Battery Safety

Batteries are small objects. Batteries must be replaced by an adult.
 Follow the polarity (+/-) diagram in the battery compartment.
 Promptly remove dead batteries from the toy.
 Dispose of used batteries properly.
 Remove batteries for prolonged storage.
 Only batteries of the same or equivalent type as recommended are to be used.
 DO NOT incinerate used batteries.
 DO NOT dispose of batteries in fire, as batteries may explode or leak.
 DO NOT mix old and new batteries or types of batteries (i.e., alkaline/standard).
 DO NOT use rechargeable batteries.
 NO NOT recharge non-rechargeable batteries.
 DO NOT short-circuit the supply terminals.

M1192

3/06/07

QUICK START

Cricket was designed specifically for children ages three or older, with safety and simplicity in mind. Cricket offers a simple means of control over what content your children are exposed to when they watch television.

Basic setup is very simple, so you can give the remote to the children in your household to begin using in just a few minutes.

Step 1: Installing Batteries

Using a Phillips screwdriver, remove the battery cover from the back side of the remote control. Insert 2 AAA batteries as shown below. Do not replace cover on battery compartment until programming is complete.

Step 2: Set Remote to Programming Mode

Set the switch located in the battery compartment to the middle position **P** to enter programming mode as shown below.

3-position switch

Step 3: Set TV Control (Optional)

1. With your television ON, and the remote in Programming mode, press the **VOL +** key. The LED blinks twice.

2. Refer to the TV codes in the back of this manual. Find your TV brand and enter the first code for that brand by using the number keys on the remote. When you press the fourth number key, the LED on the remote blinks twice to confirm a valid code.

To test the new TV code:

3. Slide the switch on the back of the remote to **CHILD** mode.

4. Point the remote at the TV and press **MUTE**. If the TV is muted, the code is correct. If the TV does not mute, you must try the next code for your brand.

5. Set the switch back to **P** for programming.

6. If **MUTE** did not work, repeat the SET TV Control process until the TV responds to **MUTE**.

NOTE: The remote must be in **CHILD** or **ADULT** mode to test the code

7. TV control can also be set by using a simple code search as shown on page 9.

Step 4: Programming the STAR and MOON buttons (optional)

Cricket comes pre-programmed with 8 favorite kids channels assigned to keys 3 through 0. Two additional favorite channels can be added to the **STAR(1)** and **MOON(2)** keys on the remote.

1. While in Programming mode, press and hold the **STAR(1)** button. Release the key when the LED blinks twice.

2. Press the digits for the channel number for the favorite channel that you wish to save to the **STAR(1)** button.

3. Press and hold the key **STAR(1)** button until the LED blinks twice. **STAR(1)** now is programmed to the channel that you have assigned.
4. Repeat steps above to assign a favorite channel to the **MOON(2)** button.

Step 5: Set the remote to **CHILD** mode

Set the switch located in the battery compartment to the left position to enter **CHILD** user mode. **CHILD** mode is for children and limits them to only have access to the ten programmed channels on the remote.

Step 6: Replace battery door

Secure the battery compartment door back in place with a Phillips screwdriver using the screw provided.

Your Cricket remote is now ready for use!

Refer to this manual for additional features and functions.

CUSTOMIZING THE IMAGE COMPARTMENT

Cricket comes with a customizable image compartment. This allows the remote to be customized for the child or children using the remote. A photo or image of your child's favorite character can be inserted in this location.

To replace default image

1. Using a coin or flat screwdriver, gently pry off the plastic lens.

Cut a photo or another image to the size of the circular image compartment and insert photo into opening.

Place picture

Replace clear plastic cover.

1. Slide tab in
2. Push down

LOW BATTERY INDICATION

When the battery power is low in the Cricket, the LED flashes five times with each key-press. Refer to “Step 1: Installing Batteries” on page 3 for battery replacement instructions.

FUNCTIONS AND KEY CHARTS

Use the illustration below to locate features on the Cricket and then study the Key Charts (on the next three pages) to learn how they function.

Key Charts

Key	Function
	Press ON/OFF to turn the television and cable box on or off.
	The STAR(1) and MOON(2) keys can be programmed to jump directly to the channel of your choice. When in programming mode, STAR is the 1 key and MOON is the 2 key.
	VOL + turns the TV volume up. VOL - turns the TV volume down. When in programming mode, VOL + initiates programming for TV and VOL - initiates programming for cable.
	MUTE mutes the TV volume. When in programming mode, MUTE acts as the SAVE key.
	CHILD MODE: CH ▲ and CH ▼ cycles through the ten programmed kids channels on the remote. ADULT MODE: CH ▲ and CH ▼ cycles the cable box through ALL cable channels. PROGRAMMING MODE: CH ▲ and CH ▼ cycles through codes to set control of your television or cable box.
	The eight pre-programmed keys with children network icons jump directly to the channel associated with the icon when in Child mode or Adult mode. While in programming mode, these keys act as number keys 3-0 for programming favorite channels.
 3-position switch	The three-position switch in the battery compartment is used to set the user or programming mode. CHILD mode is for children and limits them to only have access to the ten programmed channels on the remote. ADULT mode is for older kids or adults and allows access to all cable channels when using channel up/down. P is Programming mode and is used while setting up the remote control to control the TV, Cable box, and to add or modify favorite channels.

ADDITIONAL PROGRAMMING OPTIONS

Locate the three position switch within the battery compartment. Set the switch to the middle position **P** to enter programming mode.

When programming is complete, set the switch to either **CHILD** user mode or **ADULT** user mode before replacing the battery compartment door.

SETTING TV CONTROL

TV control can be set by inputting the code for your brand of TV or via a simple code search. Setting TV control by code input is described in the Quick Start on page 4.

Setting TV Code by Code Search

1. With your television ON, and the remote in Programming mode, press the **CH ▲** key. The LED blinks twice.
2. Press the **ON/OFF** key once.
3. Press the **CH ▲** key once per second until the TV turns off.
4. Press **ON/OFF**. If the TV turns on, press **MUTE** to save the TV code.
5. If the TV does not turn on, press **CH ▼** to go to the previous TV code and press **MUTE** to save once the TV turns on.

NOTE: There are over 200 possible codes, so this may take a few minutes.

RE-PROGRAMMING FAVORITE CHANNEL KEYS

Cricket comes pre-programmed with 8 favorite kids channels assigned to keys **3** through **0**. The pre-programmed buttons can be programmed to new channels by following the steps below.

CAUTION: This will program over the channel that was pre-programmed by your cable provider!

To program a favorite channel, follow these steps:

1. While in Programming mode, press and hold the key that you wish to assign a favorite channel. Release the key when the LED blinks twice.
2. Press the digits for the channel number for the favorite channel that you wish to add.
3. Press and hold the key that you wish to assign again until the LED blinks twice.

4. Repeat steps above to assign another favorite channel.
5. If the LED flashes one long blink, the entry failed and must be repeated.

ADVANCED FUNCTIONS

Most users won't need to perform any of the set-up procedures in this section.

Volume Control Settings

Volume control functions are defaulted to the TV that the remote is set to control. The volume control setting can be changed by following these instructions.

1. In **CHILD** or **ADULT** mode, hold down both **MUTE** and **ON/OFF** for three seconds, until the LED blinks twice.
 2. Enter **9 9 3** and press **VOL -** to lock volume control to the cable set-top-box
- Or
3. Enter **9 9 3** and press **VOL+** to lock volume control to the TV.

Channel Control Settings

Volume control functions are defaulted to the cable set-top-box. The channel control setting can be changed to be through the TV by following these instructions.

1. While in **CHILD** or **ADULT** mode, hold down both **MUTE** and **ON/OFF** for three seconds, until the LED blinks twice.
 2. Enter **9 7 3** and press **VOL+** to lock volume control to the TV
- Or
3. Enter **9 7 3** and press **VOL -** to lock volume control to the cable set-top-box.

POWER CONTROL SETTINGS

The **ON/OFF** key has a default setting to control power on both the cable set-top-box and TV each time it is pressed. Power control can be changed by following these steps:

1. In **CHILD** or **ADULT** mode, hold down both **MUTE** and **ON/OFF** for three seconds, until the LED blinks twice.
2. Enter **9 9 5** and press:
 - (1) to set **ON/OFF** to control TV and CBL
 - (2) to set **ON/OFF** to control CBL power only
 - (3) to set **ON/OFF** to control TV power only

SETTING CABLE CONTROL

In the event that you need to update Cricket to control your cable set-top-box, you can program the remote as follows:

1. While in **CHILD** or **ADULT** mode, hold down both **MUTE** and **ON/OFF** for three seconds, until the LED blinks twice.
2. Enter **9 8 2**. The LED blinks 4 times.
3. Put the 3-position switch in **Programming** mode.
4. Press the **VOL -** key. The LED blinks twice.
5. Find your **CBL/SAT** brand in the back of this manual. Enter the first code for that brand with the number keys on the remote. When you press the fourth number key, the LED on the remote blinks twice to confirm a valid code.
6. Slide the 3-position switch to **CHILD** or **ADULT** mode.
7. Press **CH ▲** to see if the set-top-box changes channels. If the channel changes, the remote control has been set.
8. If the channel does NOT change, repeat steps 1 through 3 for the next code for that brand of set-top-box.
9. If the LED flashes one long blink, the entry failed and must be repeated.

FCC NOTICE

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment has been verified to comply with the limits for a class B computing device, pursuant to FCC Rules. In order to maintain compliance with FCC regulations, shielded cables must be used with this equipment. Operation with non-approved equipment or unshielded cables is likely to result in interference to radio and TV reception. The user is cautioned that changes and modifications made to the equipment without the approval of manufacturer could void the user's authority to operate this equipment.
