

# ViewSonic® WPS-100 Wireless Print Server

802.11g WIRELESS USB PRINT SERVER

## Complete your wireless home network.

The ViewSonic WPS-100 Wireless Print Server with 802.11g technology completes your home or office wireless network. The WPS-100 allows both LAN and WAN users to print to the **ATTACHED PRINTER WHICH NO LONGER NEEDS TO BE TETHERED TO A COMPUTER**. The web-based interface makes it easy to configure and the remote management tools allow you to effortlessly adjust the configuration as needed. Compatible with most USB printers using PCL, PostScript, or ESC/P; it supports Windows 98SE/Me/2000/XP, Mac and Unix operating systems. With a range up to 300 feet indoors,\*\* the WPS-100 is the **COST EFFECTIVE CHOICE** for home and small office wireless network printing.

*Move your USB printer anywhere in your office or home network and print wirelessly.*

## Make your printer wireless.

### ••• Versatile connectivity

Wireless 802.11g connectivity supports TCP/IP, SMB, AppleTalk, and NewBEUI printer protocols and Windows, Mac and Unix operating systems.

### ••• Supports WEP/WPA wireless security

Supports robust WEP/WPA wireless security to ensure that your networked data is safe from Internet hackers.

### ••• Cost effective, space-saving alternative

With the wireless USB printer server you can connect all your networked users to the same printer and place it anywhere not tethered to a PC.

### ••• Easy installation and set up

The 10/100 auto-sensing feature on the LAN interface makes installation a snap. Easily configure the print server with the included software program. There are also a number of utilities programs supplied to simplify the set up.

### **Use with: Wireless Router**

*Network your home or small business with a ViewSonic WR100 Wireless Router which functions as the central gateway in your home network. Share your broadband files, printers and more.*
