracking force: 1.0~1.5 grams •Output: 5.0mV •Channel balance: 1.5dB •Mfr. #AT300P

MCM Part #	Description	ONLY
39-570	Cartridge with stylus	$29.99
39-600	Replacement stylus	20.99

NEW!

audio-technica.

½" or P-Mount Phono Cartridge with Stylus

•0.3 x 0.7mm elliptical •Frequency response: 15Hz~27KHz •Tracking force: 1.0~1.5 grams •Output: 5.0mV •Channel balance: 1.25dB •Mfr. #AT311EP

MCM Part #	Description	ONLY
39-580	Cartridge with stylus	$39.99
39-605	Replacement stylus	25.99

NEW!

audio-technica.

½" Mount Professional DJ Phono Cartridge with Stylus

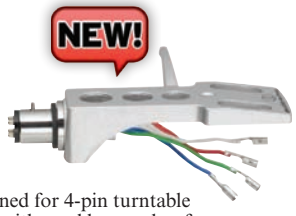

•0.4~0.7mm elliptical •Frequency response: 15Hz~22KHz •Tracking force: 3.0~5.0 grams •Output: 5.3mV •Channel balance: 1.5dB •Mfr. #ATP-2XN

MCM Part #	Description	ONLY
39-585	Cartridge with stylus	$159.00
39-620	Replacement stylus	89.99

NEW!

audio-technica.

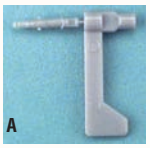

Universal ½" Mount Headshell

Features all-metal construction and an integral finger lift.

Specifications: •Designed for 4-pin turntable cartridges •Equipped with a rubber washer for a secure fit to your tone arm •Color-coded lead wires and cartridge mounting hardware •Designed to work with most turntables •Mfr. #AT-HS1

MCM Part #	ONLY
39-630	$24.95

Last Minute Additions

MCM CUSTOM AUDIO

8" Two Way Outdoor "Rock" Speaker

These simulated rocks will add a distinctive look to any outdoor landscaping arrangement, while providing outstanding music fidelity. Fully sealed enclosures are designed to provide years of trouble free service, and may be permanently installed and exposed to weather year round. **Features:** •70W RMS power capacity •8" injected polypropylene cone woofer •25mm mylar tweeter •High-quality 12dB crossover •55Hz~20KHz frequency response •88dB sensitivity •8ohm impedance •Dimensions: 13.39" x 11.03" x 12.21"

MCM Part #	ONLY
50-10540	$49.99

MCM CUSTOM AUDIO

Stereo Phono Preamp

•Allows use of turntables with magnetic cartridges, with computers sound card input •Boosts low level turntable signal to line level •RCA type female input and output connections •Great when transferring LPs to digital media •Frequency response: 30Hz~20KHz •Input level: 6mV •Output level: 500mV •SN ratio: >60dB •Requires 117VAC, 60Hz •Separately available cable (#24-6270) converts output connection to 3.5mm male plug for connection to computer sound card

MCM Part #	Description	(1-9)	(10-up)
40-630	Stereo phono preamp	$19.99	$18.99
24-6270	3.5mm male to two RCA male cable	1.49	-

MCM CUSTOM AUDIO

Phono Input Attenuator

Device allows standard line level items to be played through magnetic phono inputs, commonly found on older home audio receivers and mixing consoles. CD/DVD/ MP3 players, tape decks, VCRs, computer sound cards and tuners may now be connected to unused phono inputs. In addition to providing the required signal attenuation, this unit provides passive equalization to compensate for the RIAA curve that is present on magnetic phono inputs. Inputs are RCA female, outputs are male RCA connections on a 7" pigtail. Passive device requires no power. Dimensions: 1" (H) x 2.25" (W) x 3" (D)

MCM Part #	(1–3)	(4–11)	(12-up)
50-7240	$7.99	$7.59	$7.39

A R T
APPLIED RESEARCH AND TECHNOLOGY

Phono Preamplifier/USB Interface

This high quality USB audio interface with standalone RIAA phono preamp acts as an interface between your computer and a wide variety of analog and digital sources. Analog inputs are switchable between phono and line level signals and a low cut filter removes rumble and wind noise while leaving the audio pristine. The front panel USB monitor/ headphone ⅛" jack and the optical output on the rear panel can monitor audio output from your computer. Line output jacks are always connected to the input preamps signal for source monitoring. The unit may be powered by an external power source or from USB port. Optical TOSLINK in/outs and S/PDIF input let you use this as a digital audio to USB interface as well. Fully compliant with the USB 1.1 specification and uses USB adaptive mode for playback and USB asynchronous mode for record. It will work with the USB audio device drivers built into Windows 98SE/ ME/2000/XP or Macs with native USB support OS9.1 or greater or OSX. No special drivers required. **Specifications:** •Frequency response: 10Hz~50KHz •THD: .01% dB •A/D & D/A: 16 bit, 44.1KHz or 48KHz USB selectable •Power requirements: 7~12VDC or 9~12VAC, 150mA, or USB bus •Dimensions: 1.75" (H) x 4.2" (W) x 3.5" (D)
