

Ultra Bright LED Strip Systems

PRO-LITE

New

- Self adhesive, ultra high output LED strip lighting
- Ideal for many applications including display, decorative, sign, under-shelf, and emergency lighting
- Flexible strips can be applied to curved edges such as pillars and tubes
- Allows for frequent cut points anywhere along the length of the strip, power is then provided at the adjacent connection point
- Different colours can be combined, with solder points every 50mm
- 60 LEDs per 1m length with 15mm separation between each LED
- IP54 rated
- LED Strip Kits comprise of 2m length of LED Strip lighting and a 10W 12V LED driver
- Additional lengths of LED strip are available in 1m lengths
- Additional LED drivers will be required if exceeding 4m length of LED strip or if exceeding the power supplied by the original driver

Voltage 12V DC Operating Temperature -40°C to +85°C
 LED Power (Single) 0.035W (R/Y), 0.08W (B/G/W) LED Strip Dimensions (WxD) 10 x 2.5mm
