

DEFCON™ KL

Notebook Computer Key Lock

USER'S GUIDE
Making Your Mobile Life Easier.

Targus DEFCON™ KL

Thank you for purchasing the Targus DEFCON KL Notebook Computer Key Lock. The cut and tamper-resistant DEFCON KL helps protect your valuable notebook computer from theft.

In addition to this user's guide, this package contains:

- DEFCON KL Notebook Computer Key Lock
- Two keys

If you are missing any parts, contact Technical Support immediately. For more information, refer to [“Technical Support” on page 7](#).

Registering the DEFCON KL

Registering the DEFCON KL enables you to order extra or replacement keys more efficiently by recording all of the information necessary to order keys, including the DEFCON KL key code.

To register, go to:

<http://www.targususa.com/accessories/DefconKL.htm>

You will need to provide your name, email address, phone number, DEFCON KL key code, and a password.

Once you register, you can order keys at any time by contacting Technical Support. For more information, refer to [“Ordering Replacement Keys” on page 7](#).

Locating the Key Code

The DEFCON KL key code is located on the key, under the cover. For your convenience, record the key code in the space provided at the end of this guide.

Using the DEFCON KL

Securing the DEFCON KL

Select an object in the room to which you will secure your notebook computer with the DEFCON KL.

 NOTE: Choose a large, heavy piece of furniture such as a table or desk, or an immovable fixture such as a closet hanging bar.

- 1 Take the looped end of the cable and wrap it around the selected object.

 NOTE: Wrap the cable around a part of the object that will deter an intruder from slipping the cable off (for example, a table or desk leg with a cross bar or a drawer handle).

- 2 Feed the locking device through the looped end of the cable as shown.

Securing the DEFCON KL to an object

Locking the DEFCON KL to your Notebook Computer

- 1 Check that the locking teeth are aligned in the unlocked position and then insert the key using slight pressure to depress the tumbler pins inside the locking device.

DEFCON KL unlocked

NOTE: If the locking teeth are in the locked position, unlock the DEFCON KL using the key. For more information, refer to [“Unlocking the DEFCON KL” on page 5](#).

- 2 Insert the locking device into your notebook computer's lock slot.
- 3 Turn the key counterclockwise, about 90 degrees, to activate the locking device.

Unlocking the DEFCON KL

WARNING: Do not attempt to remove the DEFCON KL without using the key. To do so will physically damage your notebook computer.

- 1 Line up the guide bar on your key with the guide notch on the locking device and insert the key using slight pressure to depress the tumbler pins inside the locking device.

NOTE: Hold the DEFCON KL with one hand while inserting the key for additional stability.

Inserting the key into the DEFCON KL

- 2 Turn the key clockwise, about 90 degrees, to align the locking teeth.

NOTE: You will hear a click when the locking teeth are aligned.

- 3 Remove the DEFCON KL from your notebook computer's lock slot.

Warranty

Targus warrants Targus accessories to be free from defects in material and workmanship for one year. If your Targus accessory is found to be defective within that time, we will promptly repair or replace it. This warranty does not cover accidental damage, wear and tear, or consequential or incidental loss. Under no conditions is Targus liable for loss of, or damage to, a computer; nor loss of, or damage to, programs, records, or data; nor any consequential or incidental damages, even if Targus has been informed of their possibility. This warranty does not affect your statutory rights.

Warranty Registration at:

http://www.targus.com/product_registration.asp

Technical Support

In the unlikely event that you encounter a problem with your Targus accessory, or to order missing parts or replacement keys, please contact Technical Support at:
