4. USB Charging Cable

Bluetooth® keyboard case for your iPad™

Welcome to tyPad™

Thank you for purchasing the all new tyPad, your must have companion for iPad. tyPad is specially designed to enhance your iPad experience, while providing valuable protection. tyPad is sleek, lightweight, and easy-to-use. It will turn your iPad into the ultimate portable workstation.

Here are some basic instructions to get you through the set-up and synchronization process.

After your initial set-up is complete, your iPad will automatically recognize your keyboard for continued use.

Getting Started:

Securing your iPad into the tyPad case

1. Open your tyPad case.
2. Unfold the tyPad case and position it so that the keyboard is facing you.
3. Carefully insert your iPad into the case via the opening at the top of the tyPad. The iPad should be inserted so that the volume buttons on the device are facing upwards. The Home key on the iPad will fit into the groove at the right hand side of the tyPad.

2

Getting Started (Cont'd):

4. Secure your iPad in place by fitting the protective flap of fabric over it. Fold the flap into the back part of the case so that it hugs the top and back of your iPad. When inserted properly, the iPad will fit snugly in the case.
5. Your iPad is now safely nestled in the case and ready to use.

Product Features:

1. **Bluetooth** wireless technology enabled 2.0 interface keyboard.
2. Re-chargeable lithium battery for keyboard.
3. Soft touch keys.
4. Faux leather protective case.
5. Home Screen key.

Keyboard Specifications:

1. **Bluetooth** V2.0 wireless technology
2. Working Distance: Approx. 33 feet
3. Transmitting Power: Class 2
4. Operating Voltage: 3.0-5.0V
5. Standby Time: 90 days
6. Continual Use Time: 55 hours
7. Charging Time: 3-3.5 hours
8. Li-ion Battery Capacity: 470 mAh
9. Operating Temperature: 32 to 122°F

Sync the **Bluetooth®** Keyboard

How to sync the keyboard with your iPad

Step 1: Make sure your iPad is turned on.

Step 2: Toggle the power switch to the ON position on the right side of keyboard. Both the power light and **Bluetooth** light will activate.

Step 3: Wait a full five (5) seconds before pressing the connect button on your keyboard. Once you press the connect button, the **Bluetooth** light will flash. Power light will remain lit.

Bluetooth Connect button

Power switch

Step 4: Click the Settings button on your iPad. Select General, then **Bluetooth**.

Settings

General

Bluetooth

5

Sync the **Bluetooth®** Keyboard (Cont'd):

Step 5: The iPad will search for your keyboard. Select "Bluetooth Wireless Keyboard" on the iPad screen.

Step 6: A message prompt will appear on your iPad screen. The prompt will provide you with a unique passkey to authorize the pairing of your iPad and **Bluetooth** wireless technology enabled keyboard. Enter the passkey exactly as it appears on the screen, then press the enter key on your keyboard. Your keyboard is now synched with your iPad device. If the passkey is entered incorrectly, the devices will not pair. You will have to repeat Step 5 and re-enter the passkey through the **Bluetooth** menu on your iPad.

Enter passkey and press enter key

6

Sync the **Bluetooth®** Keyboard (Cont'd):

Once the devices are successfully paired, the **Bluetooth** Wireless Keyboard will be listed as "Connected". Your iPad and keyboard will automatically sync each time you power on the keyboard and the iPad together.

Connect Button (⌘)

The connect button (⌘) is only for syncing your keyboard and iPad. Pressing the connect button (⌘) when the devices are already paired will unpair them. Follow the instructions on pages 5-6 to re-sync the keyboard with your iPad.

Home Screen Key (⏏)

Pressing the home screen key (⏏) on your keyboard will automatically return you to the home screen on your iPad. Pressing the home screen key (⏏) will awaken your keyboard when it is in standby mode and take you to the home screen on your iPad. (See STANDBY MODE below.)

Standby Mode

Your keyboard will automatically enter a standby mode when it is not in use to prolong battery life. When it is in standby mode the power light will turn off. The keyboard is still powered on and will come out of standby mode by pressing any key.

Charging Your Keyboard

When the power light begins flashing continuously, there is approximately one hour of battery life remaining. It's time to charge your keyboard.

Charging Your Keyboard (Cont'd):

Your tyPad charges via a USB port located on the right side of your keyboard next to the power switch, see figure on page 4. Use the provided USB cord, attaching the small end to your keyboard and the larger end to any USB port for charging. A red indicator light will appear to confirm that the unit is charging. When the red indicator turns off, charging is complete. (Approximate charging time: 3.5 hours)

Troubleshooting and Tips:

If you are unable to sync the **Bluetooth** keyboard to the iPad, please try the steps below:

1. Make sure your iPad is turned on and working properly. Make sure your keyboard is turned on.
2. Press and release the connect button on the top right of the **Bluetooth** keyboard. The red light will flash.
3. Make sure that your iPad is within effective range of the keyboard --If your iPad is nestled properly in the tyPad it is within range.

If the recommendations above do not solve the sync issue, reboot both your iPad and keyboard and try again. Follow the sync directions provided in this packet.

Please note that it may take up to 25 seconds for a new passkey to be generated.

TIP: When your battery is low, the power light on the keyboard will blink. You should charge your keyboard immediately to avoid losing data.

USER MANUAL

V.1012B

Dec 2010

TIP: When your keyboard device is inactive, it will enter standby mode. The keyboard lights will turn off. Your keyboard is not broken or powered off. Press any key (do NOT press connect button) and wait three seconds and the keyboard will revert to its normal state.

Storage

To prolong battery life, always switch the power on the keyboard to OFF after each use.

Disposal Guidelines

The built-in keyboard for your tyPad contains a Lithium Ion battery that may require special disposal. Should you decide to discard your tyPad after use, please remove the rechargeable Lithium Ion battery and discard it in accordance with your state's battery disposal guidelines. Contact your local or county waste department or recycling facility to obtain the disposal requirements for your area.

Attention:

1. Keep away from sharp objects.
2. Do not put objects on keyboard.
3. Do not force or distort keyboard.
4. Avoid contact with liquid or food.
5. Do not drop keyboard.
6. Keys may be wiped gently with a damp cloth only. Do not soak the keys in water. Only clean the keyboard when it is powered OFF.

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a class B digital device.

Pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy. If not installed and used in accordance with the instructions, it may cause harmful interference to radio or television reception. This can be determined by turning the equipment off and on. The user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

FCC ID: YX7-TY-101

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions; (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

FCC Caution: Any change or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

10

IMPORTANT NOTE:

December 2010

FCC Radiation Exposure Statement:

1. This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying RF exposure compliance.
2. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
