

## Fault tracing

The LivingColors will bring you a colorful world of opportunities.

If, however, you face one of the exceptional situations where :

1. LivingColors is not providing light,
  - check your batteries in the Remote Control
  - check the connections.
  - check the plug
2. LivingColors is still not working up to standards, please contact the Philips Lighting Contact Centre (Also see Warranty and Service).

## Cleaning and maintenance

Remove the plug from the wall socket.

The LivingColors and plug should only be cleaned with a soft dry cloth. Be careful for possible scratches.

Do not use cleaning agents

## Warranty and Service

For information or in case of a problem, please visit the Philips website at [www.philips.com/livingcolors](http://www.philips.com/livingcolors) or contact toll-free Philips Lighting Contact Centre: 00800-PHILIPSL or 00800-74454775

## Environment

If you discard the appliance in due course, dispose of it in accordance with the instructions of the local authority. Remove the batteries when you discard the remote control. Do not throw the batteries away with the normal household waste. Hand them in at an official collection point or at a Philips Dealer, which will dispose of the batteries in an environmental way.

## plug specification

AC Plug

Model: ADP-15GH

Input: 100-240 V ~ 0.5A 50-60Hz

Output: 5V ~ 2.68A

## Warranty

Philips' one year warranty is valid if the product is used in accordance with the instructions and for its intended purpose. Claims will only be accepted on submission of the original proof of purchase (invoice, sales slip or receipt) stating the purchase date, the name of the dealer and a description of the product.

The Philips warranty lapses if:

- anything has been changed, crossed out, deleted or rendered illegible on the purchase docket or product description.
- failures caused by damage, faulty connections or abuse.
- a defect is caused by extreme circumstances not inherent to the LivingColors, for example, lighting, flooding, fire, incorrect use or negligence.
- the LivingColors or plug have been opened (for other reasons as changing batteries) or disassembled.

## Introduction

Thank you for buying Philips LivingColors.

LivingColors has been specially designed to enable you to create your own ambience, through colour and light.

Before first use please read these instructions carefully. By following our guidelines you will enjoy the full functionality of Philips LivingColors.

Visit our website at [www.philips.com/livingcolors](http://www.philips.com/livingcolors) for more information about this product and to see a demonstration on the possible ambiances you can create at your home.

## Important

Read these instructions carefully before you use LivingColors for the first time and save them for future reference.

- Carefully remove the parts from the packaging.
- Check whether all parts are available (see below).
- Check the connections.

## Unpack

LivingColors

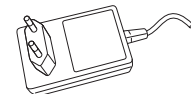

Remote control

3 AAA Batteries

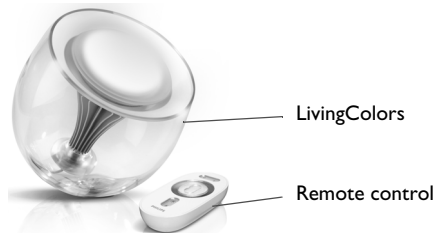

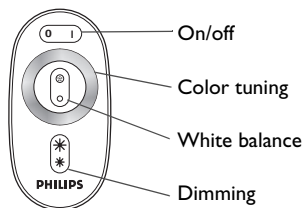

Support

Plug with cord  
(is packed at the bottom)

## LivingColors

## Safety instructions

Keep the plug and LivingColors away from liquids and humidity.

- LivingColors is for indoor use only, Do not use in wet locations, e.g. bathrooms or outdoors.
- LivingColors is not a toy designed to be played with by children.
- Do not place on hot surfaces.
- For safety reasons and under the terms of the warranty the LivingColors and plug must not be opened.
- Only use the plug supplied with the charger: using a plug with the wrong polarity or current can damage your LivingColors.

## Getting started

Open the battery compartment of the Remote Control by sliding the button at the back.

Insert the 3 AAA batteries( + and - as indicated).

Place LivingColors at a selected location on a level, stable surface. Depending on the surface, you could consider using the support (A) especially designed for LivingColors.

Direct LivingColors towards the wall, and insert the plug into the wall socket.

LivingColors will show a short introduction to the color possibilities (this is normal).

Switch LivingColors on by pushing the I (on) on the on/off button.

Create your own ambience by:

1. Touching the desired color on the touch ring,  
Move a finger over the touch ring for refining the color.

2. Deep full color through to white  
Push the white balance button, for a shorter or longer time, on A (⊕) for a deep color or on B (○) for more pastel ultimately through to white.

3. Dimming  
Increase (⊕) or decrease (⊖) the amount of light via the Dimming Button.

Switch off LivingColors by pushing the 0 (off) on the on/off button. LivingColors will remember the last setting.

## Extend the LivingColors possibilities

Up to 6 LivingColors can be connected. You can:

Independently:

- 1) Use more LivingColors independently with their remote control. Each LivingColors will then show the color chosen on each LivingColors.

All together

- 2) Operate 2 (or more) LivingColors with one remote control. They will then all show similar colors.
  - Hold the remote control with a finger on the "on" button, close to the Philips brand on the front of LivingColors.
  - LivingColors will flash 3 times, as a confirmation for being connected.
