

**REACH
REGULATION (EC) No 1907/2006 OF THE EUROPEAN PARLIAMENT
AND OF THE COUNCIL of 18 December 2006**

Dear Madam or Sir,

According to the provisions under REACH, Sensirion AG as a manufacturer of products is regarded as Downstream User with production located outside EU. This implies that Sensirion products are not subject to registration by definition.

All chemical substances contained in our products which may possibly be subject to registration, have to be registered exclusively by our suppliers.

To fulfil the customer request for product information referring to REACH regulations, we decided to pursue the implementation of REACH with our suppliers.

As a result we herewith can state that none of our products listed below contain any of the substances of the "candidate list" (Annex XIV of REACH, published by ECHA, June 1st, 2009) at a level > 0.1% (w/w).

Ref.: http://echa.europa.eu/chem_data/authorisation_process/candidate_list_table_en.asp.

Products (free of SVHCs):

SHT10

SHT11

SHT15

We are continuously observing the changes on suppliers' side that may cause implications for our products. Thus we will communicate any changes related to REACH regulations in a timely manner to all our customers of respective products.

If you have further questions concerning the implementation of REACH regulations in our company please do not hesitate to contact us.

Staefa, August 4th, 2009
