

Connect Your Pocket PC to Wireless Networks!

Experience the speed and convenience of wireless networking on your PDA. The Wireless-G CompactFlash Card installs directly into your Pocket PC using a CompactFlash Type II slot. The user-friendly software makes it a snap to set up, and you're ready to share data, printers, or high-speed Internet access over your existing wireless network at speeds up to 54Mbps. It's also compatible with Wireless-B (802.11b) wireless networks.

Use the Wireless CompactFlash Card to connect your PDA to wireless networks at the office, at home, or in any of the growing number of public wireless hotspot venues springing up in coffee shops, airport lounges, hotels and convention centers.

With the Wireless-G CompactFlash Card you'll get more of what you own a PDA for – information at your fingertips with total mobility.

Wireless-G connectivity for most Pocket PCs

Fits in a CompactFlash (CF) Type II slot
